

lines. Under section 1415(a)(3) of the Safe Drinking Water Act, on December 16, 2019, the U.S. EPA granted Denver Water a variance from the definition of "optimal corrosion control treatment" in 40 CFR 141.2. The Variance contains requirements to determine the efficacy the filter program. EPA will use the survey results that Denver Water annually distributes to determine the consumer filter adoption rate, and to confirm whether customers are using and maintaining the filters correctly, and per manufacturer's instructions. Each year, the filter adoption survey will be sent by Denver Water via postal mail to as many as 20,000 consumers that have known, suspected, and possible lead service lines. Surveys will be sent via direct mailings and will include an online completion option (the survey questions are included below). Direct mailings will be sent with a unique QR code to track which addresses responses have been received from. Surveys will be sent out in both English and Spanish. Additionally, Denver Water will annually conduct, in person surveys at a minimum of 50 locations in use by customers enrolled in the filter program. Information being collected is information on if, and how, consumers use the filter (e.g., for drinking, cooking, or making infant-fed formula), whether the customers are using and maintain the filters correctly (e.g., washing, replacing the filters per manufacturer's instructions), as well as demographic information to inform filter adoption rate by neighborhood or demographic group so Denver Water's health equity and environmental justice principles set forth in their variance request can be evaluated.

Form Numbers: 6700–009.

Respondents/affected entities: Customers of Denver Water or of other integrated systems that have either known or suspected lead service lines (LSLs).

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 20,001 (per year).

Frequency of response: Annually for three years.

Total estimated burden: 1,270 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$100,262 per year, includes \$1,000 annualized capital or operations & maintenance costs.

Changes in the Estimates: This is a new collection and therefore there are no changes in burden.

Courtney Kerwin,

Director, Regulatory Support Division.
