Federal Railroad Administration

[Docket Number FRA-2019-0029]

Notice of Application for Approval of Discontinuance or Modification of a Railroad Signal System

Under part 235 of Title 49 of the Code of Federal Regulations (CFR) and 49 U.S.C. 20502(a), this document provides the public notice that by a document received March 27, 2019, Lake Superior and Ishpeming Railroad (LSIR) petitioned the Federal Railroad Administration (FRA) seeking approval to discontinue or modify a signal system. FRA assigned the petition Docket Number FRA-2019-0029.

Applicant: Lake Superior and Ishpeming Railroad, Mr. Jesse Zimmerman, Supervisor Track, Structures, Signals, 311 M-35, Negaunee, MI 49866.

The LSIR requests approval to replace power-operated switches at control point (CP) Empire Mine, Milepost (MP) Q70.78, and CP Tilden Junction, MP Q71.23 on the Ore Subdivision, with hand-operated switches lined and locked for Main Line movements. Two switch point indicators will also be removed.

LSIR states the reason for the proposed change is the idling of the Empire Mine property that these switches serve. The Canadian National (CN) was using these switches as they had been the main carrier shipping out of the Empire Mine. Now that the Empire Mine is idled, CN no longer enters the property through these switches.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE, W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.
