

in the settlement system to smooth settlement activity. Again, the Commission believes this additional description would help to clarify LCH SA's sources of liquidity and how it manages settlement and funding flows. Finally, the proposed rule change would add a general explanation of the LCR and how it relates to the Basel III framework. The proposed rule change similarly would add further explanations of some of the assumptions used in calculating the LCR, such as settlement risk associated with American-style options, liquidity needs arising from variation margin, and that when considering multiple defaults Clearing Members with the worst credit quality are assumed defaulting first. Because LCH SA uses the LCR to ensure that it has sufficient liquidity, the Commission believes that the additional description would help to clarify the LCR and therefore how LCH SA manages its liquidity risk. Thus, the Commission believes these aspects of the proposed rule change generally would be consistent with Rule 17Ad-22(e)(7).<sup>23</sup>

Rule 17Ad-22(e)(7)(ix), in particular, requires that LCH SA establish, implement, maintain and enforce written policies and procedures reasonably designed to effectively measure, monitor, and manage the liquidity risk that arises in or is borne by LCH SA, including measuring, monitoring, and managing its settlement and funding flows on an ongoing and timely basis, and its use of intraday liquidity by, at a minimum describing LCH SA's process to replenish any liquid resources that LCH SA may employ during a stress event.<sup>24</sup> As discussed in Part II.B above, the proposed rule change would add description to the Framework of LCH SA's group policy that allows LCH SA to perform an extraordinary margin call if liquidity deteriorates and description of the overdraft facility in place with Citibank that allows the LCH SA to source non-Euro currencies in case of liquidity needs. The Commission believes that these clarifications would help to describe LCH SA's process to replenish any liquid resources that LCH SA may employ during a stress event, consistent with Rule 17Ad-22(e)(7)(ix).<sup>25</sup>

Thus, the Commission finds that these aspects of the proposed rule change are consistent with Rule 17Ad-22(e)(7) generally and (e)(7)(ix) in particular.<sup>26</sup>

## Conclusion

On the basis of the foregoing, the Commission finds that the proposed rule change is consistent with the requirements of the Act, and in particular, with the requirements of Section 17A(b)(3)(F) of the Act<sup>27</sup> and Rules 17Ad-22(e)(5), (e)(7), and (e)(7)(ix).<sup>28</sup>

*It is therefore ordered* pursuant to Section 19(b)(2) of the Act<sup>29</sup> that the proposed rule change (SR-LCH SA-2021-002) be, and hereby is, approved.<sup>30</sup>

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.<sup>31</sup>
