

I. Public Participation

A. Submitting Comments

If you submit a comment, please include the docket number for this notice (Docket No. FMCSA–2018–0320), indicate the specific section of this document to which each comment applies, and provide a reason for each suggestion or recommendation. You may submit your comments and material online or by fax, mail, or hand delivery, but please use only one of these means. FMCSA recommends that you include your name and a mailing address, an email address, or a phone number in the body of your document so that FMCSA can contact you if there are questions regarding your submission.

To submit your comment online, go to <http://www.regulations.gov>, put the docket number, FMCSA–2018–0320, in the keyword box, and click “Search.” When the new screen appears, click on the “Comment Now!” button and type your comment into the text box on the following screen. Choose whether you are submitting your comment as an individual or on behalf of a third party and then submit.

If you submit your comments by mail or hand delivery, submit them in an unbound format, no larger than 8½ by 11 inches, suitable for copying and electronic filing. If you submit comments by mail and would like to know that they reached the facility, please enclose a stamped, self-addressed postcard or envelope.

FMCSA will consider all comments and material received during the comment period.

B. Viewing Documents and Comments

To view comments, as well as any documents mentioned in this notice as being available in the docket, go to <http://www.regulations.gov>. Insert the docket number, FMCSA–2018–0320, in the keyword box, and click “Search.” Next, click the “Open Docket Folder” button and choose the document to review. If you do not have access to the internet, you may view the docket online by visiting the Docket Management Facility in Room W12–140 on the ground floor of the DOT West Building, 1200 New Jersey Avenue SE, Washington, DC 20590, between 9 a.m. and 5 p.m., ET, Monday through Friday, except Federal holidays.

C. Privacy Act

In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information

the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at www.dot.gov/privacy.

II. Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from the FMCSRs for a five-year period if it finds such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption. The statute also allows the Agency to renew exemptions at the end of the five-year period. FMCSA grants exemptions from the FMCSRs for a two-year period to align with the maximum duration of a driver’s medical certification.

The individual listed in this notice has requested an exemption from 49 CFR 391.41(b)(8) and (9). Accordingly, the Agency will evaluate the qualifications of the applicant to determine whether granting the exemption will achieve the required level of safety mandated by statute.

The physical qualification standard for drivers found in 49 CFR 391.41(b)(8) states that a person is physically qualified to drive a CMV if that person has no established medical history or clinical diagnosis of epilepsy or any other condition which is likely to cause loss of consciousness or any loss of ability to control a commercial motor vehicle.

The physical qualification standard for drivers found in 49 CFR 391.41(b)(9) states that a person is physically qualified to drive a CMV if that person has no mental, nervous, organic, or functional disease or psychiatric disorder likely to interfere with his/her ability to drive a commercial motor vehicle safely.

In addition to the regulations, FMCSA has published advisory criteria¹ to assist Medical Examiners in determining whether drivers with certain medical conditions are qualified to operate a CMV in interstate commerce. [49 CFR part 391, APPENDIX A TO PART 391—MEDICAL ADVISORY CRITERIA, section H. *Epilepsy: § 391.41(b)(8)*, paragraphs 3, 4, and 5.]

The advisory criteria states that if an individual has had a sudden episode of a non-epileptic seizure or loss of consciousness of unknown cause that did not require anti-seizure medication,

the decision whether that person’s condition is likely to cause the loss of consciousness or loss of ability to control a CMV should be made on an individual basis by the Medical Examiner in consultation with the treating physician. The advisory criteria also states that a variety of functional disorders can cause drowsiness, dizziness, confusion, weakness or paralysis that may lead to incoordination, inattention, loss of functional control and susceptibility to accidents while driving.

In those individual cases where a driver had a seizure or an episode of loss of consciousness that resulted from a known medical condition (e.g., drug reaction, high temperature, acute infectious disease, dehydration, or acute metabolic disturbance), certification should be deferred until the driver has fully recovered from that condition, has no existing residual complications, and is not taking anti-seizure medication.

III. Qualifications of Applicants

Terry L. Curtner

Mr. Curtner, is a commercial driver in Illinois. A letter dated August 10, 2018, from Mr. Curtner’s neurologist reports that at his last July 31, 2018, follow-up evaluation, he was stable on a moderate daily dose of Nuvigil, and has not had any narcoleptic attacks or cataplexy in over 20 years.

IV. Request for Comments

In accordance with 49 U.S.C. 31136(e) and 31315, FMCSA requests public comment from all interested persons on the exemption petitions described in this notice. We will consider all comments received before the close of business on the closing date indicated in the dates section of the notice.

Issued on: November 20, 2018.

BILLING CODE 4910–EX–P

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[Docket No. FMCSA–2018–0208]

Qualification of Drivers; Exemption Applications; Vision

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of applications for exemption; request for comments.

¹ See http://www.ecfr.gov/cgi-bin/text-idx?SID=e47b48a9ea42dd67d999246e23d97970&mc=true&node=pt49.5.391&rgn=div5#ap49.5.391_171.a and <https://www.gpo.gov/fdsys/pkg/CFR-2015-title49-vol5/pdf/CFR-2015-title49-vol5-part391-appA.pdf>.

SUMMARY: FMCSA announces receipt of applications from 14 individuals for an exemption from the vision requirement in the Federal Motor Carrier Safety Regulations (FMCSRs) to operate a commercial motor vehicle (CMV) in interstate commerce. If granted, the exemptions will enable these individuals to operate CMVs in interstate commerce without meeting the vision requirement in one eye.

DATES: Comments must be received on or before December 27, 2018.

ADDRESSES: You may submit comments identified by the Federal Docket Management System (FDMS) Docket No. FMCSA-2018-0208 using any of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov>. Follow the online instructions for submitting comments.

- *Mail:* Docket Management Facility; U.S. Department of Transportation, 1200 New Jersey Avenue SE, West Building Ground Floor, Room W12-140, Washington, DC 20590-0001.

- *Hand Delivery:* West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., ET, Monday through Friday, except Federal Holidays.

- *Fax:* 1-202-493-2251.

To avoid duplication, please use only one of these four methods. See the "Public Participation" portion of the **SUPPLEMENTARY INFORMATION** section for instructions on submitting comments.

FOR FURTHER INFORMATION CONTACT: Ms. Christine A. Hydock, Chief, Medical Programs Division, (202) 366-4001, fmcsamedical@dot.gov, FMCSA, Department of Transportation, 1200 New Jersey Avenue SE, Room W64-224, Washington, DC 20590-0001. Office hours are 8:30 a.m. to 5 p.m., ET, Monday through Friday, except Federal holidays. If you have questions regarding viewing or submitting material to the docket, contact Docket Services, telephone (202) 366-9826.

SUPPLEMENTARY INFORMATION:

I. Public Participation

A. Submitting Comments

If you submit a comment, please include the docket number for this notice (Docket No. FMCSA-2018-0208), indicate the specific section of this document to which each comment applies, and provide a reason for each suggestion or recommendation. You may submit your comments and material online or by fax, mail, or hand delivery, but please use only one of these means. FMCSA recommends that

you include your name and a mailing address, an email address, or a phone number in the body of your document so that FMCSA can contact you if there are questions regarding your submission.

To submit your comment online, go to <http://www.regulations.gov>, put the docket number, FMCSA-2018-0208, in the keyword box, and click "Search." When the new screen appears, click on the "Comment Now!" button and type your comment into the text box on the following screen. Choose whether you are submitting your comment as an individual or on behalf of a third party and then submit.

If you submit your comments by mail or hand delivery, submit them in an unbound format, no larger than 8½ by 11 inches, suitable for copying and electronic filing. If you submit comments by mail and would like to know that they reached the facility, please enclose a stamped, self-addressed postcard or envelope.

FMCSA will consider all comments and material received during the comment period.

B. Viewing Documents and Comments

To view comments, as well as any documents mentioned in this notice as being available in the docket, go to <http://www.regulations.gov>. Insert the docket number, FMCSA-2018-0208, in the keyword box, and click "Search." Next, click the "Open Docket Folder" button and choose the document to review. If you do not have access to the internet, you may view the docket online by visiting the Docket Management Facility in Room W12-140 on the ground floor of the DOT West Building, 1200 New Jersey Avenue SE, Washington, DC 20590, between 9 a.m. and 5 p.m., ET, Monday through Friday, except Federal holidays.

C. Privacy Act

In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at www.dot.gov/privacy.

II. Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from the FMCSRs for a five-year period if it finds such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such

exemption. The statute also allows the Agency to renew exemptions at the end of the five-year period. FMCSA grants exemptions from the FMCSRs for a two-year period to align with the maximum duration of a driver's medical certification.

The 14 individuals listed in this notice have requested an exemption from the vision requirement in 49 CFR 391.41(b)(10). Accordingly, the Agency will evaluate the qualifications of each applicant to determine whether granting an exemption will achieve the required level of safety mandated by statute.

The physical qualification standard for drivers regarding vision found in 49 CFR 391.41(b)(10) states that a person is physically qualified to drive a CMV if that person has distant visual acuity of at least 20/40 (Snellen) in each eye without corrective lenses or visual acuity separately corrected to 20/40 (Snellen) or better with corrective lenses, distant binocular acuity of at least 20/40 (Snellen) in both eyes with or without corrective lenses, field of vision of at least 70° in the horizontal Meridian in each eye, and the ability to recognize the colors of traffic signals and devices showing standard red, green, and amber.

In July 1992, the Agency first published the criteria for the Vision Waiver Program, which listed the conditions and reporting standards that CMV drivers approved for participation would need to meet (Qualification of Drivers; Vision Waivers, 57 FR 31458, July 16, 1992). The current Vision Exemption Program was established in 1998, following the enactment of amendments to the statutes governing exemptions made by § 4007 of the Transportation Equity Act for the 21st Century (TEA-21), Public Law 105-178, 112 Stat. 107, 401 (June 9, 1998). Vision exemptions are considered under the procedures established in 49 CFR part 381 subpart C, on a case-by-case basis upon application by CMV drivers who do not meet the vision standards of 49 CFR 391.41(b)(10).

To qualify for an exemption from the vision requirement, FMCSA requires a person to present verifiable evidence that he/she has driven a commercial vehicle safely with the vision deficiency for the past three years. Recent driving performance is especially important in evaluating future safety, according to several research studies designed to correlate past and future driving performance. Results of these studies support the principle that the best predictor of future performance by a driver is his/her past record of crashes and traffic violations. Copies of the

studies may be found at Docket Number FMCSA–1998–3637.

FMCSA believes it can properly apply the principle to monocular drivers, because data from the Federal Highway Administration's (FHWA) former waiver study program clearly demonstrated the driving performance of experienced monocular drivers in the program is better than that of all CMV drivers collectively (See 61 FR 13338, 13345, March 26, 1996). The fact that experienced monocular drivers demonstrated safe driving records in the waiver program supports a conclusion that other monocular drivers, meeting the same qualifying conditions as those required by the waiver program, are also likely to have adapted to their vision deficiency and will continue to operate safely.

The first major research correlating past and future performance was done in England by Greenwood and Yule in 1920. Subsequent studies, building on that model, concluded that crash rates for the same individual exposed to certain risks for two different time periods vary only slightly (See Bates and Neyman, University of California Publications in Statistics, April 1952). Other studies demonstrated theories of predicting crash proneness from crash history coupled with other factors. These factors—such as age, sex, geographic location, mileage driven and conviction history—are used every day by insurance companies and motor vehicle bureaus to predict the probability of an individual experiencing future crashes (See Weber, Donald C., “Accident Rate Potential: An Application of Multiple Regression Analysis of a Poisson Process,” Journal of American Statistical Association, June 1971). A 1964 California Driver Record Study prepared by the California Department of Motor Vehicles concluded that the best overall crash predictor for both concurrent and nonconcurrent events is the number of single convictions. This study used three consecutive years of data, comparing the experiences of drivers in the first two years with their experiences in the final year.

III. Qualifications of Applicants

Doyle L. Bowen

Mr. Bowen, 50, has had a retinal detachment in his right eye since childhood. The visual acuity in his right eye is no light perception, and in his left eye, 20/15. Following an examination in 2018, his optometrist stated, “My medical opinion is that the patient would be safe to operate a commercial vehicle even with the visual deficiency

in his right eye.” Mr. Bowen reported that he has driven straight trucks for 12 years, accumulating 60,000 miles, and tractor-trailer combinations for 12 years, accumulating 12,000 miles. He holds an operator's license from New Mexico. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

Guillermo Casio Gamero

Mr. Casio Gamero, 49, has complete loss of vision in his right eye due to a traumatic incident in childhood. The visual acuity in his right eye is no light perception, and in his left eye, 20/25. Following an examination in 2018, his optometrist stated, “In my professional/medical opinion, Guillermo has sufficient vision to perform all the driving tasks required to operate a commercial vehicle, as he has been driving intrastate for many years.” Mr. Casio Gamero reported that he has driven straight trucks for eight years, accumulating 280,000 miles, and tractor-trailer combinations for eight years, accumulating 280,000 miles. He holds a Class A CDL from Washington. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

William L. Cave

Mr. Cave, 59, has had a retinal detachment in his left eye since childhood. The visual acuity in his right eye is 20/20, and in his left eye, light perception. Following an examination in 2018, his ophthalmologist stated, “In my opinion he has sufficient vision to obtain a commercial driving license and operate a commercial vehicle.” Mr. Cave reported that he has driven straight trucks for 40 years, accumulating 160,000 miles. He holds an operator's license from Maryland. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

Marc C. Goss

Mr. Goss, 59, has had diabetic retinopathy in his right eye since 2014. The visual acuity in his right eye is 20/400, and in his left eye, 20/20. Following an examination in 2018, his optometrist stated, “It is in my opinion that Marc's condition is stable and he is able to perform the driving tasks required to operate a commercial vehicle.” Mr. Goss reported that he has driven tractor-trailer combinations for 32 years, accumulating 3.2 million miles. He holds a Class A CDL from Nebraska. His driving record for the last three years shows no crashes and no

convictions for moving violations in a CMV.

Richard J. Hard

Mr. Hard, 54, has had glaucoma in his right eye since childhood. The visual acuity in his right eye is 20/60, and in his left eye, 20/20. Following an examination in 2018, his optometrist stated, “In my opinion, Mr. Hard has sufficient vision in his left (better) eye to perform the driving tasks required to operate a commercial vehicle.” Mr. Hard reported that he has driven straight trucks for 20 years, accumulating 1.2 million miles. He holds an operator's license from Indiana. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

Dennis W. Johnson

Mr. Johnson, 64, has had aphakia in his left eye due to a traumatic incident in childhood. The visual acuity in his right eye is 20/25, and in his left eye, 20/40. Following an examination in 2018, his optometrist stated, “I certify that Mr. Johnson has sufficient vision to perform the driving tasks required to operate a commercial vehicle.” Mr. Johnson reported that he has driven tractor-trailer combinations for 21 years, accumulating 147,420 miles. He holds a Class A CDL license from Missouri. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

Ken I. Johnson

Mr. Johnson, 47, has had amblyopia in his right eye since birth. The visual acuity in his right eye is 20/60, and in his left eye, 20/20. Following an examination in 2018, his optometrist stated, “Mr. Johnson has sufficient vision to perform driving tasks required to operate a commercial vehicle.” Mr. Johnson reported that he has driven straight trucks for nine years, accumulating 324,000 miles, and tractor-trailer combinations for 14 years, accumulating 1.7 million miles. He holds a Class A CDL from Georgia. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

Ibrahim F. Khashan

Mr. Khashan, 54, has had macular drusen in his right eye since 2015. The visual acuity in his right eye is 20/50, and in his left eye, 20/20. Following an examination in 2018, his optometrist stated, “In my opinion Mr. Khashan has adequate vision to operate a commercial motor vehicle.” Mr. Khashan reported that he has driven tractor-trailer

combinations for eight years, accumulating 1.32 million miles. He holds a Class AM CDL from Georgia. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

Shelby M. Kuehler

Mr. Kuehler, 39, has had aphakia in his left eye since childhood. The visual acuity in his right eye is light perception, and in his left eye, 20/20. Following an examination in 2018, his optometrist stated, "In my medical opinion Shelby has sufficient vision to perform driving tasks required to operate a commercial vehicle and, in fact, he has been operating commercial vehicles for the past fifteen years." Mr. Kuehler reported that he has driven straight trucks for 13 years, accumulating 455,000 miles, and tractor-trailer combinations for 13 years, accumulating 455,000 miles. He holds an operator's license from Kansas. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

Kendall S. Lane

Mr. Lane, 25, has a corneal scar in his left eye due to a traumatic incident in 2014. The visual acuity in his right eye is 20/20, and in his left eye, no light perception. Following an examination in 2018, his optometrist stated, "The fact that he has been doing his job operating a commercial vehicle with his currently stable condition is proof he has sufficient vision to perform his work duties as required." Mr. Lane reported that he has driven straight trucks for 30 years, accumulating 300,000 miles. He holds a Class A CDL from Oklahoma. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

Leonard Morris

Mr. Morris, 63, has had a chorioretinal scar in his left eye since 2013. The visual acuity in his right eye is 20/20, and in his left eye, hand motion. Following an examination in 2018, his optometrist stated, "In my opinion he has sufficient vision to operate a commercial vehicle." Mr. Morris reported that he has driven tractor-trailer combinations for 43 years, accumulating 2.15 million miles. He holds a Class A CDL from New Jersey. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

Gale L. O'Neil

Mr. O'Neil, 60, has had amblyopia in his right eye since childhood. The visual acuity in his right eye is 20/100, and in his left eye, 20/25. Following an examination in 2018, his optometrist stated, "He has sufficient vision to operate a commercial vehicle." Mr. O'Neil reported that he has driven straight trucks for 44 years, accumulating 660,000 miles. He holds an operator's license from Pennsylvania. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

Michael L. Sheldon

Mr. Sheldon, 53, has a cataract in his right eye due to a traumatic incident in 2005. The visual acuity in his right eye is 20/300, and in his left eye, 20/20. Following an examination in 2018, his optometrist stated, "In my opinion Michael has sufficient vision to drive a commercial vehicle." Mr. Sheldon reported that he has driven straight trucks for 22 years, accumulating 220,000 miles, and tractor-trailer combinations for 37 years, accumulating 1.48 million miles. He holds an operator's license from Nebraska. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

Pedro T. Tellez Alvarez

Mr. Tellez Alvarez, 26, has a chorioretinal scar in his right eye due to an infection in childhood. The visual acuity in his right eye is 20/125, and in his left eye, 20/25. Following an examination in 2018, his optometrist stated, "However, due to the childhood nature of this visual reduction Mr. Tellez Alvarez should have no difficulties operating a commercial vehicle due to the fact that recent onset visual losses impede drivers significantly more than longstanding vision losses." Mr. Tellez Alvarez reported that he has driven tractor-trailer combinations for three years, accumulating 255,000 miles. He holds a Class A CDL from California. His driving record for the last three years shows no crashes and no convictions for moving violations in a CMV.

IV. Request for Comments

In accordance with 49 U.S.C. 31136(e) and 31315, FMCSA requests public comment from all interested persons on the exemption petitions described in this notice. We will consider all comments and material received before the close of business on the closing date indicated in the dates section of the notice.

Issued on: November 21, 2018.

BILLING CODE 4910-EX-P

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[FMCSA Docket No. FMCSA-2018-0203]

Qualification of Drivers; Exemption Applications; Diabetes Mellitus

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT

ACTION: Notice of final disposition.

SUMMARY: FMCSA announces its decision to exempt 46 individuals from the prohibition in the Federal Motor Carrier Safety Regulations (FMCSRs) against persons with insulin-treated diabetes mellitus (ITDM) from operating a commercial motor vehicle (CMV) in interstate commerce. The exemptions enable these individuals with ITDM to operate CMVs in interstate commerce.

DATES: The exemptions were applicable on October 11, 2018. The exemptions expire on October 11, 2020.

FOR FURTHER INFORMATION CONTACT: Ms. Christine A. Hydock, Chief, Medical Programs Division, (202) 366-4001, fmcsamedical@dot.gov, FMCSA, Department of Transportation, 1200 New Jersey Avenue SE, Room W64-224, Washington, DC 20590-0001. Office hours are from 8:30 a.m. to 5 p.m., ET, Monday through Friday, except Federal holidays. If you have questions regarding viewing or submitting material to the docket, contact Docket Services, telephone (202) 366-9826.
