

subscribers, or other entities that are recipients of the disclosures. Revealing this information could compromise sensitive information or interfere with the overall law enforcement process by revealing a pending sensitive cybersecurity investigation. Revealing this information could also permit the record subject to obtain valuable insight concerning the information obtained during any investigation and to take measures to impede the investigation, e.g., destroy evidence or alter techniques to evade discovery.

(2) From subsection (d)(1), (2), (3) and (4), (e)(4)(G) and (H), and (f) because these provisions concern individual access to and amendment of certain law enforcement and sensitive records, compliance of which could alert the subject of an authorized law enforcement activity about that particular activity and the interest of the DOJ, external federal agency subscribers, and/or other entities that are recipients of the disclosure. Providing access could compromise sensitive information, or reveal sensitive cybersecurity investigative techniques; provide information that would allow a subject to avoid detection; or constitute a potential danger to the health or safety of law enforcement personnel or confidential sources.

(3) From subsection (e)(1) because it is not always possible to know in advance what information is relevant and necessary for law enforcement purposes. The relevance and utility of certain information that may have a nexus to cybersecurity threats may not always be fully evident until and unless it is vetted and matched with other information necessarily and lawfully maintained by the DOJ, external federal agency subscribers, or other entities.

(4) From subsection (e)(4)(I), to the extent that this subsection is interpreted to require more detail regarding the record sources in this system than has been published in the **Federal Register**. Should the subsection be so interpreted, exemption from this provision is necessary to protect the sources of law enforcement information.

SUPPLEMENTARY INFORMATION:

Background Information and Regulatory History

On June 7, 2021, we published an NPRM entitled “Special Local Regulations; Patuxent River, Solomons, MD” in the **Federal Register** (86 FR 30224). The proposed rulemaking concerned the Coast Guard’s establishment of a temporary special local regulation for certain navigable waters of the Patuxent River, effective from 8 a.m. through 6 p.m. on August 29, 2021. This action was necessary to provide for the safety of life on these

waters during a power boat racing event. This rulemaking would have prohibited persons and vessels from entering the regulated area unless authorized by the Captain of the Port Maryland-National Capital Region or the Coast Guard Event Patrol Commander.

Withdrawal

The proposed rule is being withdrawn due to the regulated area no longer being necessary following a cancellation of the power boat racing event by the event sponsor.

Authority

We issue this notice of withdrawal under the authority of 46 U.S.C. 70041.

Dated: July 26, 2021.

David E. O’Connell,

Captain, U.S. Coast Guard, Captain of the Port Maryland-National Capital Region.
