

statistical review and analysis of the incidence and effects of prison rape.” The Act further instructs BJS to collect survey data: “. . . the Bureau shall . . . use surveys and other statistical studies of current and former inmates . . .”

To implement the Act, BJS developed the National Prison Rape Statistics Program (NPRS), which includes four separate data collection efforts: The Survey on Sexual Violence (SSV), the National Inmate Survey (NIS), the National Survey of Youth in Custody (NSYC), and the National Former Prisoner Survey (NFPS). The NIS collects information on sexual victimization self-reported by inmates held in adult correctional facilities, both prisons and jails. The NIS has been conducted three times, in 2007 (NIS-1), in 2008–09 (NIS-2), and in 2011–12 (NIS-3). Each iteration of NIS was conducted in at least one facility in all 50 states and the District of Columbia. In each iteration of the survey, inmates completed the survey using an audio computer-assisted self-interview (ACASI), whereby they heard questions and instructions via headphones and responded to the survey items via a touch-screen interface.

The collection requested in this notice is the fourth iteration of the National Inmate Survey. For NIS-4, administration of the survey in prisons will take place separately from survey administration in jails. This collection request is specific to conducting the survey in adult jail facilities.

The survey instrument for the NIS-4 in Jails is slightly modified from the previous iterations. The main difference is the addition of a new set of incident-specific questions administered to respondents who affirmatively indicate they were sexually victimized at some point in the previous 12 months while housed in their current jail facility. These incident-specific questions will provide information to the public on the nature of sexual victimization in jails, such as where incidents occurred within the facility, the relationship between the victim and the alleged perpetrator(s), and whether the victim suffered any injuries as a result of the incident, among other incident characteristics.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* Prior to data collection commencing in 2021, BJS will coordinate the logistics of NIS-4 survey administration with staff at state, local, and tribal correction facilities. Because the administration of this survey in prisons is not included in this request, the overall number of burden hours is

lower than in the last request approved in 2010. It is estimated that 225 facility respondents will devote 260 minutes of time to this coordination effort. During data collection in 2021, jail staff will escort an estimated 44,335 jail inmates to/from the interviews, which consists of a short consent administration and an approximately 35 minute survey.

6. *An estimate of the total public burden (in hours) associated with the collection:* This collection was previously approved for implementation in both adult prisons and jails. The current request will only be implemented in adult jails, thereby reducing the total number of facility staff and respondents required to participate. The total estimated NIS-4 Jails public burden, inclusive of facility staff and respondent burden estimates, is 43,982 hours. This comprises 12,061 hours of facility staff burden and 31,921 hours of respondent interviewing burden. This burden estimate assumes 100% participation from both facilities and inmates, but historically both facility and inmate participation have not reached 100%. We expect an inmate response rate of approximately 62%.

If additional information is required contact: Melody Braswell, Department Clearance Officer, United States Department of Justice, Justice Management Division, Policy and Planning Staff, Two Constitution Square, 145 N Street NE, 3E.405A, Washington, DC 20530.

Dated: April 6, 2020.

Melody Braswell,

Department Clearance Officer for PRA, U.S. Department of Justice.

BILLING CODE 4410-18-P

DEPARTMENT OF LABOR

Office of the Secretary

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Veterans' Employment and Training Service Competitive Grant Programs Reporting

ACTION: Notice of availability; request for comments.

SUMMARY: The Department of Labor (DOL) is submitting this Veterans' Employment and Training Service (VETS)-sponsored information collection request (ICR) to the Office of Management and Budget (OMB) for review and reinstatement in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that agency receives on or before May 11, 2020.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

Comments are invited on: (1) Whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) if the information will be processed and used in a timely manner; (3) the accuracy of the agency's estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (4) ways to enhance the quality, utility and clarity of the information collection; and (5) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT: Frederick Licari by telephone at 202-693-8073, TTY 202-693-8064, (these are not toll-free numbers) or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: The Department of Labor's VETS administers funds for the Homeless Veterans' Reintegration Program grants to state, local, and tribal governments; businesses and other for-profit and not-for-profit organizations on an annual program year basis. These competitive grants are codified under 38 U.S.C. 2021, 2021A, and 2023. VETS provides funds to competitively-awarded grantees through annual Funding Opportunity Announcements and option year funding. The total number of grantees varies based on the amount of available funds, awarded in grants up to \$500,000 each. The Assistant Secretary for Veterans' Employment and Training monitors and supervises the distribution and use of those funds as required by 38 U.S.C. 2021 (b). Additionally, and in accordance with 38 U.S.C. 2021 (d), the Secretary reviews performance and provides a biennial report to Congress on the program, including an evaluation of the services furnished to veterans and an analysis of the information we have collected. VETS intends to request approval for this information collection that streamlines the annual funding request

process for grantees, reports the use of grantee funds in sufficient detail to allow interim adjustments that ensure all appropriated funding is expended properly, and provides data needed for VETS' biennial report to Congress. The forms and reports collect required programmatic and financial data from grantees. The continued use of standardized formats for collecting this information helps to ensure that requested data is provided in a uniform way, reporting burdens are minimized, the impact of collection requirements on respondents are properly assessed, collection instruments are clearly understood by respondents, and the information is easily consolidated for posting in accordance with statutory requirements. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on September 19, 2019 (84 FR 49344).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks reinstatement and PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

Agency: DOL–VETS.

Title of Collection: Veterans' Employment and Training Service Competitive Grant Programs Reporting.

OMB Control Number: 1293–0014.

Affected Public: State, Local, and Tribal Governments; Private Sector: Businesses or other for-profits and not-for-profits institutions.

Total Estimated Number of Respondents: 1,078.

Total Estimated Number of Responses: 2,662.

Total Estimated Annual Time Burden: 11,004 hours.

Total Estimated Annual Other Costs Burden: \$0.

(Authority: 44 U.S.C. 3507(a)(1)(D))

Dated: April 3, 2020.

Frederick Licari,

Departmental Clearance Officer.

SUPPLEMENTARY INFORMATION: Section 103(h) of the Federal Mine Safety and

Health Act of 1977 (Mine Act), 30 U.S.C. 813(h), authorizes MSHA to collect information necessary to carry out its duty in protecting the safety and health of miners. Further, section 101(a) of the Mine Act, 30 U.S.C. 811, authorizes the Secretary of Labor to develop, promulgate, and revise as may be appropriate, improved mandatory health or safety standards for the protection of life and prevention of injuries in coal and metal and nonmetal mines. MSHA establishes standards and regulations for diesel-powered equipment in underground coal mines that provide additional important protection for coal miners who work on and around diesel-powered equipment. The standards are designed to reduce the risks to underground coal miners of serious health hazards that are associated with exposure to high concentrations of diesel particulate matter. The standards in sections 72.510(a) & (b), and 72.520(a) & (b) contain information collection requirements for underground coal mine operators. Section 72.510(a) requires underground coal mine operators to provide annual training to all miners who may be exposed to diesel emissions. The training must include: Health risks associated with exposure to diesel particulate matter; methods used in the mine to control diesel particulate concentrations; identification of the personnel responsible for maintaining those controls; and actions miners must take to ensure that controls operate as intended. Under Section 72.510(b) underground coal mine operators are required to keep a record of the training for one year. Section 72.520(a) and (b) requires underground coal mine operators to maintain an inventory of diesel powered equipment units together with a list of information about any unit's emission control or filtration system. The list must be updated within 7 calendar days of any change. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on January 27, 2020 (85 FR 4708).
