OFFICE OF PERSONNEL MANAGEMENT

5 CFR Part 532

RIN 3206-AN93

Prevailing Rate Systems; Definition of Johnson County, Indiana, to a Nonappropriated Fund Federal Wage System Wage Area Wage Areas

AGENCY: Office of Personnel Management.

ACTION: Proposed rule.

SUMMARY: The Office of Personnel Management (OPM) is issuing a proposed rule that would define Johnson County, Indiana, as an area of application county to the Hardin-Jefferson, Kentucky, nonappropriated fund (NAF) Federal Wage System (FWS) wage area. This change is necessary because there is one NAF FWS employee working in Johnson County, and the county is not currently defined to a NAF wage area.

DATES: Send comments on or before October 21, 2019.

ADDRESSES: You may submit comments, identified by docket number and/or Regulatory Information Number (RIN) and title, by the following method:

SUPPLEMENTARY INFORMATION: OPM is issuing a proposed rule that would

define Johnson County, IN, as an area of application to the Hardin-Jefferson, KY, NAF FWS wage area. The Department of Defense notified OPM that the Army and Air Force Exchange Service now has one NAF FWS employee at Camp Atterbury in Johnson County.

Under section 532.219 of title 5, Code of Federal Regulations, each NAF wage area “shall consist of one or more survey areas, along with nonsurvey areas, if any, having nonappropriated fund employees.” Johnson County does not meet the regulatory criteria under 5 CFR 532.219 to be established as a separate NAF wage area; however, nonsurvey counties may be combined with a survey area to form a wage area. Section 532.219 lists the regulatory criteria that OPM considers when defining FWS wage area boundaries. This regulation allows consideration of the following criteria: Proximity of largest activity in each county, transportation facilities and commuting patterns, and similarities of the counties in overall population, private employment in major industry categories, and kinds and sizes of private industrial establishments.

Johnson County, IN, would be defined as an area of application to the Hardin-Jefferson, KY, NAF FWS wage area. The proximity criterion favors the Hardin-Jefferson wage area. The transportation facilities criterion does not favor one wage area more than another. However, there is more direct access from Camp Atterbury to Fort Knox, the host installation in the Hardin-Jefferson wage area, than from Camp Atterbury to Wright Patterson Air Force Base, the host installation in the Greene-Montgomery wage area. The commuting patterns criterion does not favor one wage area more than another. The difference between the resident workforce commuting to work in the Hardin-Jefferson and Greene-Montgomery survey areas is insignificant; however, marginally more people commute into the Hardin-Jefferson survey area (0.05%) than into the Greene-Montgomery survey area (0.02%). The overall population, employment sizes, and kinds and sizes of private industrial establishments criterion does not favor one wage area more than another. While a standard review of regulatory criteria shows mixed results, the proximity criterion favors the Hardin-Jefferson wage area.

Based on this analysis, we propose that Johnson County be defined to the Hardin-Jefferson NAF wage area.

With the definition of Johnson County to the Hardin-Jefferson NAF wage area, the Hardin-Jefferson wage area would consist of two survey counties (Hardin and Jefferson Counties, KY) and six area of application counties (Jefferson, Johnson, and Martin Counties, IN, and Fayette, Madison, and Warren Counties, KY). The Federal Prevailing Rate Advisory Committee, the national labor-management committee responsible for advising OPM on matters concerning the pay of FWS employees, recommended this change by consensus. This change would be effective on the first day of the first applicable pay period beginning on or after 30 days following publication of the final regulations.

Airworthiness Directives; Bombardier, Inc., Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: The FAA proposes to supersede Airworthiness Directive (AD) AD 2015-24-04, which applies to certain Bombardier, Inc., Model CL-600-2B19 (Regional Jet Series 100 & 440) airplanes, Model CL-600-2C10 (Regional Jet Series 700, 701, & 702) airplanes, Model CL-600-2D15 (Regional Jet Series 705) airplanes, Model CL-600-2D24 (Regional Jet Series 900) airplanes, and Model CL-600-2E25 (Regional Jet Series 1000) airplanes. AD 2015-24-04 requires repetitive inspections of the cage assembly for damaged or detached window louver panel assemblies (WLPAs) and blowout panels (BOPs), and corrective actions if necessary. Since AD 2015-24-04 was issued, the FAA has determined that new airworthiness limitations, as well as additional actions, are necessary to address the unsafe condition. This proposed AD would require one-time inspections of the WLPAs and BOPs, corrective actions if necessary, and a revision of the existing maintenance or inspection program, as applicable, to incorporate new airworthiness limitations, which would terminate the proposed inspection requirement. The FAA is proposing this AD to address the unsafe condition on these products.

DATES: The FAA must receive comments on this proposed AD by November 4, 2019.
