## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-92599; File No. SR-CBOE-2021-041]

### Self-Regulatory Organizations; Cboe Exchange, Inc.; Notice of Filing of a Proposed Rule Change To Amend Certain Rules To Accommodate the Listing and Trading of Micro FLEX Index Options and To Make Other Clarifying and Nonsubstantive Changes

August 6, 2021.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on July 23, 2021, Cboe Exchange, Inc. (the "Exchange" or "Cboe Options") filed with the Securities and Exchange Commission (the "Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange.<sup>3</sup>

<sup>1</sup> 15 U.S.C. 78s(b)(1).

<sup>2</sup> 17 CFR 240.19b-4.

<sup>3</sup> On August 4, 2021, the Exchange filed Partial Amendment No. 1 to the proposed rule change. The Exchange withdrew Partial Amendment No. 1 on August 6, 2021.

The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

#### I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Cboe Exchange, Inc. (the "Exchange" or "Cboe Options") proposes to amend certain Rules to accommodate the listing and trading of Micro FLEX Index Options and to make other clarifying and nonsubstantive changes. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Exchange's website (<http://www.cboe.com/AboutCBOE/CBOELegalRegulatoryHome.aspx>), at the Exchange's Office of the Secretary, and at the Commission's Public Reference Room.

#### II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

##### A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

###### 1. Purpose

The purpose of this proposed rule change is to amend certain rules to accommodate the listing and trading of certain FLEXible EXchange ("FLEX") index options with an index multiplier of one ("Micro FLEX Index Options"). The Exchange has the authority to list options on broad-based indexes for which the value of the underlying is at least 100 with an index multiplier of one<sup>4</sup> and proposes to expand that

<sup>4</sup> See Rule 4.11 (definition of micro-option). Currently, the Exchange has the authority to list options on 13 indexes that satisfy this criteria: S&P 500 Index, Mini-S&P 500 Index (XSP), Russell 2000 Index (RUT), Mini-Russell 2000 Index (MRUT), Dow Jones Industrial Average (DJX), S&P 100 Index (OEX and XEO), S&P 500 ESG Index (SPESG), MSCI EAFE Index (MXEA), MSCI Emerging Markets Index (MXEF), Russell 1000 Growth Index (RLG), Russell 1000 Value Index (RLV), Russell 1000 Index (RUI), and FTSE 100 Mini-Index (UKXM). The proposed rule change would authorize the

authority to list FLEX Index Options on the same indexes with an index multiplier of one. The Exchange believes Micro FLEX Index Options will expand investors' choices and flexibility by listing and trading FLEX Options on larger-valued broad-based indexes, which provide investors with the ability to gain exposure to the market, with a notional value of 1/100th of the value of currently available FLEX Index Options.

The Exchange believes the additional granularity provided by Micro FLEX Index Options with respect to the prices at which investors may execute and exercise index options on the Exchange will appeal to institutional investors by providing them with an additional exchange-traded tool to manage the positions and associated risk in their portfolios more precisely based on notional value, which currently may equal a fraction of a standard contract. For example, suppose an investor holds a security portfolio of \$10,000,000 and desires to hedge its portfolio with SPX options. In order to hedge the entire portfolio with SPX options, the investor would need to trade 23.11 contracts (\$10,000,000/\$432,770).<sup>5</sup> The nearest whole number of contracts would be 23 contracts, which would have a total notional value of \$9,953,710. As a result, the investor could only hedge within \$46,290 of its portfolio value with SPX options with an index multiplier of 100 and would be underhedged. However, with SPX micro-options, the investor would need to trade 2,310.70 contracts (\$10,000,000/\$4,327.70). The nearest whole number of contracts would be 2,311 SPX micro-options,<sup>6</sup> which would have a total notional value of \$10,001,314.70. This will allow the investor to hedge within \$1,315 of its portfolio value. Therefore, the proposed rule change would permit this investor to hedge its portfolio more effectively with far greater precision.

The Exchange notes investors may currently execute and exercise options with this smaller contract multiplier in the unregulated over-the-counter ("OTC") options market. The Exchange understands that investors may prefer to trade such options in a listed environment to receive the benefits of trading listing options, including (1) enhanced efficiency in initiating and

Exchange to list Micro FLEX Index Options on the same 13 indexes.

<sup>5</sup> This assumes an S&P 500 Index value of 4,327.70.

<sup>6</sup> An investor could also trade 23 SPX options and 11 micro-options. We do not, however, expect investors to make two separate trades in this manner due to the additional price and execution risk that accompanies two separate trades compared to a single trade.
