

economic stake in historic properties affected by the Project.

Before issuing this NOI, BOEM compiled a list of potential consulting parties and invited them in writing to become consulting parties. To become a consulting party, those invited must respond in writing, preferably by the requested response date.

Interested individuals or organizations that did not receive an invitation can request to be consulting parties by writing to the appropriate staff at ICF, which is the third party EIS contractor supporting BOEM in its administration of this review. ICF's contact for this review is Christine Cruiss (800-203-2807, kittyhawksection106@icf.com). BOEM will determine which interested parties should be consulting parties.

Comments: Federal agencies, Tribes, State and local governments, and other interested parties are requested to comment on the scope of this EIS, significant issues that should be addressed, and alternatives that should be considered. For information on how to submit comments, see the **ADDRESSES** section above.

BOEM does not consider anonymous comments. Please include your name and address as part of your comment. BOEM makes all comments, including the names, addresses, and other personally identifiable information included in the comment, available for public review online. Individuals can request that BOEM withhold their names, addresses, or other personally identifiable information included in their comment from the public record; however, BOEM cannot guarantee that it will be able to do so. In order for BOEM to withhold from disclosure your personally identifiable information, you must identify any information contained in your comment that, if released, would constitute a clearly unwarranted invasion of your privacy. You also must briefly describe any possible harmful consequences of the disclosure of that information, such as embarrassment, injury, or other harm.

Additionally, under section 304 of NHPA, BOEM is required, after consultation with the Secretary of the Interior, to withhold the location, character, or ownership of historic resources if it determines that disclosure may, among other things, cause a significant invasion of privacy, risk harm to the historic resources, or impede the use of a traditional religious site by practitioners. Tribal entities and other parties providing information on historic resources should designate information that they wish to be held as

confidential and provide the reasons why BOEM should do so.

All submissions from organizations or businesses and from individuals identifying themselves as representatives or officials of organizations or businesses will be made available for public inspection in their entirety.

Request for Identification of Potential Alternatives, Information, and Analyses Relevant to the Proposed Action

BOEM requests information, data, analyses, alternatives, comments, views, or any suggestions concerning the Proposed Action from Federal agencies, Tribes, State and local governments, academic institutions, industry, non-profit organizations, and any other individuals or organizations. Specifically, BOEM requests information on the following topics:

1. Potential effects that the Proposed Action could have on biological resources, including bats, birds, coastal fauna, finfish, invertebrates, essential fish habitat, marine mammals, and sea turtles.

2. Potential effects that the Proposed Action could have on physical resources and conditions including air quality, water quality, and wetlands and other waters of the United States.

3. Potential effects that the Proposed Action could have on socioeconomic and cultural resources, including commercial fisheries and for-hire recreational fishing, demographics, employment, economics, environmental justice, land use and coastal infrastructure, navigation and vessel traffic, other uses (marine minerals, military use, aviation), recreation and tourism, and scenic and visual resources.

4. Other possible reasonable alternatives to the Proposed Action that BOEM should consider, including additional or alternative avoidance, minimization, and mitigation measures.

5. As part of its compliance with NHPA section 106 and its implementing regulations (36 CFR part 800), BOEM seeks comment and input from the public and consulting parties regarding the identification of historic properties within the Proposed Action's area of potential effects, the potential effects on those historic properties from the activities proposed in the COP, and any information that supports identification of historic properties under NHPA. BOEM also solicits proposed measures to avoid, minimize, or mitigate any adverse effects on historic properties. BOEM will present available information regarding known historic

properties during the public scoping period at <https://www.boem.gov/Kitty-Hawk>. BOEM's effects analysis for historic properties will be available for public and consulting party comment in the draft EIS.

6. Information on other current or planned activities within the Lease Area or in the vicinity of the Proposed Action and their possible impacts on the Project or the Project's impacts on those activities.

7. Other information relevant to the Proposed Action and its impacts on the human environment.

To promote informed decision making, comments should be as specific as possible and should provide as much detail as necessary to meaningfully and fully inform BOEM of the commenter's position. Comments should explain why the issues raised are important to the consideration of potential environmental impacts and alternatives to the Proposed Action as well as economic, employment, and other impacts affecting the quality of the human environment.

The draft EIS will include a summary of all alternatives, information, and analyses submitted during the scoping process for consideration by BOEM and the cooperating agencies.

Authority: This NOI is published in accordance with NEPA, 42 U.S.C. 4321 *et seq.*, and 40 CFR 1501.9.

William Yancey Brown,
Chief Environmental Officer, Bureau of Ocean Energy Management.

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

**[RR04093000, XXXR4081X3,
RX.05940913.FY19400]**

Public Meeting of the Glen Canyon Dam Adaptive Management Work Group

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of public meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act of 1972, the Bureau of Reclamation (Reclamation) is publishing this notice to announce that a Federal Advisory Committee meeting of the Glen Canyon Dam Adaptive Management Work Group (AMWG) will take place.

DATES: The meeting will be held virtually on Wednesday, August 18, 2021, from 9:30 a.m. to approximately

5:00 p.m. (MDT); and Thursday, August 19, 2021, from 9:30 a.m. to approximately 4:00 p.m. (MDT).

ADDRESSES: The meeting will be held virtually for Wednesday, August 18 at <https://rec.webex.com/rec/j.php?MTID=m13bea902af78b719731c73238388a7e0>, Meeting Number: 199 214 8505, Password: Aug18.

The meeting will be held virtually for Thursday, August 19 at <https://rec.webex.com/rec/j.php?MTID=mc3f8e361d6f59654a643773b1680dfec>, Meeting Number: 199 081 2526, Password: Aug19.

FOR FURTHER INFORMATION CONTACT: Ms. Lee Traynham, Bureau of Reclamation, telephone (801) 524-3752, email at ltraynham@usbr.gov.

SUPPLEMENTARY INFORMATION: The Glen Canyon Dam Adaptive Management Program (GCDAMP) was implemented as a result of the Record of Decision on the Operation of Glen Canyon Dam Final Environmental Impact Statement to comply with consultation requirements of the Grand Canyon Protection Act (Pub. L. 102-575) of 1992. The AMWG makes recommendations to the Secretary of the Interior concerning Glen Canyon Dam operations and other management actions to protect resources downstream of Glen Canyon Dam, consistent with the Grand Canyon Protection Act. The AMWG meets two to three times a year.

Agenda: The AMWG will meet to receive updates on: (1) Current basin hydrology and operations; (2) proposed revisions to the GCDAMP budget and workplan for fiscal year 2022; (3) experiments implemented in 2021 and those considered for implementation in 2022; (4) the status of threatened and endangered species; (5) long-term funding considerations; and (6) project work and other activities completed by GCDAMP Tribal partners. The AMWG will also discuss other administrative and resource issues pertaining to the GCDAMP. To view a copy of the agenda and documents related to the above meeting, please visit Reclamation's website at <https://www.usbr.gov/uc/progact/amp/amwg.html>.

Meeting Accessibility/Special Accommodations: The meeting is open to the public. Individuals requiring special accommodations to access the public meeting should contact Ms. Lee Traynham (see **FOR FURTHER INFORMATION CONTACT**) at least (5) business days prior to the meeting so appropriate arrangements can be made.

Public Disclosure of Comments: Time will be allowed on both days for any individual or organization wishing to make extemporaneous and/or formal

oral comments. To allow for full consideration of information by the AMWG members, written notice must be provided to Ms. Lee Traynham (see **FOR FURTHER INFORMATION CONTACT**) prior to the meeting. Any written comments received will be provided to the AMWG members.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Lee Traynham,

*Chief, Adaptive Management Group,
Resources Management Division, Upper
Colorado Basin—Interior Region 7.*

BILLING CODE 4332-90-P

INTERNATIONAL TRADE COMMISSION

[Investigation No. 701-TA-661 (Final)]

Utility Scale Wind Towers From Malaysia

Determination

On the basis of the record¹ developed in the subject investigation, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that an industry in the United States is materially injured by reason of imports of utility scale wind towers from Malaysia, provided for in subheadings 7308.20.00 and 8502.31.00 of the Harmonized Tariff Schedule of the United States, that have been found by the U.S. Department of Commerce (“Commerce”) to be subsidized by the government of Malaysia.²

Background

The Commission instituted this investigation effective September 30, 2020, following receipt of petitions filed with the Commission and Commerce by the Wind Tower Trade Coalition (Arcosa Wind Towers Inc., Dallas, Texas; and Broadwind Towers, Inc., Manitowoc, Wisconsin). The Commission scheduled the final phase of the investigation following

notification of a preliminary determination by Commerce that imports of utility scale wind towers from Malaysia were being subsidized within the meaning of section 703(b) of the Act (19 U.S.C. 1671b(b)). Notice of the scheduling of the final phase of the Commission's investigation and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of April 16, 2021 (86 FR 20197). Counsel for the Wind Tower Trade Coalition withdrew its previously filed request to appear at the hearing, after no other parties submitted a request to appear, and indicated a willingness to submit written responses to any Commission questions in lieu of a hearing. Consequently, since no party to the investigation requested a hearing, the Commission canceled its hearing in connection with this investigation (86 FR 31730). Parties to this investigation responded to written questions posed by the Commission in their posthearing briefs.

The Commission made this determination pursuant to § 705(b) of the Act (19 U.S.C. 1671d(b)). It completed and filed its determination in this investigation on July 26, 2021. The views of the Commission are contained in USITC Publication 5215, July 2021, entitled *Utility Scale Wind Towers from Malaysia: Investigation No. 701-TA-661 (Final)*.

By order of the Commission.

Issued: July 26, 2021.

Lisa Barton,

Secretary to the Commission.
