

several timing issues associated with calculation of the performance to enable the outcome payments. First, the period of performance for RESEA is January 1 through December 31. The reemployment outcomes data has a four-quarter lag (three quarters for reemployment outcomes to be available, and one quarter for state reporting). In order to allow time for necessary data collection and analysis, the distribution of funds will occur in December of the FY following the year in which the RESEA grant funds are awarded. For example, the outcome payments for FY 2020 will be made to states by December 31, 2021 (note that the UI and RESEA programs have five quarters to distribute funding in any fiscal year). The following schedule applies to the 2020 performance period:

- Data for performance period October 2019 through September 2020 is available for ETA review in November 2021;
- Once performance data is available, the pool of eligible states will be determined using the methodology outlined in Section III above; and
- Outcome payments will be distributed no later than December 2021.

Questions or comments concerning the proposed methodology for RESEA outcome payments must be submitted using the instructions set out in the **ADDRESSES** section above. Submitted comments will be a matter of public record and can posted on the internet, without redaction. The Department encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments. It is the responsibility of the commenter to determine what is personal or confidential business information.

Signed in Washington, DC.

Assistant Secretary for Employment and Training.
