## INTERNATIONAL TRADE COMMISSION

[Investigation No. 731-TA-1020 (Third Review)]

### Barium Carbonate From China; Institution of a Five-Year Review

**AGENCY:** United States International Trade Commission.

**ACTION:** Notice.

**SUMMARY:** The Commission hereby gives notice that it has instituted a review pursuant to the Tariff Act of 1930 ("the Act"), as amended, to determine whether revocation of the antidumping duty order on barium carbonate from China would be likely to lead to continuation or recurrence of material injury. Pursuant to the Act, interested parties are requested to respond to this notice by submitting the information specified below to the Commission.

**DATES:** Instituted January 2, 2020. To be assured of consideration, the deadline for responses is February 3, 2020. Comments on the adequacy of responses may be filed with the Commission by March 16, 2020.

**FOR FURTHER INFORMATION CONTACT:** Mary Messer (202-205-3193), Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202-205-1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202-205-2000. General information concerning the Commission may also be obtained by accessing its internet server (<https://www.usitc.gov>). The public record for this proceeding may be viewed on the Commission's electronic docket (EDIS) at <https://edis.usitc.gov>.

#### SUPPLEMENTARY INFORMATION:

**Background.**—On October 1, 2003, the Department of Commerce ("Commerce") issued an antidumping duty order on imports of barium carbonate from China (68 FR 56619). Following the first five-year reviews by Commerce and the Commission, effective March 17, 2009, Commerce issued a continuation of the antidumping duty order on imports of barium carbonate from China (74 FR 11348). Following the second five-year reviews by Commerce and the Commission, effective February 17, 2015, Commerce issued a continuation of the antidumping duty order on imports of barium carbonate from China

(80 FR 8286). The Commission is now conducting a third review pursuant to section 751(c) of the Act, as amended (19 U.S.C. 1675(c)), to determine whether revocation of the order would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. Provisions concerning the conduct of this proceeding may be found in the Commission's Rules of Practice and Procedure at 19 CFR part 201, subparts A and B, and 19 CFR part 207, subparts A and F. The Commission will assess the adequacy of interested party responses to this notice of institution to determine whether to conduct a full review or an expedited review. The Commission's determination in any expedited review will be based on the facts available, which may include information provided in response to this notice.

**Definitions.**—The following definitions apply to this review:

(1) *Subject Merchandise* is the class or kind of merchandise that is within the scope of the five-year review, as defined by Commerce.

(2) *The Subject Country* in this review is China.

(3) *The Domestic Like Product* is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the *Subject Merchandise*. In its original determination, its expedited first five-year review determination, and its full second five-year review determination, the Commission defined one *Domestic Like Product* consisting of all barium carbonate, regardless of form or grade, coextensive with Commerce's scope.

(4) *The Domestic Industry* is the U.S. producers as a whole of the *Domestic Like Product*, or those producers whose collective output of the *Domestic Like Product* constitutes a major proportion of the total domestic production of the product. In its original determination, its expedited first five-year review determination, and its full second five-year review determination, the Commission defined the *Domestic Industry* as all domestic producers of barium carbonate, regardless of form or grade, coextensive with Commerce's scope.

(5) An *Importer* is any person or firm engaged, either directly or through a parent company or subsidiary, in importing the *Subject Merchandise* into the United States from a foreign manufacturer or through its selling agent.

**Participation in the proceeding and public service list.**—Persons, including industrial users of the *Subject*

*Merchandise* and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the proceeding as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11(b)(4) of the Commission's rules, no later than 21 days after publication of this notice in the **Federal Register**. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the proceeding.

Former Commission employees who are seeking to appear in Commission five-year reviews are advised that they may appear in a review even if they participated personally and substantially in the corresponding underlying original investigation or an earlier review of the same underlying investigation. The Commission's designated agency ethics official has advised that a five-year review is not the same particular matter as the underlying original investigation, and a five-year review is not the same particular matter as an earlier review of the same underlying investigation for purposes of 18 U.S.C. 207, the post employment statute for Federal employees, and Commission rule 201.15(b) (19 CFR 201.15(b)), 79 FR 3246 (Jan. 17, 2013), 73 FR 24609 (May 5, 2008). Consequently, former employees are not required to seek Commission approval to appear in a review under Commission rule 19 CFR 201.15, even if the corresponding underlying original investigation or an earlier review of the same underlying investigation was pending when they were Commission employees. For further ethics advice on this matter, contact Charles Smith, Office of the General Counsel, at 202–205–3408.

**Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and APO service list.**—Pursuant to section 207.7(a) of the Commission's rules, the Secretary will make BPI submitted in this proceeding available to authorized applicants under the APO issued in the proceeding, provided that the application is made no later than 21 days after publication of this notice in the **Federal Register**. Authorized applicants must represent interested parties, as defined in 19 U.S.C. 1677(9), who are parties to the proceeding. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

**Certification.**—Pursuant to section 207.3 of the Commission's rules, any person submitting information to the

Commission in connection with this proceeding must certify that the information is accurate and complete to the best of the submitter's knowledge. In making the certification, the submitter will acknowledge that information submitted in response to this request for information and throughout this proceeding or other proceeding may be disclosed to and used: (i) By the Commission, its employees and Offices, and contract personnel (a) for developing or maintaining the records of this or a related proceeding, or (b) in internal investigations, audits, reviews, and evaluations relating to the programs, personnel, and operations of the Commission including under 5 U.S.C. Appendix 3; or (ii) by U.S. government employees and contract personnel, solely for cybersecurity purposes. All contract personnel will sign appropriate nondisclosure agreements.

**Written submissions.**—Pursuant to section 207.61 of the Commission's rules, each interested party response to this notice must provide the information specified below. The deadline for filing such responses is February 3, 2020. Pursuant to section 207.62(b) of the Commission's rules, eligible parties (as specified in Commission rule 207.62(b)(1)) may also file comments concerning the adequacy of responses to the notice of institution and whether the Commission should conduct an expedited or full review. The deadline for filing such comments is March 16, 2020. All written submissions must conform with the provisions of section 201.8 of the Commission's rules; any submissions that contain BPI must also conform with the requirements of sections 201.6, 207.3, and 207.7 of the Commission's rules. The Commission's *Handbook on Filing Procedures*, available on the Commission's website at [https://www.usitc.gov/documents/handbook\\_on\\_filing\\_procedures.pdf](https://www.usitc.gov/documents/handbook_on_filing_procedures.pdf), elaborates upon the Commission's procedures with respect to filings. Also, in accordance with sections 201.16(c) and 207.3 of the Commission's rules, each document filed by a party to the proceeding must be served on all other parties to the proceeding (as identified by either the public or APO service list as appropriate), and a certificate of service must accompany the document (if you are not a party to the proceeding you do not need to serve your response).

No response to this request for information is required if a currently valid Office of Management and Budget ("OMB") number is not displayed; the OMB number is 3117 0016/USITC No. 19–5–450, expiration date June 30, 2020. Public reporting burden for the

request is estimated to average 15 hours per response. Please send comments regarding the accuracy of this burden estimate to the Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436.

*Inability to provide requested information.*—Pursuant to section 207.61(c) of the Commission's rules, any interested party that cannot furnish the information requested by this notice in the requested form and manner shall notify the Commission at the earliest possible time, provide a full explanation of why it cannot provide the requested information, and indicate alternative forms in which it can provide equivalent information. If an interested party does not provide this notification (or the Commission finds the explanation provided in the notification inadequate) and fails to provide a complete response to this notice, the Commission may take an adverse inference against the party pursuant to section 776(b) of the Act (19 U.S.C. 1677e(b)) in making its determination in the review.

## DEPARTMENT OF JUSTICE

### Bureau of Alcohol, Tobacco, Firearms, and Explosives

[Docket No. 2019R-04]

#### Commerce in Explosives; 2019 Annual List of Explosive Materials

**AGENCY:** Bureau of Alcohol, Tobacco, Firearms, and Explosives (ATF); Department of Justice.

**ACTION:** Notice of List of Explosive Materials.

**SUMMARY:** This notice publishes the 2019 List of Explosive Materials, as required by law. The 2019 list is the same as the 2018 list published by ATF, except that the 2019 list adds four explosives not previously listed.

**DATES:** The list becomes effective January 2, 2020.

**FOR FURTHER INFORMATION CONTACT:** Krissy Carlson, Chief, Firearms and Explosives Industry Division; Bureau of Alcohol, Tobacco, Firearms, and Explosives; United States Department of Justice; 99 New York Avenue NE, Washington, DC 20226; (202) 648-7120.

**SUPPLEMENTARY INFORMATION:** Pursuant to 18 U.S.C. 841(d) and 27 CFR 555.23, the Department of Justice must publish and revise at least annually in the *Federal Register* a list of explosives determined to be within the coverage of 18 U.S.C. 841 *et seq.* The list covers not only explosives, but also blasting agents and detonators, all of which are defined as "explosive materials" in 18 U.S.C. 841(c).

Each material listed, as well as all mixtures containing any of these materials, constitute "explosive materials" under 18 U.S.C. 841(c). Materials constituting blasting agents are marked by an asterisk. Explosive materials are listed alphabetically, and, where applicable, followed by their common names, chemical names, and/or synonyms in brackets. This list supersedes the List of Explosive Materials dated December 12, 2018 (Docket No. 2018R-03, 83 FR 63906).

The 2019 List of Explosive Materials is a comprehensive list, but is not all-inclusive. The definition of "explosive materials" includes "[e]xplosives, blasting agents, water gels and detonators. Explosive materials, include, but are not limited to, all items in the 'List of Explosive Materials' provided for in § 555.23." 27 CFR 555.11. Accordingly, the fact that an explosive material is not on the annual list does not mean that it is not within coverage of the law if it otherwise meets the statutory definition of "explosives"

in 18 U.S.C. 841. Subject to limited exceptions in 18 U.S.C. 845 and 27 CFR 555.141, only Federal explosives licensees and permittees may possess and use explosive materials, including those on the annual list.

Pursuant to its obligation to revise the list of explosives determined to be within the coverage of chapter 40 as set forth in 18 U.S.C. 841(d), the Department is adding four explosives to the 2019 List of Explosive Materials. The four explosives being added to the 2019 list, in alphabetical order, are: (1) "dipicryl sulfide" and its synonym "hexanitrodiphenyl sulfide"; (2) "nitrotriazolone" and its synonym "3-nitro-1,2,4-triazol-5-one"; (3) "trinitrobenzenesulfonic acid" and its synonym "picryl sulfonic acid"; and (4) "trinitrofluorenone." None of these four explosives previously appeared on the list under other names.

The Explosives Research and Development Division (ERDD) at ATF's National Center for Explosives Training and Research (NCETR) performs research and analysis on materials that may be characterized as explosives materials. Upon a comprehensive review of literature on the relevant material and comprehensive research to determine if the material is synonymous or has structural correspondence with other listed explosives, including review of the Department of Transportation's Hazardous Materials Table, the National Oceanic and Atmospheric Administration's CAMEO database, and other explosives community accepted materials, ATF determined that each of these substances is an explosive under 18 U.S.C. 841(d). The addition of these four explosives to ATF's annual list codifies ATF's determination that these are explosive materials regulated under 27 CFR part 555.

Furthermore, the addition of these four explosives to the annual list of explosive materials creates interagency consistency with the classification of these materials as regulated materials by ATF, the Department of Homeland Security (DHS), and the Department of Transportation (DOT). All of these substances are listed on DHS's Chemical Facility Antiterrorism Standards (CFATS) Appendix A: Chemicals of Interest (COI) List, *see* 6 CFR part 27 Appendix A; and DOT's Hazardous Materials Table, *see* 49 CFR 172.101. Therefore, for purposes of clarity and consistency, ATF is adding these explosives to the annual list.

As stated, the annual list of explosive materials is a comprehensive list, but is not all-inclusive. Businesses or others subject to the federal explosives
