Final Results of Sunset Review

Pursuant to sections 751(c)(1) and 752(c)(1) and (3) of the Act, Commerce determines that revocation of the *Order* on tissue paper from China would be likely to lead to continuation or recurrence of dumping, and that the magnitude of the dumping margin likely to prevail would be a weighted-average margin of 112.64 percent.

Notification Regarding Administrative Protective Order

This notice serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of the return or destruction of APO materials, or conversion to judicial protective orders, is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

Notification to Interested Parties

We are issuing and publishing these final results and notice in accordance with sections 751(c), 752(c), and 777(i)(1) of the Act, and 19 CFR 351.218 and 19 CFR 351.221(c)(5)(ii).

Dated: September 10, 2021.

Christian Marsh,

Acting Assistant Secretary for Enforcement and Compliance.

Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; National Institute for Standards and Technology NIST Center for Neutron Research (NCNR) Information Management System (IMS) and Summer School Application

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on June 14, 2021 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Institute of Standards and Technology (NIST), Commerce.

Title: National Institute for Standards and Technology NIST Center for Neutron Research (NCNR) Information Management System (IMS) and Summer School Application.

OMB Control Number 0693–0081.

Form Number(s):

Type of Request: Regular, revision of a current information collection.

Number of Respondents: 2,000.

Average Hours per Response: 1 hour.

Burden Hours: 2,000.

Needs and Uses: Registration of NCNR users; Collection of scientific experiment proposals; Regularly scheduled peer review of said proposals; Merit-based award of available experimental resources; Experiment date scheduling for selected projects (instrument scheduling); Collection and management of data required by the NCNR site access protocol; Managing the Health Physics training of arriving scientists; Coordination of administrative data; Collection of data in support of related activities such as NCNR Summer School

for facility users; Management of the research results such as collected data, and subsequent publications; Numerous reporting functions used to evaluate and manage the NCNR activities.

Affected Public: Scientific personnel using NCNR facility.

Frequency: On occasion.

Respondent's Obligation: Required to obtain benefits.

Legal Authority: This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Implementation of Vessel Speed Restrictions To Reduce the Threat of Ship Collisions With North Atlantic Right Whales

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on March 22, 2021 (86 FR 15202) during a 60-day comment period. This notice allows for

an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration, Commerce.

Title: Implementation of Vessel Speed Restrictions To Reduce the Threat of Ship Collisions With North Atlantic Right Whales.

OMB Control Number: 0648–0580.

Form Number(s): None.

Type of Request: Regular submission [revision of a currently approved collection].

Number of Respondents: 3,624.

Average Hours per Response: One hour for electronic surveys, 2.5 hours for focus groups, 5 minutes for logbook entries.

Total Annual Burden Hours: 674.

Needs and Uses: This request is for a revision to a currently approved information collection. On October 10, 2008, NMFS published a final rule (0648–AS36) implementing seasonal speed restrictions along the east coast of the U.S. to reduce the incidence and severity of vessel collisions with North Atlantic right whales (73 FR 60173). The final rule contained a mandatory collection-of-information requirement subject to the Paperwork Reduction act (PRA), which collects information about safety deviations from the rule in alignment with 50 CFR 224.105(c). The restrictions are in effect seasonally in discrete areas along the U.S. eastern seaboard. NMFS provided a safety exception to the restrictions due to poor weather or sea conditions. Ships' captains are required to make an entry into the vessel's Official Logbook when an exception is necessary.

This revision to the current information collection includes a voluntary survey effort of vessel operators to evaluate their ability and willingness to: (1) Comply with North Atlantic right whale mandatory speed restrictions, and (2) cooperate with voluntary speed reduction efforts to protect North Atlantic right whales, which are promoted through NMFS outreach efforts. We will collect information from two types of vessels (pleasure yachts and large ocean going vessel) in two different areas of the North Atlantic right whales' range using voluntary online surveys and small focus groups. The surveys will collect information about vessel operators time spent on the water, experience and knowledge about large whales, knowledge of North Atlantic vessel strike reduction efforts, opinions about these whales and conservation efforts, and their preferred means of receiving information. Results from this information collection will be used to

develop effective outreach to these vessel communities, with the long-term goal of improving the communities' compliance with mandatory measures and cooperation with voluntary measures that support North Atlantic right whale vessel strike reduction conservation efforts.

Affected Public: Individuals or households; Business or other for-profit organizations.

Frequency: One time for electronic surveys and focus groups, logbook entries on occasion as necessary.

Respondent's Obligation: Voluntary.

Legal Authority: US Code: 16 U.S.C. 1531–1543 Name of Law: Endangered Species Act.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. United States Patent and Trademark Office

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Rules for Patent Maintenance Fees

The United States Patent and Trademark Office (USPTO) will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act (PRA) of 1995, on or after the date of publication of this notice. The USPTO invites comment on this information collection renewal, which helps the USPTO assess the impact of its information collection requirements and minimize the public's burden.

Public comments were previously requested via the **Federal Register** on April 30, 2021 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: United States Patent and Trademark Office, Department of Commerce.

Title: Rules for Patent Maintenance Fees.

OMB Control Number: 0651–0016.

Form Numbers:

- PTO/SB/66 (Petition to Accept Unintentionally Delayed Payment of Maintenance Fee in an Expired Patent)
- PTO/SB/47 (Fee Address Indication Form)
- PTO/AIA/47 (Fee Address Indication Form)

Type of Review: Extension and revision of a currently approved information collection.

Number of Respondents: 44,542 respondents per year.

Estimated Time per Response: The USPTO estimates that it will take the public 0.08 hours (5 minutes) to 8 hours to complete the items in this information collection, depending on the instruments used, to gather the necessary information, create the document, and submit the completed item to the USPTO.

Estimated Total Annual Respondent Burden Hours: 6,864 hours.

Estimated Total Annual Non-Hour Cost Burden: \$3,098,564.

Needs and Uses:

If a patent has expired due to nonpayment of a maintenance fee, the patentee may petition the Director to accept a delayed payment of the maintenance fee under 37 CFR 1.378. The Director may accept the payment of a maintenance fee after the expiration of the patent if the petitioner shows to the satisfaction of the Director that the delay in payment was unintentional. Petitions to accept unintentionally delayed payment must also be accompanied by the required maintenance fee and the petition fee as set forth in 37 CFR 1.17(m). If the Director accepts the maintenance fee payment upon petition, then the patent is reinstated. If the USPTO denies a petition to accept delayed payment of a maintenance fee in an expired patent, the patentee may petition the Director to reconsider that decision under 37 CFR 1.378(d). The rules of practice (37 CFR 1.33(d) and 1.363) permit applicants, patentees, assignees, or their representatives of record to specify a "fee address" for correspondence related to maintenance fees that is separate from the correspondence address associated with a patent or application. A fee address must be an address that is associated
