

Overview of the Final RP II/EA

The Final RP II/EA is being released in accordance with the OPA, the NRDA regulations at 15 CFR part 990, and the NEPA (42 U.S.C. 4321 *et seq.*).

In the Final RP II/EA and FONSI, the AL TIG identified 20 preferred alternatives to be fully funded from restoration type funds, one preferred alternative to be partially funded from restoration type funds and partially funded from the AL TIG's Monitoring and Adaptive Management (MAM) allocation, and one activity to be fully funded using MAM funds. Specifically, the AL TIG selected the following projects as preferred alternatives:

Five Projects Within the Wetlands, Coastal, and Nearshore Habitats Restoration Type

- Magnolia River Land Acquisition (Holmes Tract)
- Weeks Bay Land Acquisition East (Gateway Tract)
- Weeks Bay Land Acquisition (Harrod Tract)
- Lower Perdido Islands Restoration Phase I (Engineering & Design (E&D))
- Southwest Coffee Island Habitat Restoration Project—Phase I (also evaluated and selected for funding under the Birds Restoration Type) (E&D)

Two Projects Within the Habitat Projects on Federally Managed Lands Restoration Type

- Little Lagoon Living Shorelines
- Restoring the Night Sky—Assessment, Training, and Outreach (also evaluated under the Sea Turtles Restoration Type and selected for funding under the Monitoring and Adaptive Management Allocation) (E&D)

Three Projects Within the Nutrient Reduction (Nonpoint Source) Restoration Type

- Toulmins Springs Branch E&D (E&D)
- Fowl River Nutrient Reduction
- Weeks Bay Nutrient Reduction

Four Projects Within the Sea Turtles Restoration Type

- Coastal Alabama Sea Turtle (CAST) Conservation Program—“Share the Beach”
- CAST Triage
- CAST Habitat Usage and Population Dynamics
- CAST Protection: Enhancement and Education

Two Projects Within the Marine Mammals Restoration Type

- Enhancing Capacity for the Alabama Marine Mammal Stranding Network

- Alabama Estuarine Bottlenose Dolphin Protection: Enhancement and Education

Two Projects Within the Birds Restoration Type

- Southwestern Coffee Island Habitat Restoration Project—Phase I (also evaluated and selected for funding under the Wetlands, Coastal, and Nearshore Habitats Restoration Type) (E&D)
- Colonial Nesting Wading Bird Tracking and Habitat Use Assessment—Two Species

Four Projects Within the Oysters Restoration Type

- Oyster Culch Relief and Reef Configuration
- Side-scan Mapping of Mobile Bay Relic Oyster Reefs (E&D)
- Oyster Hatchery at Claude Peteet Mariculture Center—High Spat Production with Study
- Oyster Grow-Out and Restoration Reef Placement

Two activities are proposed for funding, in whole or in part, with AL TIG's Monitoring and Adaptive Management Allocation:

- Assessment of Alabama Estuarine Bottlenose Dolphin Populations and Health
- Restoring the Night Sky—Assessment, Training, and Outreach (also evaluated and selected for funding under the Habitats on Federally Managed Lands Restoration Type) (E&D)

The Final RP II/EA also evaluates No Action Alternatives for each of the restoration types. AL TIG has determined that the restoration projects and monitoring and adaptive management activities proposed for funding are appropriate to partially compensate for the injuries for these restoration types described in PDARP/PEIS. In the Final RP II/EA, the Alabama TIG presents to the public its plan for providing partial compensation to the public for natural resources and ecological services injured or lost in Alabama as a result of the Deepwater Horizon Oil Spill. The projects described in the Final RP II/EA are most appropriate for addressing injuries to: Wetlands, Coastal and Nearshore Habitats; Habitat Projects on Federally Managed Lands; Nutrient Reduction (Nonpoint Source); Sea Turtles; Marine Mammals; Birds; and Oysters. The monitoring and adaptive management activities preferred for funding in the Final RP II/EA will also assist AL TIG in tracking project success and will inform and enhance future restoration

planning. In accordance with NEPA, and as part of the Final RP II/EA, the Trustees issued a FONSI. The FONSI is available in Appendix J of the Final RP II/EA.

Administrative Record

The DWH Trustees opened a publicly available Administrative Record for the NRDA for the Deepwater Horizon oil spill, including restoration planning activities, concurrently with publication of the 2011 Notice of Intent to Begin Restoration Scoping and Prepare a Gulf Spill Restoration Planning PEIS (pursuant to 15 CFR 990.45). The Administrative Record includes the relevant administrative records since its date of inception. This Administrative Record is actively maintained and available for public review. The documents included in the Administrative Record can be viewed electronically at the following location: <http://www.doi.gov/deepwaterhorizon/adminrecord>.
