

assurances that program funds are being spent appropriately and that every reasonable effort is being made by State agencies to prevent, detect and eliminate fraud, waste, and abuse. This information was originally collected through The Integrity Profile (TIP) system via three automated forms: FNS-698 Profile of Integrity Practices and Procedures (PIPP) Report, FNS-699 The Integrity Profile (TIP) Report, and FNS-700 Vendor Record. The Food and Nutrition Service (FNS) is replacing TIP with an upgraded, web-based system called the Food Delivery Portal (FDP), which uses screens to collect the necessary data. FNS expects that WIC State agencies will start using the upgraded, web-based system in FY 2022.

Need and Use of the Information:

This is a mandatory collection, and the respondents are WIC State agencies. The WIC State agencies provide information on their vendor training, compliance investigations, routine monitoring, and sanctions, which is reported annually to FNS. These reports will be generated through the new web-based FDP system (originally, they were generated through TIP). WIC State agencies review the reports to track and confirm that the data was reported accurately and to ensure compliance with Federal requirements, while FNS reviews the reports to ensure that WIC State agencies are in compliance with vendor regulations. FNS uses the data for Federal oversight of the WIC Program and to provide information on WIC State agency vendor management and vendor compliance to stakeholders, including Congress, USDA's Office of the Inspector General, outside auditors, researchers, and the general public.
