BILLING CODE 5001-06-P

DEPARTMENT OF DEFENSE

Office of the Secretary

[Docket ID DOD-2019-OS-0033]

Privacy Act of 1974; System of Records

AGENCY: Office of the Secretary, DoD.

ACTION: Notice of a Modified System of Records.

SUMMARY: The Office of the Secretary of Defense (OSD) proposes to modify a system of records, titled "Department of Defense (DoD) Insider Threat Management and Analysis Center (DITMAC) and DoD Component Insider Threat Records System," DUSDI 01-DoD. This system enables DoD to implement the requirements of Executive Order (E.O.) 13587, Structural Reforms to Improve the Security of Classified Networks and the Responsible Sharing and Safeguarding of Classified Information; and Presidential Memorandum dated November 21, 2012, the National Insider

Threat Policy and Minimum Standards for Executive Branch Insider Threat Programs. The system analyzes, monitors, and audits insider threat information to detect and mitigate DoD insider threats to U.S. Government installations, facilities, personnel, missions, or resources. The system supports the DITMAC and DoD Component insider threat programs, enables the identification of systemic insider threat issues and challenges, provides a basis for the development and recommendation of solutions to mitigate potential insider threats, and assists in identifying best practices from other Federal government insider threat programs.

The proposed modification to the system expands the population of covered individuals to include individuals with an active identification card, pass or credential from a DoD organization used to gain physical or logical access to a DoD facility, network, system or program. Modifications were made to the following sections of this system of records: System manager, purpose, categories of individuals, categories of records, and routine uses.

DATES: Comments will be accepted on or before April 22, 2019. This proposed action will be effective the date following the end of the comment period unless comments are received which result in a contrary determination.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

* *Federal Rulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

* *Mail:* Department of Defense, Office of the Chief Management Officer, Directorate for Oversight and Compliance, 4800 Mark Center Drive, Mailbox #24, Suite 08D09, Alexandria, VA 22350-1700.

Instructions: All submissions received must include the agency name and docket number for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: Brad Millick, Director, DoD Insider Threat Program, Office of the Under Secretary of Defense for Intelligence, 5000 Defense Pentagon, Washington, DC 20301-5000 or by phone at (703) 692-3721.

SUPPLEMENTARY INFORMATION: E.O. 13587 directs the implementation of a Department-wide insider threat detection and prevention program. The DoD Insider Threat Program is decentralized to enable DoD Component Insider Threat Programs and the DITMAC to analyze, monitor, and audit insider threat information for detection and mitigation. The program deters insider activity endangering DoD and U.S. Government installations, facilities, personnel, missions, or resources.

Section 951 of the National Defense Authorization Act for Fiscal Year 2017 (NDAA for FY17) expanded the definition of an insider threat to anyone who has, or once had, authorized access to information, a facility, a network, a person, or a resource of the Department. In response to this expansion, DoD is taking a measured approach and expanding the ability of its Component Insider Threat Programs and the DITMAC to store insider threat related information. This modification to the system of records enables DoD to comply with NDAA for FY17 by expanding the population to include individuals with an active identification card, pass or credential by a DoD organization used as proof of identity to gain physical or logical access to a DoD facility, network, system or program, in addition to those eligible to access classified information or hold sensitive positions and persons with Common Access Cards (CACs). This expansion further fulfills the intent of E.O. 13587 and maintains a responsive posture to the NDAA for FY17.

This revision leverages existing federal laws, statutes, authorities, policies, programs, systems, architectures and resources in order to counter those insiders who may use their authorized access to compromise or degrade DoD operations. The DoD and its insider threat programs employ risk management principles, tailored to meet the distinct needs, mission, and systems of its agencies, and include appropriate protections for privacy, civil rights, and civil liberties.

The OSD notices for systems of records subject to the Privacy Act of 1974, as amended, are published in the **Federal Register** and are available from the address in **FOR FURTHER INFORMATION CONTACT** or at the Defense Privacy, Civil Liberties, and Transparency Division website at <http://dpcl.d.defense.gov/privacy>. The proposed systems reports, as required by the Privacy Act, as amended, were submitted on December 17, 2018, to the House Committee on Oversight and Government Reform, the Senate Committee on Homeland Security and Governmental Affairs, and

the Office of Management and Budget (OMB) pursuant to Section 6 to OMB Circular No. A-108, "Federal Agency Responsibilities for Review, Reporting, and Publication under the Privacy Act," revised December 23, 2016 (December 23, 2016, 81 FR 94424).

Dated: March 19, 2019.

Alternate OSD Federal Register Liaison Officer, Department of Defense.

PURPOSE(S) OF THE SYSTEM:

The DITMAC was established by the Under Secretary of Defense for Intelligence to consolidate and analyze insider threat information reported by DoD Component insider threat programs. The DoD maintains this system of records to assist with managing DoD Component insider threat programs and the DITMAC in accordance with Executive Order (E.O.) 13587 and Section 951 of the National Defense Authorization Act for Fiscal Year 2017 (NDAA for FY17). E.O. 13587 requires Federal agencies to establish an insider threat detection and prevention program to ensure the security of classified networks and the responsible sharing and safeguarding of classified information consistent with appropriate protections for privacy and civil liberties. Section 951 of the NDAA for FY17 requires DoD insider threat programs collect, store, and retain information from various data sources, including personnel security, physical security, information security, law enforcement, counterintelligence, user activity monitoring, information assurance, and other appropriate data sources to detect and mitigate potential insider threats.

Insider threats including espionage, terrorism, the unauthorized disclosure of national security information

(including protected and sensitive information), and the loss or degradation of departmental resources or capabilities can damage the United States. The system will be used to analyze, monitor, and audit insider threat information for insider threat detection and mitigation within the DoD on persons eligible to access classified information and or hold a sensitive position. In addition, the system will monitor the insider threats from individuals with physical or logical access to a DoD installation or controlled information system via a Common Access Card (CAC) to DoD and U.S. Government installations, facilities, personnel, missions, or resources.

The system will support DoD Component insider threat programs, enable the identification of systemic insider threat issues and challenges and provide a basis for the development and recommendation of solutions to deter, detect, and/or mitigate potential insider threats. It will assist in identifying best practices among other Federal Government insider threat programs, through the use of existing DoD resources and functions and by leveraging existing authorities, policies, programs, systems, and architectures.

Port Arthur LNG, LLC: Application To Amend Application for Long-Term, Multi-Contract Authorization To Export Liquefied Natural Gas To Non-Free Trade Agreement Nations

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of amendment.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice of receipt of an application for amendment (Amendment), filed on October 18, 2018, by Port Arthur LNG, LLC (Port Arthur LNG) of its pending application in this proceeding. Previously, on June 15, 2015, Port Arthur LNG filed an application (Application) requesting authorization to export domestically produced liquefied natural gas (LNG) from a proposed natural gas processing, liquefaction, and export project it intends to construct, own, and operate in Port Arthur, Texas (Project), to any country with which the United States does not have a free trade agreement (FTA) requiring national treatment for trade in natural gas, and with which trade is not prohibited by U.S. law or policy (non-FTA countries). The Amendment requests a "design increase," *i.e.*, to increase the export volume requested in the Application by 181 billion cubic feet per year (Bcf/yr) of natural gas, to a total requested volume of 698 Bcf/yr (1.91 billion cubic feet per day (Bcf/d)). This proposed increase will align Port Arthur LNG's requested non-FTA export volume with the requested liquefaction capacity for the Project in an application filed with the Federal Energy Regulatory Commission (FERC).
