

The ICCVAM Authorization Act of 2000 (42 U.S.C. 285l–3) establishes ICCVAM as a permanent interagency committee of NIEHS and provides the authority for ICCVAM involvement in activities relevant to the development of alternative test methods. Additional information about ICCVAM can be found at <http://ntp.niehs.nih.gov/go/iccvam>.

NICEATM administers ICCVAM, provides scientific and operational support for ICCVAM-related activities, and conducts and publishes analyses and evaluations of data from new, revised, and alternative testing approaches. NICEATM and ICCVAM work collaboratively to evaluate new and improved testing approaches applicable to the needs of U.S. federal agencies. NICEATM and ICCVAM welcome the public nomination of new, revised, and alternative test methods and strategies for validation studies and technical evaluations. Additional information about NICEATM can be found at <http://ntp.niehs.nih.gov/go/niceatm>.

SACATM, established by the ICCVAM Authorization Act [Section 285l–3(d)], provides advice on priorities and activities related to the development, validation, scientific review, regulatory acceptance, implementation, and national and international harmonization of new, revised, and alternative toxicological test methods to ICCVAM, NICEATM, and Director of NIEHS and NTP. Additional information about SACATM, including the charter, roster, and records of past meetings, can be found at <http://ntp.niehs.nih.gov/go/167>.

Dated: June 24, 2021.

Brian R. Berridge,

Associate Director, National Toxicology Program.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration

(SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer at (240) 276–0361.

Project: 2022 National Survey on Drug Use and Health (OMB No. 0930–0110)

SAMHSA is requesting from the Office of Management and Budget (OMB) approval to administer the National Survey on Drug Use and Health (NSDUH), a survey of the U.S. civilian, non-institutionalized population aged 12 years old or older. NSDUH data are used to determine the prevalence of use of tobacco products, alcohol, illicit substances, and illicit use of prescription drugs. The results are used by SAMHSA, the Office of National Drug Control Policy (ONDCP), federal government agencies, and other organizations and researchers to establish policy, direct program activities, and better allocate resources.

As certain parts of the United States reduce COVID–19 restrictions, NSDUH in-person data collection will proceed where possible. However, to ensure sufficient data are collected to produce nationally representative estimates for the 2022 survey, NSDUH will continue to employ a mix of in-person and web-based modes of administration to allow those respondents living in areas with COVID–19 restrictions the opportunity to participate. If the COVID–19 pandemic subsides to such levels to allow in-person data collection to resume nationwide, SAMHSA may reassess that multimode data collection model as part of the 2022 NSDUH.

In those areas where in-person data collection is permitted, NSDUH protocols, processes, and materials will continue to reflect the need to ensure the safety of respondents and field interviewers with respect to COVID–19—after initial implementation of such measures beginning in October 2020—which include equipping field interviewers with masks, gloves, disinfecting wipes, and hand sanitizer for use during data collection and providing a COVID–19 risk information form to all respondents.

Unlike previous NSDUHs, a hybrid address-based sampling (ABS) design will be implemented for the 2022 NSDUH. ABS refers to the sampling of

residential addresses from a list based on the U.S. Postal Service's Computerized Delivery Sequence file. In areas with high expected ABS coverage, the ABS frame will be used. In all other areas, traditional field enumeration will be used to construct the dwelling unit frames.

In addition, the NSDUH questionnaire must be updated periodically to reflect changing substance use and mental health issues and to continue producing current data. For the 2022 NSDUH, the following questionnaire updates are planned: (1) Replacing the tobacco module with a redesigned nicotine module that includes questions about vaping, removes low priority items to reduce respondent burden and eliminates outdated terminology; (2) revising the marijuana module to include questions about the use of CBD, update questions on the mode of administration and eliminate outdated terminology and includes changes to the market information for marijuana questions; (3) redesigning the adult and youth mental health services utilization modules into one Mental Health Service Utilization model to remove questions with outdated terminology and include questions about newer treatments with recent increases in popularity; and (4) replacing the drug treatment module with a redesigned alcohol and drug treatment module that includes questions about newer treatments and those that have increased in popularity, as well as eliminating outdated terminology and reducing respondent burden.

As with all NSDUH/NHSDA¹ surveys conducted since 1999, the sample size of the NSDUH main study for 2022 will be sufficient to permit prevalence estimates for each of the fifty states and the District of Columbia. The total annual burden estimate for the NSDUH main study is shown below in Table 1.

¹ Prior to 2002, the NSDUH was referred to as the National Household Survey on Drug Abuse (NHSDA).

TABLE 1—ANNUALIZED ESTIMATED BURDEN FOR 2022 NSDUH

Instrument	Number of respondents	Responses per respondent	Total number of responses	Hours per response	Total burden hours
Household Screening	168,674	1	168,674	0.083	14,000
Interview	67,507	1	67,507	1.000	67,507
Screening Verification	5,060	1	5,060	0.067	339
Interview Verification	10,126	1	10,126	0.067	678
Total	168,674	251,367	82,524

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

DEPARTMENT OF HOMELAND SECURITY

U.S. Customs and Border Protection

Quarterly IRS Interest Rates Used in Calculating Interest on Overdue Accounts and Refunds on Customs Duties

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: General notice.

SUMMARY: This notice advises the public that the quarterly Internal Revenue Service interest rates used to calculate interest on overdue accounts (underpayments) and refunds (overpayments) of customs duties will remain the same from the previous quarter. For the calendar quarter

beginning July 1, 2021, the interest rates for overpayments will be 2 percent for corporations and 3 percent for non-corporations, and the interest rate for underpayments will be 3 percent for both corporations and non-corporations. This notice is published for the convenience of the importing public and U.S. Customs and Border Protection personnel.

DATES: The rates announced in this notice are applicable as of July 1, 2021.

FOR FURTHER INFORMATION CONTACT: Bruce Ingalls, Revenue Division, Collection Refunds & Analysis Branch, 6650 Telecom Drive, Suite #100, Indianapolis, Indiana 46278; telephone (317) 298–1107.

SUPPLEMENTARY INFORMATION:

Background

Pursuant to 19 U.S.C. 1505 and Treasury Decision 85–93, published in the **Federal Register** on May 29, 1985 (50 FR 21832), the interest rate paid on applicable overpayments or underpayments of customs duties must be in accordance with the Internal Revenue Code rate established under 26 U.S.C. 6621 and 6622. Section 6621 provides different interest rates applicable to overpayments: One for corporations and one for non-corporations.

The interest rates are based on the Federal short-term rate and determined by the Internal Revenue Service (IRS) on behalf of the Secretary of the Treasury

on a quarterly basis. The rates effective for a quarter are determined during the first-month period of the previous quarter.

In Revenue Ruling 2021–10, the IRS determined the rates of interest for the calendar quarter beginning July 1, 2021, and ending on September 30, 2021. The interest rate paid to the Treasury for underpayments will be the Federal short-term rate (0%) plus three percentage points (3%) for a total of three percent (3%) for both corporations and non-corporations. For corporate overpayments, the rate is the Federal short-term rate (0%) plus two percentage points (2%) for a total of two percent (2%). For overpayments made by non-corporations, the rate is the Federal short-term rate (0%) plus three percentage points (3%) for a total of three percent (3%). These interest rates used to calculate interest on overdue accounts (underpayments) and refunds (overpayments) of customs duties remain the same from the previous quarter. These interest rates are subject to change for the calendar quarter beginning October 1, 2021, and ending on December 31, 2021.

For the convenience of the importing public and U.S. Customs and Border Protection personnel, the following list of IRS interest rates used, covering the period from July of 1974 to date, to calculate interest on overdue accounts and refunds of customs duties, is published in summary format.

Beginning date	Ending date	Underpayments (percent)	Overpayments (percent)	Corporate overpayments (Eff. 1–1–99) (percent)
070174	063075	6	6
070175	013176	9	9
020176	013178	7	7
020178	013180	6	6
020180	013182	12	12
020182	123182	20	20
010183	063083	16	16
070183	123184	11	11
010185	063085	13	13
070185	123185	11	11
010186	063086	10	10
070186	123186	9	9
