

and other VIEs (column C) for all items into a single column B covering all VIEs other than those used as securitization vehicles (which will continue to be reported in column A). In lieu of the detailed breakdown of assets and liabilities of ABCP conduit VIEs currently reported in column B, the Board proposes to collect data on the total assets and total liabilities of such VIEs in new data items 5 and 6, respectively. For these ABCP conduit VIEs, the total assets item would include the assets that could be used only to settle these VIEs' obligations, which are currently reported in items 1(a) through 1(k), column B, and all other assets of these VIEs, which are currently reported in item 3, column B; the total liabilities items would include these VIEs, liabilities for which creditors do not have recourse to the general credit of the reporting bank, which are currently reported in items 2(a) through 2(e), column B, and all other liabilities of the VIEs, which are currently reported in item 4, column B. In the two columns that would remain, the Board proposes to:

- Combine data items 1(b) and 1(c), pertaining to held-to-maturity and available-for-sale securities, into a single new item 1(b), Securities not held for trading;
- Combine data items 1(e) through 1(g), pertaining to loans and leases held for sale, loans and leases held for investment, and the allowance for loan and lease losses, into a single new item 1(c), Loans and leases held for investment, net of allowance, and held for sale;
- Combine data items 2(c) and 2(d), pertaining to commercial paper and other borrowed money, into a single new item 2(a), Other borrowed money;
- Delete data items 1(d), 1(h), and 1(i), pertaining to securities purchased under agreements to resell, trading assets (other than derivatives), and derivative trading assets. The data currently reported in these items would be included in existing data item 1(k), Other assets, which would be renumbered as data item 1(e). Existing data item 1(j) Other real estate owned would be renumbered 1(d); and
- Delete VIE detail on data items 2(a) and 2(b), pertaining to securities sold under agreements to repurchase and derivative trading liabilities. The data currently reported in these items would be included in existing data item 2(e), Other liabilities, which would be renumbered as data item 2(b).

Legal authorization and confidentiality: The FR Y-9 family of reports is authorized by section 5(c) of the Bank Holding Company Act (12

U.S.C. 1844(c)), section 10 of Home Owners' Loan Act (12 U.S.C. 1467a(b)) and section 618 of the Dodd-Frank Wall Street Reform and Consumer Protection Act ("Dodd-Frank Act") (12 U.S.C. 1850a(c)(1)), and section 165 of the Dodd-Frank Act (12 U.S.C. 5365). The obligation of covered institutions to report this information is mandatory.

With respect to the FR Y-9LP, FR Y-9SP, FR Y-9ES, FR Y-9CS, as well as most items on the FR Y-9C, the information collected would generally not be accorded confidential treatment. If confidential treatment is requested by a respondent, the Board will review the request to determine if confidential treatment is appropriate.

With respect to the FR Y-9C, Schedule HI's item 7(g) "FDIC deposit insurance assessments," Schedule HC-P's item 7(a) "Representation and warranty reserves for 1-4 family residential mortgage loans sold to U.S. government agencies and government sponsored agencies," and Schedule HC-P's item 7(b) "Representation and warranty reserves for 1-4 family residential mortgage loans sold to other parties" are considered confidential. Such treatment is appropriate because the data is not publicly available and could cause substantial harm to the competitive position of the respondent. The public release of this confidential data may impair the Board's future ability to collect similarly confidential data. Thus, this information may be kept confidential under exemptions (b)(4) of the Freedom of Information Act, which exempts from disclosure "trade secrets and commercial or financial information obtained from a person and privileged or confidential" (5 U.S.C. 552(b)(4)), and (b)(8) of the Freedom of Information Act, which exempts from disclosure information related to examination, operating, or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions (5 U.S.C. 552(b)(8)). If confidential treatment is requested by a respondent for other items in the FR Y-9C, the Board will review the request to determine if confidential treatment is appropriate.

Board of Governors of the Federal Reserve System, April 24, 2018.

Background on the CPSTF: The CPSTF is an independent, nonfederal panel whose members are appointed by the CDC Director. CPSTF members represent a broad range of research, practice, and policy expertise in prevention, wellness, health promotion, and public health. The CPSTF was convened in 1996 by the Department of Health and Human Services (HHS) to identify community preventive programs, services, and policies that increase healthy longevity, save lives and dollars, and improve Americans' quality of life. CDC is mandated to provide ongoing administrative, research, and technical support for the operations of the CPSTF. During its meetings, the CPSTF considers the findings of systematic reviews on existing research and practice-based evidence and issues recommendations. CPSTF recommendations are not mandates for compliance or spending. Instead, they provide information about evidence-based options that decision makers and stakeholders can consider when they are determining what best meet the specific needs, preferences, available resources, and constraints of their jurisdictions and constituents. The CPSTF's recommendations, along with the systematic reviews of the evidence on which they are based, are compiled in the *Guide to Community Preventive Services (The Community Guide)*.

Matters proposed for discussion: Mental Health (Effectiveness of School-Based Depression and Anxiety Prevention Interventions); Obesity Prevention and Control (Combined School-Based Diet and Physical Activity Interventions); Physical Activity (Effectiveness of Active Transportation to School Interventions); Women's Health (Exercise-based Interventions for Gestational Hypertension); and discussion of Community Guide effectiveness and economic methods. The agenda is subject to change without notice.
