

all citizens to reach emergency services directly and efficiently, irrespective of whether a citizen uses wireline or wireless technology when calling for help by dialing 911. Efforts by federal, state and local government, along with the significant efforts of wireline and wireless service providers, have resulted in the nearly ubiquitous deployment of this life-saving service.

The Order the Commission adopted on May 19, 2005, sets forth rules requiring providers of VoIP services that interconnect with the nation's existing public switched telephone network (interconnected VoIP services) to supply E911 capabilities to their customers.

To ensure E911 functionality for customers of VoIP service providers the Commission requires the following information collections:

A. Location Registration. Requires providers to interconnected VoIP services to obtain location information from their customers for use in the routing of 911 calls and the provision of location information to emergency answering points.

B. Provision of Automatic Location Information (ALI). Interconnected VoIP service providers will place the location information for their customers into, or make that information available through, specialized databases maintained by local exchange carriers (and, in at least one case, a state government) across the country.

C. Customer Notification. Requires that all providers of interconnected VoIP are aware of their interconnected VoIP service's actual E911 capabilities. That all providers of interconnected VoIP service specifically advise every subscriber, both new and existing, prominently and in plain language, the circumstances under which E911 service may not be available through the interconnected VoIP service or may be in some way limited by comparison to traditional E911 service.

D. Record of Customer Notification. Requires VoIP providers to obtain and keep a record of affirmative acknowledgement by every subscriber, both new and existing, of having received and understood this advisory.

E. User Notification. In addition, in order to ensure to the extent possible that the advisory is available to all potential users of an interconnected VoIP service, interconnected VoIP service providers must distribute to all subscribers, both new and existing, warning stickers or other appropriate labels warning subscribers if E911 service may be limited or not available and instructing the subscriber to place them on or near the customer premises

equipment used in conjunction with the interconnected VoIP service.

Section 506 of RAY BAUM'S Act

Section 506 of RAY BAUM'S Act, which requires the Commission to "consider adopting rules to ensure that the dispatchable location is conveyed with a 9-1-1 call, regardless of the technological platform used and including with calls from multi-line telephone system." RAY BAUM'S Act also states that, "[i]n conducting the proceeding . . . the Commission may consider information and conclusions from other Commission proceedings regarding the accuracy of the dispatchable location for a 9-1-1 call" RAY BAUM'S Act defines a "9-1-1 call" as a voice call that is placed, or a message that is sent by other means of communication, to a PSAP for the purpose of requesting emergency services.

As part of implementing Section 506 of RAY BAUM'S Act, on August 1, 2019, the Commission adopted a *Report and Order (2019 Order)* amending, among other things, its 911 Registered Location and customer notification requirements applicable to VoIP service providers.

The Commission's *2019 Order* changed the wording of section 9.11's Registered Location requirements to facilitate the provision of automated dispatchable location in fixed and non-fixed environments. For non-fixed environments, the rule requires automated dispatchable location, if technically feasible. If not technically feasible, VoIP service providers may fall back to registered location, alternative location information for 911 calls, or a national emergency call center. Regarding customer notification requirements, the Commission afforded service providers flexibility to use any conspicuous means to notify end users of limitations in 911 service. In sum, the requirements adopted in the *2019 Order* leverage technology advancements since the *2005 Order*, build upon the existing Registered Location requirement, expand options for collecting and supplying end-user location information with 911 calls, are flexible and technologically neutral from a compliance standpoint and serve a vital public safety interest.

NET 911 Act

The NET 911 Act explicitly imposes on each interconnected voice over Internet Protocol (VoIP) provider the obligation to provide 911 and E911 service in accordance with the Commission's existing requirements. In addition, the NET 911 Act directs the

Commission to issue regulations by no later than October 21, 2008 that ensure that interconnected VoIP providers have access to any and all capabilities they need to satisfy that requirement.

On October 21, 2008, the Commission released a *Report and Order (2008 Order)*, FCC 08-249, WC Docket No. 08-171, that implements certain key provisions of the NET 911 Act. As relevant here under the Paperwork Reduction Act (PRA), the Commission requires an owner or controller of a capability that can be used for 911 or E911 service to make that capability available to a requesting interconnected VoIP provider under certain circumstances. In particular, an owner or controller of such capability must make it available to a requesting interconnected VoIP provider if that owner or controller either offers that capability to any commercial mobile radio service (CMRS) provider or if that capability is necessary to enable the interconnected VoIP provider to provide 911 or E911 service in compliance with the Commission's rules. The information collection requirements contained in this collection guarantee continued cooperation between interconnected VoIP service providers and Public Safety Answering Points (PSAPs) in complying with the Commission's E911 requirements.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0501; FRS 17045]

Information Collection Being Submitted for Review and Approval to Office of Management and Budget

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal Agencies to take this opportunity to comment on the following information collection. Pursuant to the Small Business Paperwork Relief Act of 2002, the FCC seeks specific comment on how it can further reduce the information

collection burden for small business concerns with fewer than 25 employees.

DATES: Written comments and recommendations for the proposed information collection should be submitted on or before October 8, 2020.

ADDRESSES: Comments should be sent to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. Your comment must be submitted into www.reginfo.gov per the above instructions for it to be considered. In addition to submitting in www.reginfo.gov also send a copy of your comment on the proposed information collection to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov. Include in the comments the OMB control number as shown in the **SUPPLEMENTARY INFORMATION** below.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection, contact Cathy Williams at (202) 418–2918. To view a copy of this information collection request (ICR) submitted to OMB: (1) Go to the web page <http://www.reginfo.gov/public/do/PRAMain>, (2) look for the section of the web page called “Currently Under Review,” (3) click on the downward-pointing arrow in the “Select Agency” box below the “Currently Under Review” heading, (4) select “Federal Communications Commission” from the list of agencies presented in the “Select Agency” box, (5) click the “Submit” button to the right of the “Select Agency” box, (6) when the list of FCC ICRs currently under review appears, look for the Title of this ICR and then click on the ICR Reference Number. A copy of the FCC submission to OMB will be displayed.

SUPPLEMENTARY INFORMATION: The Commission may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

As part of its continuing effort to reduce paperwork burdens, as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501–3520), the FCC invited the general public and other Federal Agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: (a) Whether the proposed collection of information is necessary for the proper

performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission’s burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology. Pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107–198, see 44 U.S.C. 3506(c)(4), the FCC seeks specific comment on how it might “further reduce the information collection burden for small business concerns with fewer than 25 employees.”

OMB Control Number: 3060–0501.

Title: Section 73.1942 Candidates Rates; Section 76.206 Candidate Rates; Section 76.1611 Political Cable Rates and Classes of Time.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 17,561 respondents; 403,610 responses.

Estimated Time per Response: 0.5 hours to 20 hours.

Frequency of Response: Recordkeeping requirement; On occasion reporting requirement; Semi-annual requirement; Third party disclosure requirement.

Obligation To Respond: Required to obtain or retain benefits. The statutory authority for this collection of information is contained in Sections 154(i) and 315 of the Communications Act of 1934, as amended.

Total Annual Burden: 927,269 hours.

Total Annual Cost: None.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Needs and Uses: Section 315 of the Communications Act directs broadcast stations and cable operators to charge political candidates the “lowest unit charge of the station” for the same class and amount of time for the same period, during the 45 days preceding a primary or runoff election and the 60 days preceding a general or special election.

The information collection requirements contained in 47 CFR 73.1942 require broadcast licensees and the requirements contained in 47 CFR 76.206 require cable television systems to disclose any station practices offered to commercial advertisers that enhance the value of advertising spots and different classes of time (immediately

preemptible, preemptible with notice, fixed, fire sale, and make good). These rule sections also require licensees and cable TV systems to calculate the lowest unit charge. Broadcast stations and cable systems are also required to review their advertising records throughout the election period to determine whether compliance with these rule sections require that candidates receive rebates or credits.

The information collection requirements contained in 47 CFR 76.1611 require cable systems to disclose to candidates information about rates, terms, conditions and all value-enhancing discount privileges offered to commercial advertisers.

FEDERAL COMMUNICATIONS COMMISSION

[DA 20–992; FRS 17049]

Federal Advisory Committee Act; Technological Advisory Council

AGENCY: Federal Communications Commission.

ACTION: Notice of public meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, this notice advises interested persons that the Federal Communications Commission’s (FCC) Technological Advisory Council will hold a meeting on Tuesday, September 22, 2020 via conference call and available to the public via the internet at <http://www.fcc.gov/live>, from 10:00 a.m. to 3 p.m.

DATES: Tuesday, September 22, 2020.

ADDRESSES: Federal Communications Commission, 445 12th Street SW, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Michael Ha, Deputy Chief, Policy and Rules Division 202–418–2099; michael.ha@fcc.gov.

SUPPLEMENTARY INFORMATION: At the September 22nd meeting, the FCC Technological Advisory Council will hear presentations from its four working groups: 5G/IOT/V–RAN, Future of Unlicensed Operations, Artificial Intelligence, and 5G Radio Access Network Technology. Meetings are broadcast live with open captioning over the internet from the FCC Live web page at <http://www.fcc.gov/live/>. The public may submit written comments
