### Federal Energy Regulatory Commission

[Docket No. CP21–2–000]

#### Southern Star Central Gas Pipeline, Inc.; Notice of Availability of the Environmental Assessment for the Proposed

##### Lines DT and DS Replacement Project Amendment

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Lines DT and DS Replacement Project Amendment (Project), proposed by Southern Star Central Gas Pipeline, Inc. (Southern Star) in the above-referenced docket. Southern Star requests authorization to abandon Lines DT and DS entirely in-place, rather than primarily by removal in Anderson and Franklin Counties, Kansas. Southern Star contends that the abandonment of the pipeline facilities in-place would reduce impacts on landowners and the environment.

The EA assesses the potential environmental effects of the abandonment of the Project in accordance with the requirements of the National Environmental Policy Act (NEPA). The FERC staff concludes that approval of the proposed Project, with appropriate mitigating measures, would not constitute a major federal action

significantly affecting the quality of the human environment.

The proposed Project includes the abandonment in-place of approximately 31.8 and 31.4 miles of the Line DT and Line DS pipelines, respectively in Anderson and Franklin Counties, Kansas.

The Commission mailed a copy of the *Notice of Availability* to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; and newspapers and libraries in the project area. The EA is only available in electronic format. It may be viewed and downloaded from the FERC's website ([www.ferc.gov](http://www.ferc.gov)), on the natural gas environmental documents page (<https://www.ferc.gov/industries-data/natural-gas/environment/environmental-documents>). In addition, the EA may be accessed by using the eLibrary link on the FERC's website. Click on the eLibrary link (<https://elibrary.ferc.gov/eLibrary/search>), select General Search and enter the docket number in the "Docket Number" field (*i.e.*, CP21–2). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at [FercOnlineSupport@ferc.gov](mailto:FercOnlineSupport@ferc.gov) or toll free at (866) 208–3676, or for TTY, contact (202) 502–8659.

The EA is not a decision document. It presents the Commission staff's independent analysis of the environmental issues for the Commission to consider when addressing the merits of all issues in this proceeding. Any person wishing to comment on the EA may do so. Your comments should focus on the EA's disclosure and discussion of potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be. To ensure that the Commission has the opportunity to consider your comments prior to making its decision on this project, it is important that we receive your comments in Washington, DC on or before 5:00 p.m. Eastern Time on January 27, 2021.

For your convenience, there are three methods you can use to file your comments to the Commission. The Commission encourages electronic filing of comments and has staff available to assist you at (866) 208–3676 or [FercOnlineSupport@ferc.gov](mailto:FercOnlineSupport@ferc.gov). Please carefully follow these instructions so that your comments are properly recorded.
