AGENCY: Bureau of Indian Education, Interior.

ACTION: Proposed rule.

SUMMARY: Congress authorized the Director of the Bureau of Indian Education (BIE or Bureau) to enter into agreements with third parties to lease the land or facilities of a Bureau-operated school in exchange for funding that benefits the school. This proposed rule also establishes standards to implement authority provided by Congress for BIE personnel to fundraise on behalf of Bureau-funded schools.

I. Background

Public Law 112-74, as amended by Public Law 113-235 and Public Law 114-113, authorizes the Director of BIE, or the Director's designee, to enter into agreements with public and private persons and entities allowing them to lease the land or facilities of a Bureau-operated school in exchange for consideration (in the form of funds) that benefits the school. The head of the school determines the manner in which the consideration will be used to benefit the school, as long as the use is for school purposes otherwise authorized by law. Congress provided that any funds obtained under this authority will not affect or diminish appropriations for the operation and maintenance of Bureau-operated schools, and that no funds will be withheld from distribution to the budget of a school due to receipt of such funds.

This public law also allows personnel of Bureau-operated schools to participate in fundraising activity for the benefit of a Bureau-operated school in their official capacity, as part of their official duties.

To carry out these public law provisions, the Act requires the Secretary of the Interior to promulgate regulations. The Act provides that the regulations must include standards for the appropriate use of Bureau-operated

school lands and facilities by third parties under a rental or lease agreement; provisions for the establishment and administration of mechanisms for the acceptance of consideration for the use and benefit of a school; accountability standards to ensure ethical conduct; and provisions for monitoring the amount and terms of consideration received, the manner in which the consideration is used, and any results achieved by such use.

II. Summary of Proposed Rule

This proposed rule would establish a new Code of Federal Regulations (CFR) part to implement the leasing and fundraising authority that Congress granted to BIE under Public Law 112-74, as amended by Public Law 113-235 and Public Law 114-113. The leasing provisions of this rule would apply only to the facilities and land of Bureau-operated schools. This proposed rule would not apply to public schools, Public Law 100-297 Tribally controlled grant schools, or Public Law 93-638 contract schools. This proposed rule would implement statutory leasing authority specific to leasing of Bureau-operated school facilities and land and be separate from the general statutory authority for leasing. To obtain approval of a lease of a Bureau-operated facility or land, one would need to comply with this new regulation, rather than the more generally applicable regulations at 25 CFR part 162. We note that nothing in this rule affects 25 CFR 31.2, which allows for use of Bureau-operated school facilities or land for community activities and adult education activities upon approval by the superintendent or officer-in-charge, where no consideration is received in exchange for the use of the facilities. The fundraising provisions of this proposed rule would apply only to employees of schools operated by the BIE.

Subpart A of the proposed rule would set forth the purpose, definitions, and other general provisions applicable to both leasing and fundraising.

Subpart B would establish the mechanisms and standards by which the Bureau may lease Bureau-operated school facilities and land to third parties. The proposed rule allows only the BIE Director or his or her designee to enter into leases and sets forth the standards the BIE Director (or designee) will use to determine whether to enter into a lease, including that the lease

provides a net financial benefit to the school, that it meets certain standards (e.g., complies with the mission of the school, conforms to principles of good order and discipline), and ensures the lease does not compromise the safety and security of students and staff or damage facilities. This subpart also establishes what provisions a lease must include, what actions are necessary if permanent improvements are to be constructed under the lease, and how the Bureau will ensure compliance with the lease. This subpart provides that the Bureau may only accept funds (as opposed to in-kind consideration) as consideration for a lease and may only use the funds for school purposes. It establishes how the Director or his designee will determine what amount is proper for lease consideration, establishes the mechanics for lessees to pay consideration, and how the Bureau will process the funds. Bureau-operated school personnel would be required to report annually on any active lease to the Director and others, including an accounting of all expenditures and supporting documentation showing expenditures were made for school purposes.

Subpart C of the proposed rule addresses fundraising activities by employees of Bureau-operated schools in their official capacity on behalf of those schools. (Nothing in this proposed rule affects fundraising activities by students). This subpart allows authorized personnel to spend a reasonable portion of his or her official duties fundraising. This subpart limits the types of fundraising an employee may conduct to ensure fundraising maintains the school's integrity, the Bureau's impartiality, and public confidence in the school. Certain approvals would be required before personnel may accept a donation on behalf of a school, and each Bureau-operated school that receives donations would be required to report annually to the Director and others, including an accounting of all expenditures and supporting documentation showing expenditures were made for school purposes.

III. Tribal Consultation

The Department is hosting the following consultation session on this proposed rule:

IV. Procedural Requirements

A. Regulatory Planning and Review (E.O. 12866)

Executive Order (E.O.) 12866 provides that the Office of Information and Regulatory Affairs (OIRA) at the Office of Management and Budget (OMB) will review all significant proposed rules. OIRA has determined that this proposed rule is not significant.

E.O. 13563 reaffirms the principles of E.O. 12866 while calling for improvements in the Nation's regulatory system to promote predictability, to reduce uncertainty, and to use the best, most innovative, and least burdensome tools for achieving regulatory ends. The E.O. directs agencies to consider regulatory approaches that reduce burdens and maintain flexibility and freedom of choice for the public where these approaches are relevant, feasible, and consistent with regulatory objectives. E.O. 13563 emphasizes further that regulations must be based on the best available science and that the rulemaking process must allow for public participation and an open exchange of ideas. We have developed this rule in a manner consistent with these requirements.

B. Regulatory Flexibility Act

The Department of the Interior certifies that this document will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). It does not change current funding requirements and any economic effects on small entities would be fees charged for the use of the facilities, which must be tied to either fair market value or the costs to the Bureau of the lease and would not have a significant economic effect on the small entities.

C. Small Business Regulatory Enforcement Fairness Act

This proposed rule is not a major rule under 5 U.S.C. 804(2), the Small Business Regulatory Enforcement Fairness Act. This proposed rule:

- (a) Will not have an annual effect on the economy of \$100 million or more.
- (b) Will not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions.
- (c) Will not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of the U.S.-based enterprises to compete with foreign-based enterprises.

D. Unfunded Mandates Reform Act

This proposed rule does not impose an unfunded mandate on State, local, or Tribal governments or the private sector of more than \$100 million per year. The proposed rule does not have a significant or unique effect on State, local, or Tribal governments or the private sector. A statement containing the information required by the Unfunded Mandates Reform Act (2 U.S.C. 1531 *et seq.*) is not required.

E. Takings (E.O. 12630)

This proposed rule does not affect a taking of private property or otherwise have taking implications under Executive Order 12630. A takings implication assessment is not required.

F. Federalism (E.O. 13132)

Under the criteria in section 1 of Executive Order 13132, this proposed rule does not have sufficient federalism implications to warrant the preparation of a federalism summary impact statement. A federalism summary impact statement is not required.

G. Civil Justice Reform (E.O. 12988)

This proposed rule complies with the requirements of Executive Order 12988. Specifically, this rule:

- (a) Meets the criteria of section 3(a) requiring that all regulations be reviewed to eliminate errors and ambiguity and be written to minimize litigation; and
- (b) Meets the criteria of section 3(b)(2) requiring that all regulations be written in clear language and contain clear legal standards.

H. Consultation With Indian Tribes (E.O. 13175)

The Department of the Interior strives to strengthen its government-to-government relationship with Indian Tribes through a commitment to consultation with Indian Tribes and recognition of their right to self-governance and Tribal sovereignty. We have evaluated this proposed rule under the Department's consultation policy and under the criteria in Executive Order 13175 and have identified substantial direct effects on federally recognized Indian Tribes that will result from this rulemaking. The Department acknowledges that Tribes with children attending Bureau-operated schools have an interest in this proposed rule because it provides for consideration for the leasing of Bureau-operated schools and fundraising standards for employees of Bureau-operated schools. As such, the Department engaged Tribal government representatives by distributing a letter,

dated June 19, 2014, with a copy of the draft rule and requesting comment on the draft rule by July 31, 2014. The Department also published a proposed rule on June 21, 2016 (81 FR 40218) and hosted a listening session and two teleconference consultations on the rule, but received no substantive comments. The Department will be hosting a consultation session to discuss this proposed rule (see Section III. Tribal Consultation, of this preamble for details).

I. Paperwork Reduction Act

This proposed rule contains new information collections. All information collections require approval under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). We may not conduct or sponsor and you are not required to respond to a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. - (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

J. National Environmental Policy Act

This proposed rule does not constitute a major Federal action significantly affecting the quality of the human environment. A detailed statement under the National Environmental Policy Act of 1969 (NEPA) is not required because the environmental effects of this proposed rule are too speculative to lend themselves to meaningful analysis and will later be subject to the NEPA process, unless covered by a categorical exclusion. (For further information see 43 CFR 46.210(i)). We have also determined that the rule does not involve any of the extraordinary circumstances listed in 43 CFR 46.215 that would require further analysis under NEPA.

K. Effects on the Energy Supply (E.O. 13211)

This proposed rule is not a significant energy action under the definition in Executive Order 13211. A Statement of Energy Effects is not required.

L. Clarity of This Regulation

We are required by Executive Orders 12866 and 12988 and by the Presidential Memorandum of June 1, 1998, to write all proposed rules in plain language. This means that each proposed rule we publish must:

- a. Be logically organized;
- b. Use the active voice to address readers directly;
- c. Use clear language rather than jargon;
- d. Be divided into short sections and sentences; and

e. Use lists and tables wherever possible.

If you feel that we have not met these requirements, send us comments by one of the methods listed in the **ADDRESSES** section. To better help us revise the rule, your comments should be as specific as possible. For example, you should tell us the numbers of the sections or paragraphs that are unclearly written, which sections or sentences are too long, the sections where you believe lists or tables would be useful, etc.

M. Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

SUPPLEMENTARY INFORMATION: On March 10, 2020, PADEP submitted a revision to the Pennsylvania SIP to incorporate a plan for maintaining the 1997 ozone NAAQS in the State College Area through December 14, 2027, in accordance with CAA section 175A.

I. Background

In 1979, under section 109 of the CAA, EPA established primary and

secondary NAAQS for ozone at 0.12 parts per million (ppm), averaged over a 1-hour period. 44 FR 8202 (February 8, 1979). On July 18, 1997 (62 FR 38856),¹ EPA revised the primary and secondary NAAQS for ozone to set the acceptable level of ozone in the ambient air at 0.08 ppm, averaged over an 8-hour period. EPA set the 1997 ozone NAAQS based on scientific evidence demonstrating that ozone causes adverse health effects at lower concentrations and over longer periods of time than was understood when the pre-existing 1-hour ozone NAAQS was set.

Following promulgation of a new or revised NAAQS, EPA is required by the CAA to designate areas throughout the nation as attaining or not attaining the NAAQS. On April 30, 2004 (69 FR 23857), EPA designated the State College Area as nonattainment for the 1997 ozone NAAQS. The State College Area consists solely of Centre County.

Once a nonattainment area has three years of complete and certified air quality data that has been determined to attain the NAAQS, and the area has met the other criteria outlined in CAA section 107(d)(3)(E),² the state can submit a request to EPA to redesignate the area to attainment. Areas that have been redesignated by EPA from nonattainment to attainment are referred to as "maintenance areas." One of the criteria for redesignation is to have an approved maintenance plan under CAA section 175A. The maintenance plan must demonstrate that the area will continue to maintain the standard for the period extending 10 years after redesignation, and it must contain such additional measures as necessary to ensure maintenance as well as contingency measures as necessary to assure that violations of the standard will be promptly corrected.

On November 14, 2007 (72 FR 63990, effective December 14, 2007), EPA approved a redesignation request (and maintenance plan) from PADEP for the State College Area. In accordance with

¹ In March 2008, EPA completed another review of the primary and secondary ozone standards and tightened them further by lowering the level for both to 0.075 ppm. 73 FR 16436 (March 27, 2008). Additionally, in October 2015, EPA completed a review of the primary and secondary ozone standards and tightened them by lowering the level for both to 0.70 ppm. 80 FR 65292 (October 26, 2015).

² The requirements of CAA section 107(d)(3)(E) include attainment of the NAAQS, full approval under section 110(k) of the applicable SIP, determination that improvement in air quality is a result of permanent and enforceable reductions in emissions, demonstration that the state has met all applicable section 110 and part D requirements, and a fully approved maintenance plan under CAA section 175A.
