**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of SEDAR 58 Data Scoping Webinar.

**SUMMARY:** The SEDAR 58 assessment of the Atlantic stock of Cobia will consist of a series of workshops and webinars: Data Workshop; Assessment Webinars; and a Review Workshop. See **SUPPLEMENTARY INFORMATION**.

**DATES:** The SEDAR 58 Data Scoping Webinar will be held on Wednesday, August 29, 2018, from 9 a.m. to 1 p.m.

**ADDRESSES:** The meetings will be held via webinar. The webinar is open to members of the public. Those interested in participating should contact Julia Byrd at SEDAR (see **FOR FURTHER INFORMATION CONTACT**) to request an invitation providing webinar access information. Please request webinar invitations at least 24 hours in advance of each webinar.

**SEDAR address:** South Atlantic Fishery Management Council, 4055 Faber Place Drive, Suite 201, N Charleston, SC 29405; [www.sedarweb.org](http://www.sedarweb.org).

**FOR FURTHER INFORMATION CONTACT:** Julia Byrd, SEDAR Coordinator, 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405; phone: (843) 571-4366; email: [julia.byrd@safmc.net](mailto:julia.byrd@safmc.net).

**SUPPLEMENTARY INFORMATION:** The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions, have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop; (2) Assessment Process utilizing webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include: Data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion at the Data Scoping webinar are as follows:

#### Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permits

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; request for comments.

**SUMMARY:** The Acting Assistant Regional Administrator for Sustainable Fisheries, Greater Atlantic Region, NMFS, has made a preliminary determination that an Exempted Fishing Permit application contains all of the required information and warrants further consideration. This Exempted Fishing Permit would allow four commercial fishing vessels, directed by Coonamessett Farm Foundation, to be exempt from Atlantic sea scallop regulations for the purpose of bycatch reduction research.

Regulations under the Magnuson-Stevens Fishery Conservation and Management Act require publication of this notification to provide interested parties the opportunity to comment on applications for proposed Exempted Fishing Permits.

**DATES:** Comments must be received on or before August 21, 2018.

**ADDRESSES:** You may submit written comments by any of the following methods:

- *Email:* [NMFS.GAR.EFP@noaa.gov](mailto:NMFS.GAR.EFP@noaa.gov). Include in the subject line "Comments on CFF Extended Link Apron EFP."

- *Mail:* Michael Pentony, Regional Administrator, NMFS, NE Regional Office, 55 Great Republic Drive, Gloucester, MA 01930. Mark the outside of the envelope "Comments on CFF Extended Link Apron EFP."

**FOR FURTHER INFORMATION CONTACT:** Shannah Jaburek, Fishery Management Specialist, 978-282-8456.

### SUPPLEMENTARY INFORMATION:

Coonamessett Farm Foundation (CFF) submitted a complete application for an Exempted Fishing Permit (EFP) on July 10, 2018, to conduct commercial fishing activities that the regulations would otherwise restrict. The EFP would authorize vessels to test the efficacy of an extended link scallop dredge apron at reducing the capture of yellowtail and windowpane flounder and small scallops over the duration of four directed research cruises. The EFP would support research associated with a project titled "Development of an Extended Link Apron: A Broad Range Tool for Bycatch Reduction," that has been funded under the 2017 Atlantic Sea Scallop Research Set-Aside (RSA) Program.

CFF is requesting exemptions that would exempt four commercial fishing vessels from the following regulations:

- Atlantic sea scallop days-at-sea (DAS) allocations at 50 CFR 648.53(b);
- Crew size restrictions at § 648.51(c);
- Dredge gear restrictions for minimum mesh size at § 648.51(b)(2) and gear obstructions at § 648.51(b)(4)(iii);
- Atlantic sea scallop observer program requirements at § 648.11(g);
- Access area program requirements at § 648.59(a)(1)-(3), (b)(2), (b)(4);
- Rotational closed area exemptions for Closed Area I Access Area at § 648.60(c), Closed Area II Access Area at § 648.60(d), and all four of the Nantucket Lightship areas at § 648.60(e)-(h); and
- Possession limits and minimum size requirements specified in 50 CFR part 648, subpart B and subparts D through O, to allow temporary possession for biological sampling.

Any fishing activity conducted outside the scope of the exempted fishing activity would be prohibited.

The project would consist of conduct four, 7-day research trips for a total of 28 days-at-sea on limited access (LA) vessels fishing on Georges Bank. All trips will take place from September
