

fulfill its mandate to maintain a safe and sound credit union system and protect credit union members, the NCUA is working to better understand the implications of these changes and the associated benefits or challenges that may exist.

The RFI provided a 60-day public comment period that closed on September 27, 2021. Given the complexity of the subject and the breadth of the request, the Board believes it is necessary to extend the comment period to give all interested parties sufficient time to consider the RFI and provide input. The Board believes that extending the comment period for an additional 30 days is appropriate. This extension should allow interested parties more time to prepare responses without delaying the NCUA's review of the comments already received.

As stated in the RFI, the Board is seeking comments on the current and potential impact of activities related to DLT and DeFi on the credit union system. The NCUA remains broadly interested in receiving input on parties' views in this area, including current and potential uses. Commenters are also encouraged to discuss any and all relevant issues they believe the Board should consider with respect to these technologies and related matters. It is worth reiterating that the RFI did not modify any existing requirements applicable to FICUs and does not grant FICUs any new authorities or limit any existing authorities. The RFI also did not speak to the permissibility or impermissibility of any specific activity.

Authority: 12 U.S.C. 1756 and 1784.

By the National Credit Union Administration Board.

Melane Conyers-Ausbrooks,
Secretary of the Board.
