

an opportunity for public comment on this action, as notice and comment would be contrary to the public interest. This action transfers unused quota from the Winter I Period to the Winter II Period to make it accessible to the commercial scup fishery and increase fishing opportunities. If implementation of this in-season action is delayed to solicit prior public comment, the objective of the fishery management plan to achieve the optimum yield from the fishery could be compromised. Deteriorating weather conditions during the latter part of the fishing year may reduce fishing effort, and could also prevent the annual quota from being fully harvested. If this action is delayed, it would reduce the amount of time vessels have to realize the benefits of this quota increase, which would result in negative economic impacts on vessels permitted to fish in this fishery. Moreover, the rollover process being applied here is routine and formulaic and was the subject of notice and comment rulemaking, and the range of potential trip limit changes were outlined in the final 2018 scup specifications that were published December 22, 2017; which were developed through public notice and comment. The benefit of soliciting additional public comment on this formulaic adjustment would not outweigh the benefits of making this additional quota available to the fishery as quickly as possible. Based on these considerations, there is good cause under 5 U.S.C. 553(d)(3) to waive the 30-day delayed effectiveness period for the reasons stated above.

Authority: 16 U.S.C. 1801 *et seq.*

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 648

[Docket No. 201209-0332]

RTID 0648-XB433

Fisheries of the Northeastern United States; Atlantic Bluefish Fishery; Quota Transfers From VA to NY and NJ to NC

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notification; quota transfers.

SUMMARY: NMFS announces that the Commonwealth of Virginia and the State of New Jersey are transferring a portion of their 2021 commercial bluefish quota to the states of New York and North Carolina, respectively. These quota adjustments are necessary to comply with the Atlantic Bluefish Fishery Management Plan quota transfer provisions. This announcement informs the public of the revised commercial bluefish quotas for Virginia, New York, New Jersey, and New York.

DATES: Effective September 23, 2021, through December 31, 2021.

FOR FURTHER INFORMATION CONTACT: Laura Hansen, Fishery Management Specialist, (978) 281-9225.

SUPPLEMENTARY INFORMATION: Regulations governing the Atlantic bluefish fishery are found in 50 CFR 648.160 through 648.167. These regulations require annual specification of a commercial quota that is apportioned among the coastal states from Maine through Florida. The process to set the annual commercial quota and the percent allocated to each state is described in § 648.162, and the final 2021 allocations were published on December 16, 2020 (85 FR 81421).

The final rule implementing Amendment 1 to the Bluefish Fishery

Management Plan (FMP) published in the **Federal Register** on July 26, 2000 (65 FR 45844), and provided a mechanism for transferring bluefish quota from one state to another. Two or more states, under mutual agreement and with the concurrence of the NMFS Greater Atlantic Regional Administrator, can request approval to transfer or combine bluefish commercial quota under § 648.162(e)(1)(i) through (iii). The Regional Administrator must approve any such transfer based on the criteria in § 648.162(e). In evaluating requests to transfer a quota or combine quotas, the Regional Administrator shall consider whether: The transfer or combinations would preclude the overall annual quota from being fully harvested; the transfer addresses an unforeseen variation or contingency in the fishery; and the transfer is consistent with the objectives of the FMP and the Magnuson-Stevens Act.

Virginia is transferring 20,000 lb (9,072 kg) to New York, and New Jersey is transferring 40,000 lb (18,144 kg) to North Carolina through mutual agreement of the states. These transfers were requested to ensure that New York and North Carolina would not exceed their 2021 state quota. The revised bluefish quotas for 2021 are: Virginia, 258,800 lb (117,390 kg); New York, 357,438 lb (162,131 kg); New Jersey, 370,082 lb (167,866 kg); and, North Carolina, 927,377 lb (420,651 kg).

Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR 648.162(e)(1)(i) through (iii), which was issued pursuant to section 304(b), and is exempted from review under Executive Order 12866.
