BILLING CODE 4410-09-P

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Amended Consent Decree Under the Clean Air Act

On October 25, 2018, the Department of Justice lodged a proposed Amended Consent Decree with the United States District Court of the Virgin Islands in the lawsuit entitled *United States of America v. Virgin Islands Water and Power Authority*, Civil Action No. 3:14-cv-00086.

The original Consent Decree resolved the Clean Air Act violations as alleged in the Complaint filed by the United States on October 30, 2014. The violations alleged in the Complaint with respect to VIWAPA's St. Thomas facility include VIWAPA's failure to properly operate and/or maintain its water injection systems on its gas turbine units, failure to operate in compliance with NO_x, sulfuric acid mist, particulate matter and VOC emission limits, failure to operate in compliance with opacity limits, failure to perform required audits and maintain required quality data availability, failure to properly operate and calibrate the continuous emission monitoring systems (CEMS) for NO_x and CO, failure to conduct stack testing every 30 months, and failure to properly report non-compliance. The violations alleged in the Complaint with respect to VIWAPA's St. John facility concern VIWAPA's failure to comply with the RICE NESHAP regulations, failure to timely submit a Title V renewal application and operation without a Title V permit, and failure to conduct stack testing every 30 months.

The Consent Decree, entered by the Court on September 30, 2016, requires VIWAPA to generate a high percentage of its KWh from liquid propane gas or liquid natural gas and renewables, to implement a spare parts inventory program, to control NO_x emissions through improved operation of its water injection system, to maintain and operate continuous emissions monitoring systems on specified units, to operate a video camera system for visible emissions, to perform stack testing, and to conduct targeted self-audits and third party audits given its long term compliance problems. The

Consent Decree also required a \$1,300,000 penalty, which VIWAPA has paid. The proposed Amended Consent Decree makes certain changes to the Consent Decree, including: Updating references to current operating units; adding new units called reciprocating internal combustion engines to the requirements of Paragraph 13 and any requirements associated with the requirements of Paragraph 13; updating aspects of the Consent Decree that have become outdated and are no longer relevant to its enforcement; addressing the current status of the St. John Unit; edits to Paragraph 21 regarding the Atomizer on Unit 14; and adding a date certain for the performance of a stack test.

The Department of Justice will receive, for a period of thirty (30) days from the date of this publication, comments relating to the Consent Decree. Comments should be addressed to the Assistant Attorney General for the Environmental and Natural Resources Division, and should refer to *United States v. Virgin Islands Water and Power Authority*, DOJ Ref. # 90-5-2-1-10424. All comments must be submitted no later than thirty days after the publication date of this notice. SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA for revisions to the Consumer Expenditure Surveys: Quarterly Interview and Diary information collection. The BLS uses the Consumer Expenditure Surveys to gather information on expenditures, income, and other related subjects. The data is updated periodically in the national Consumer Price Index. In addition, the data is used by a variety of researchers in academia, government agencies, and the private sector. The data is collected from a national probability sample of households designed to represent the total civilian non-institutional population. The Census Authorizing Statute and BLS Authorizing Statute authorize this information collection. *See* 13 U.S.C. 8b and 29 U.S.C. 2.

This ICR has been characterized as a revision, because of several Quarterly Interview questions will be modified. These changes include collapsing the items codes for attachable campers and unattached campers into a single item code; regrouping the clothing sections for easier understanding by the respondent such as adding a *swimwear* category, regrouping items previously collected in the *Swimwear, swim cover-ups, or swimwear accessories* category, and renaming the *outerwear* section to *Coats and Jackets*; replacing questions on prepaid long distance calling cards with a question on prepaid cellular cards; and deleting the *Miscellaneous expenses/souvenirs* question in the trip section, as this has led to duplicate reports. Additionally, an extended recall section will be added on the point of purchase of items for consumer units (CUs) based on (1) the Primary Sampling Unit (PSU) in which the consumer unit resides (population group) and (2) whether the item was not reported by the consumer unit in the current reference period. Only a CU that does not report an expenditure for the item and resides in the PSU in which the extended recall section is being asked will receive these additional questions. In addition, a Consumer Expenditure Diary survey (CED) question will be added about the veteran status of each member of the
