SUPPLEMENTARY INFORMATION: Effective December 28, 2020, the Commission established a general schedule for the conduct of the final phase of its investigations on chassis and subassemblies ("chassis") from China,¹ following a preliminary determination by the U.S. Department of Commerce ("Commerce") that imports of chassis from China were being subsidized by the government of China.² Notice of the scheduling of the final phase of the Commission's investigations and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of January 14, 2021, 2019 (86 FR 3193). The hearing was held on March 16, 2021, and all persons who requested the opportunity were permitted to appear in person or by counsel. The Commission subsequently issued its final determination that an industry in the United States was materially injured by reason of imports of chassis that Commerce had determined were subsidized by the government of China. On May 11, 2021,

Commerce issued its final affirmative determination that imports of chassis from China were being sold at LTFV in the United States.³ Accordingly, the Commission currently is issuing a supplemental schedule for its antidumping duty investigation on imports of chassis from China.

This supplemental schedule is as follows: The deadline for filing supplemental party comments on Commerce's final antidumping duty determination is June 4, 2021. Supplemental party comments may address only Commerce's final antidumping duty determination regarding imports of chassis from China. These supplemental final comments may not contain new factual information and may not exceed five (5) pages in length. The supplemental staff report in the final phase of this investigation regarding subject imports from China will be placed in the nonpublic record on June 11, 2021; and a public version will be issued thereafter.

For further information concerning this investigation see the Commission's notice cited above and the Commission's Rules of Practice and Procedure, part 201, subparts A and B (19 CFR part 201), and part 207, subparts A and C (19 CFR part 207).

Please note the Secretary's Office will accept only electronic filings during this time. Filings must be made through the Commission's Electronic Document Information System (EDIS, <https://edis.usitc.gov>.) No in-person paper-based filings or paper copies of any electronic filings will be accepted until further notice.

Additional written submissions to the Commission, including requests pursuant to section 201.12 of the Commission's rules, shall not be accepted unless good cause is shown for accepting such submissions, or unless the submission is pursuant to a specific request by a Commissioner or Commission staff.

In accordance with sections 201.16(c) and 207.3 of the Commission's rules, each document filed by a party to the investigation must be served on all other parties to the investigation (as identified by either the public or BPI service list), and a certificate of service must be timely filed. The Secretary will not accept a document for filing without a certificate of service.

Authority: This investigation is being conducted under authority of title VII of the Tariff Act of 1930; this notice is published pursuant to section 207.21 of the Commission's rules.

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 731–TA–1505–1507, 1510–1511, 1513, and 1515 (Final)]

Prestressed Concrete Steel Wire Strand From Indonesia, Italy, Malaysia, South Africa, Spain, Tunisia, and Ukraine

Determinations

On the basis of the record¹ developed in the subject investigations, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that an industry in the United States is materially injured by reason of imports of prestressed concrete steel wire strand (“PC strand”) from Indonesia, Italy, Malaysia, South Africa, Spain, Tunisia, and Ukraine, provided for in subheading 7312.10.30 of the Harmonized Tariff Schedule of the United States, that have been found by the U.S. Department of Commerce (“Commerce”) to be sold in the United States at less than fair value (“LTFV”).²

Background

The Commission instituted these investigations effective April 16, 2020, following receipt of petitions filed with the Commission and Commerce by Insteel Wire Products Company, Mount Airy, North Carolina, Sumiden Wire Products Corporation, Dickson, Tennessee, and Wire Mesh Corporation, Houston, Texas with regard to imports of PC strand from 15 countries. The final phase of the investigations was scheduled by the Commission following notification of preliminary determinations by Commerce that imports of PC strand from Turkey were subsidized within the meaning of section 703(b) of the Act (19 U.S.C. 1671b(b)) and that imports of PC strand from Argentina, Colombia, Egypt, Netherlands, Saudi Arabia, Taiwan, Turkey, and the United Arab Emirates were being sold at LTFV within the meaning of 733(b) of the Act (19 U.S.C.

1673b(b)). Notice of the scheduling of the final phase of the Commission’s investigations and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of October 8, 2020 (85 FR 63576). In light of the restrictions on access to the Commission building due to the COVID–19 pandemic, the Commission conducted its hearing through written testimony and video conference on December 10, 2020. All persons who requested the opportunity were permitted to participate.

The investigations became staggered when Commerce: (i) Postponed the final determinations for its antidumping duty investigations regarding PC strand from Indonesia, Italy, Malaysia, South Africa, Spain, Tunisia, and Ukraine; and (ii) reached earlier final antidumping and countervailing duty determinations concerning PC strand from Argentina, Colombia, Egypt, Netherlands, Saudi Arabia, Taiwan, Turkey, and the United Arab Emirates. On January 25, 2021, the Commission issued final affirmative determinations in its antidumping and countervailing duty investigations of PC strand from Argentina, Colombia, Egypt, Netherlands, Saudi Arabia, Taiwan, Turkey, and the United Arab Emirates (86 FR 7564, January 29, 2021).

Following notification of final determinations by Commerce that imports of PC strand from Indonesia, Italy, Malaysia, South Africa, Spain, Tunisia, and Ukraine were being sold at LTFV within the meaning of section 735(a) of the Act (19 U.S.C. 1673d(a)),³ notice of the supplemental scheduling of the final phase of the Commission’s

¹ The record is defined in § 207.2(f) of the Commission’s Rules of Practice and Procedure (19 CFR 207.2(f)).

² The Commission also finds that imports subject to Commerce’s affirmative critical circumstances determination are not likely to undermine seriously the remedial effect of the antidumping duty order on Indonesia.

antidumping duty investigations with respect to Indonesia, Italy, Malaysia, South Africa, Spain, Tunisia, and Ukraine was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** on April 21, 2021 (86 FR 20711).

The Commission made these determinations pursuant to § 735(b) of the Act (19 U.S.C. 1673d(b)). It completed and filed its determinations in these investigations on May 24, 2021. The views of the Commission are contained in USITC Publication 5196 (May 2021), entitled *Prestressed Concrete Steel Wire Strand from Indonesia, Italy, Malaysia, South Africa, Spain, Tunisia, and Ukraine: Investigation Nos. 731–TA–1505–1507, 1510–1511, 1513, and 1515 (Final)*.
