SUPPLEMENTARY INFORMATION:

I. Background

The NPS maintains the “Special Use Permits—Interior, NPS–1” system of records. The purpose of the system is to provide park superintendents with information to approve or deny requests for activities on NPS managed park lands that provide a benefit to an individual, group or organization, rather than the public at large. The system also assists park staff to ensure that the permitted activity does not interfere with the enjoyment of the park by visitors and that the natural and cultural resources of the park are protected. DOI is publishing this revised notice to update the system location, categories of records; add sections for security classification, purpose and history of the system of records, and make general updates to the remaining sections to accurately reflect management of the system of records in accordance with OMB Circular A–108, *Federal Agency Responsibilities for Review, Reporting, and Publication under the Privacy Act*. DOI is revising the authority to replace former provisions in accordance with the new Title 54 of the U.S. Code, which includes only laws applicable to NPS. DOI is proposing to modify existing routine uses to provide clarity and

transparency, and to facilitate sharing of information with agencies and organizations to promote the integrity of the records in the system or carry out a statutory responsibility of the DOI or Federal Government. Additionally, DOI is proposing to add two new routine uses to facilitate sharing with the Executive Office of the President to resolve issues upon request of the subject of the record and with other Federal agencies or entities to respond to a breach of personally identifiable information (PII).

Routine use A was slightly modified to further clarify disclosures to the Department of Justice (DOJ) or other Federal agencies when necessary in relation to litigation or judicial hearings. Routine use B was modified to clarify disclosures to a congressional office to respond to or resolve an individual’s request made to that office. Proposed routine use C facilitates sharing of information with the Executive Office of the President to resolve issues concerning individuals’ records. Routine use I was modified to include grantees to facilitate sharing of information when authorized and necessary to perform services on DOI’s behalf. Modified routine use J and proposed routine use K allow DOI and NPS to share information with appropriate Federal agencies or entities when reasonably necessary to respond to a breach of PII and to prevent, minimize, or remedy the risk of harm to individuals or the Federal Government, or assist an agency in locating individuals affected by a breach in accordance with OMB Memorandum M–17–12, *Preparing for and Responding to a Breach of Personally Identifiable Information*. Routine use N was modified to clarify circumstances where information may be shared with the news media and the public.

II. Privacy Act

The Privacy Act of 1974, as amended, embodies fair information practice principles in a statutory framework governing the means by which Federal agencies collect, maintain, use, and disseminate individuals’ records. The Privacy Act applies to records about individuals that are maintained in a “system of records.” A “system of records” is a group of any records under the control of an agency from which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. The Privacy Act defines an individual as a United States citizen or lawful permanent resident. Individuals may request access to their own records that

are maintained in a system of records in the possession or under the control of DOI by complying with DOI Privacy Act regulations at 43 CFR part 2, subpart K, and following the procedures outlined in the Records Access, Contesting Record, and Notification Procedures sections of this notice.

The Privacy Act requires each agency to publish in the **Federal Register** a description denoting the existence and character of each system of records that the agency maintains and the routine uses of each system. The INTERIOR/NPS–1, Special Use Permits, system of records notice is published in its entirety below. In accordance with 5 U.S.C. 552a(r), DOI has provided a report of this system of records to the Office of Management and Budget and to Congress.

III. Public Participation

You should be aware your entire comment including your personally identifiable information, such as your address, phone number, email address, or any other personal information in your comment, may be made publicly available at any time. While you may request to withhold your personally identifiable information from public review, we cannot guarantee we will be able to do so.
