

information coordination with State Drinking Water Agency and Community Water Systems to ensure that these agencies prepare and protect the community from contamination of their water.

The data collected in this survey will inform the Agency about how SERCs are fulfilling the requirements of the law, specifically in sharing key information among all appropriate State organizations and managing LEPCs and their activities. Additionally, the results of the survey will help to identify areas where SERCs are having difficulty meeting their requirements, the specific challenges they are facing, and will identify areas where EPA can better assist SERCs and LEPCs in implementing EPCRA and its amendments under AWIA.

**Abstract:** The EPA Pollution Prevention (P2) program is a voluntary program that encourages businesses/facilities to adopt P2 projects that reduce both financial costs (e.g. waste management and cleanup) and environmental costs (e.g. health problems and environmental damage). P2 is any practice that reduces environmental releases of hazardous substances, pollutants, or contaminants prior to entering a waste stream for recycling, treatment, or disposal. In

P2 conserves natural resources, including water and energy. Businesses or organizations may voluntarily submit an application for a P2 Award during the solicitation period. The solicitation period will be done on an annual basis and is open for approximately 2 months, once posted. The timing of open solicitation is dependent upon regional discretion but cannot be less than 40 business days. The system is being modified to change: (1) The system platform from Lotus Notes to Oracle APEX; (2) the system name from EPA Science Advisory Board (SAB) Database of Scientific and Technical Experts to Science Advisory Board Application (SABAPP); (3) to reduce the categories of records in the system; and (4) to stop collecting new records for the Council.

**DATES:** Persons wishing to comment on this system of records notice must do so by April 19, 2021. New routine uses for this new system of records will be effective April 19, 2021.

**ADDRESSES:** Submit your comments, identified by Docket ID No. EPA–HQ–OMS–2020–0472, by one of the following methods:

*Regulations.gov:* [www.regulations.gov](http://www.regulations.gov). Follow the online instructions for submitting comments.

Do not submit information that you consider to be CUI or otherwise protected through [www.regulations.gov](http://www.regulations.gov). The [www.regulations.gov](http://www.regulations.gov) website is an “anonymous access” system for EPA, which means the EPA will not know your identity or contact information

unless you provide it in the body of your comment. Each agency determines submission requirements within their own internal processes and standards. EPA has no requirement of personal information. If you send an email comment directly to the EPA without going through [www.regulations.gov](http://www.regulations.gov) your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the internet. If you submit an electronic comment, the EPA recommends that you include your name and other contact information in the body of your comment. Our Docket Center staff will continue to provide remote customer service via email, phone, and webform. We encourage the public to submit comments via <https://www.regulations.gov/> or email, as there may be a delay in processing mail and faxes. **FOR FURTHER INFORMATION CONTACT:** Aaron Yeow; [yeow.aaron@epa.gov](mailto:yeow.aaron@epa.gov); 202–564–2050, Physical Scientist, SAB Staff Office, U.S. Environmental Protection Agency, Mail Code 1400R, 1200 Pennsylvania Avenue NW, Washington, DC 20460.

**SUPPLEMENTARY INFORMATION:** The SAB Database of Scientific and Technical Experts system of records, EPA–58, is being migrated from the Lotus Notes platform to an Oracle platform as a result of the agency moving off of the Lotus Notes platform. In the process, EPA is changing the system name to Science Advisory Board Application (SABAPP) to have a more concise name. EPA is also reducing the categories of records stored in the system, as it will no longer store home contact information, e.g., address and telephone number. The SABSO no longer uses this information. The system will no longer collect new records for the Council because the committee has been retired. The existing Council records will be maintained for historical and record-keeping purposes.

#### SYSTEM NAME AND NUMBER:

Science Advisory Board Application (SABAPP) EPA–58.

#### SECURITY CLASSIFICATION:

#### SYSTEM LOCATION:

National Computer Center (NCC), 109 TW Alexander Drive, Research Triangle Park, Durham, NC 27711.

#### SYSTEM MANAGER(S):

Aaron Yeow, Physical Scientist, SAB Staff Office, U.S. Environmental Protection Agency, Mail Code 1400R, 1200 Pennsylvania Avenue NW, Washington, DC 20460.

#### AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

The authority for the establishment or appointment of these advisory committees is as follows: For the SAB, the Environmental Research, Development, and Demonstration Authorization Act (42 U.S.C. 4365); CASAC—section 109(d)(2) of the Clean Air Act (42 U.S.C. 7409(d)(2)); the Council, section 312(f) of the Clean Air Act (42 U.S.C. 7612(f)); the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et. seq.); FACA—41 CFR part 102–3; 5 U.S.C. 1104; 5 U.S.C. 1302.

#### PURPOSE(S) OF THE SYSTEM:

This system of records assists EPA with providing management and technical support to two active (SAB

and CASAC) scientific and technical advisory committees (SAB and CASAC) that report to the EPA Administrator and to maintain historical records of a retired committee (Council). The SAB Staff Office requests nominations of experts from the public wishing to nominate themselves or others for committees and panels providing advice to the Administrator. The Staff Office will identify experts to become Special Government Employees serving on advisory committees and panels. The SAB Staff Office conducts these activities to provide the EPA Administrator with scientific advice from balanced committees of qualified experts on high priority science issues. The SABAPP will track the status of their personnel paperwork; track the status of their ethics training and financial disclosure requirements of the Ethics in Government Act; and facilitate coordination of experts' participation in approximately fifty advisory projects per year and approximately eighty meetings per year. The SABAPP assists the SAB Staff Office to achieve these goals in an efficient manner that protects the privacy of scientific experts. The SABAPP serves as the repository and tracking system for the matters listed.

**CATEGORIES OF INDIVIDUALS COVERED BY SYSTEM:**

Scientific and technical experts currently serving on committees and panels administered by the SAB Staff Office; scientific and technical experts who have served on such committees and panels since 2002; and scientific and technical experts nominated to serve on planned SAB Staff Office-supported committees and panels.

**CATEGORIES OF RECORDS IN THE SYSTEM:**

Name; professional contact information, e.g., professional title, institutional affiliation, and work contact information; dates of appointment to advisory committees and panels; expertise information, e.g., curricula vitae and professional biographical sketches; and administrative history information, e.g., history of personnel actions, history of submitting confidential financial disclosure forms, and history of completing annual ethics training.

**RECORD SOURCE CATEGORIES:**

The public provides names and contact information for scientific and/or technical experts to be considered for membership on the SAB and CASAC committees and panel. The individual experts themselves provide further contact information as well as their

professional biosketches and curricula vitae.

Security controls used to protect personally identifiable information in SABAPP are commensurate with those required for an information system rated moderate for confidentiality, integrity, and availability, as prescribed in NIST Special Publication, 800-53, "Recommended Security Controls for Federal Information Systems," Revision 4.

1. Administrative Safeguards—only authorized users needing access to the system will be granted role-based credentials to access the system. Users of EPA systems are required to complete security and privacy training on an annual basis to ensure continued access to the system.

2. Technical Safeguards—SABAPP is a password protected system requiring all users to log in to access the information in the system. It is only accessible on the EPA network using government furnished equipment. It utilizes the agency's network user-authentication process. The system times out after a period of latency ensuring a user re-authenticates their session with a username and password. The records are stored on an encrypted database.

3. Physical Safeguards—All records are maintained in secure areas and buildings with physical access controls.

#### **RECORD ACCESS PROCEDURES:**

Individuals seeking access to information in this system of records about themselves are required to provide adequate identification, e.g., driver's license, military identification
