Glycine From Japan: Final Results of the Antidumping Administrative Review; 2018–2020; Correction

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

ACTION: Notice; correction.

SUMMARY: The Department of Commerce (Commerce) published notice in the *Federal Register* of September 29, 2021, of the final results of the 2018–2020 administrative review of the antidumping duty order on glycine from Japan. This notice reflected an incorrect final weighted-average dumping margin for Yuki Gosei Kogyo Co., Ltd./Nagase & Co., Ltd. (YGK/Nagase) and an incorrect citation to the published preliminary results *Federal Register* notice.

FOR FURTHER INFORMATION CONTACT: John Drury or James Hepburn, AD/CVD Operations, Office VI, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-0195 and (202) 482-1882, respectively.

SUPPLEMENTARY INFORMATION:**Correction**

In the *Federal Register* of September 29, 2021, in FR Doc 2021-21074, on page 53946, in the second column under the section titled, “Final Results of the Review,” correct the weighted-average dumping margin for YGK/Nagase from 27.21 to 27.71. In the first column, in footnote 1 (citing the *Preliminary Results*¹), change the citation to “*Glycine from Japan: Preliminary Results of the Antidumping Administrative Review; 2018–2020*, 86 FR 36105 (July 8, 2021).”

Background

On September 29, 2021, Commerce published in the *Federal Register* the final results of the administrative review of the antidumping duty order on glycine from Japan for the period of review, October 31, 2018, through May 31, 2020.² In the *Final Results*, we incorrectly stated that the final weighted-average dumping margin for

YGK/Nagase was 27.21 percent. The correct final weighted-average dumping margin for YGK/Nagase is 27.71 percent.³ The *Final Results* also included an incorrect citation to the *Preliminary Results*.⁴ The correct citation to the *Preliminary Results* is “*Glycine from Japan: Preliminary Results of the Antidumping Administrative Review; 2018–2020*, 86 FR 36105 (July 8, 2021).” This notice serves to correct the final weighted-average dumping margin listed in the *Final Results* for YGK/Nagase from 27.21 percent to 27.71 percent and to correct the citation to the *Preliminary Results*. No other changes have been made to the *Final Results*.

Notification to Interested Parties

This notice is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Tariff Act of 1930, as amended.

Dated: October 7, 2021.

Christian Marsh,

Acting Assistant Secretary for Enforcement and Compliance.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration**

[RTID 0648-XA888]

Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permit

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments.

SUMMARY: The Assistant Regional Administrator for Sustainable Fisheries, Greater Atlantic Region, NMFS, has made a preliminary determination that an Exempted Fishing Permit application contains all of the required information and warrants further consideration. This Exempted Fishing Permit would allow a single commercial fishing vessel to participate in exploratory fishing Gulf of Maine, targeting haddock with 6-inch (15.24-cm) mesh gillnet gear. Regulations under the Magnuson-Stevens Fishery Conservation and

Management Act require publication of this notice to provide interested parties the opportunity to comment on Exempted Fishing Permit applications.

DATES: Comments must be received on or before October 29, 2021.

ADDRESSES: You may submit written comments by either of the following methods:

- *Email:* nmfs.gar.efp@noaa.gov.

Include in the subject line “Comments on NESSN 6-Inch Mesh Gillnet EFP.”

- *Mail:* Michael Pentony, Regional Administrator, NMFS, Greater Atlantic Regional Fisheries Office, 55 Great Republic Drive, Gloucester, MA 01930. Mark the outside of the envelope “Comments on NESSN 6-Inch Mesh Gillnet EFP.”

FOR FURTHER INFORMATION CONTACT:

Spencer Talmage, Fishery Management Specialist, 978-281-9232, Spencer.Talmage@noaa.gov.

SUPPLEMENTARY INFORMATION: The Northeast Sector Service Network (NESSN) submitted a complete application for an Exempted Fishing Permit (EFP) in support of an exploratory fishing project in the Gulf of Maine (GOM) Regulated Mesh Area (RMA). The EFP would exempt a single commercial fishing vessel from the 6.5-inch (16.51-cm) minimum mesh size restriction for day gillnet vessels fishing in the GOM RMA. The proposed EFP is intended to generate catch composition and gear comparison data to inform future studies on the feasibility of using 6-inch (15.24-cm) mesh gillnet gear to target GOM haddock while minimizing catch of GOM cod.

Activity under this EFP would occur from January 1, 2022 through May 31, 2022 within the GOM RMA. The participating vessel plans to take between 25 to 35 EFP trips, which will each average between 2 and 3 days in length. During each trip, the vessel would deploy 5 to 8 sets of 6-inch (15.24-cm) mesh gillnet gear. The maximum number of individual gillnets that would be deployed is 75. Soak time would not exceed 24 hours, and the vessel will not leave the fishing grounds while gear is fishing.

The participating vessel would also periodically deploy 6.5-inch (16.51-cm) mesh gillnet and/or longline gear alongside the exploratory gear to generate data for catchability comparisons between these different gear types. The 6.5 inch (16.51-cm) gillnet gear would consist of a single string of 12 to 24 nets, while the longline gear would be 1,000 to 2,400 hooks fished as a 1 to 4 strings.

A northeast fisheries at-sea monitor or observer will be deployed on all

³ See Memorandum, “Final Results Margin Calculations for Yuki Gosei Kogyo & Co., Ltd./Nagase & Co., Ltd.,” dated September 22, 2021, at Attachment 2 (“Margin Program Calculation Output”).

⁴ *Id.* at 53946, footnote 1.

groundfish trips taken under the EFP. Allowable discards will be discarded at-sea, while all other species will be retained, landed, and processed per normal commercial fishing procedures. Monitors will document all discards of

allocated sub-legal catch. NESSN and the participating vessel are responsible paying for the additional monitoring for the EFP trips.

All catch, including landings and discards, will be deducted from Sector

ACE as normal. Catch estimates for the project provided by NESSN are shown in Table 1, and based on previous catch by the participating vessel under normal fishing conditions.

TABLE 1—ESTIMATED TOTAL CATCH OF GROUND FISH ON EFP TRIPS

| Stock | Estimated total catch | |
|----------------------------------|-------------------------------|--------------------|
| | Legal sized catch | Sub-legal discards |
| Acadian Redfish | 50 lb (22.7 kg) | 0 lb. |
| American Plaice | 10 lb (4.5 kg) | 0 lb. |
| GOM Cod | 600 lb (272.2 kg) | 30 lb (13.6 kg). |
| Atlantic Halibut | 50 lb (22.7 kg) | 0 lb. |
| Atlantic Wolffish | 0 lb | 5 (2.3 kg). |
| GOM Haddock | 35,000 lb (15,875.7 kg) | 300 (136.1 kg). |
| Ocean Pout | 0 lb | 0 lb. |
| Pollock | 15,000 lb (6,803.9 kg) | 100 lb (45.4 kg). |
| White Hake | 1,000 lb (453.6 kg) | 50 lb (22.7 kg). |
| Witch Flounder | 10 lb (4.5 kg) | 0 lb. |
| N. Windowpane Flounder | 0 lb | 0 lb. |
| GOM Winter Flounder | 40 lb (18.1 kg) | 5 lb (2.3 kg). |
| CC/GOM Yellowtail Flounder | 40 lb (18.1 kg) | 5 lb (2.3 kg). |

The exemption from the mesh size restriction for day gillnet vessels at 50 CFR 648.80(a)(3)(iv)(B)(1) is necessary to allow the participating vessel to conduct exploratory fishing with 6-inch mesh gillnet gear under the proposed EFP.

If approved, the applicant may request minor modifications and extensions to the EFP throughout the year. EFP modifications and extensions may be granted without further notice if they are deemed essential to facilitate completion of the proposed research and have minimal impacts that do not change the scope or impact of the initially approved EFP request. Any fishing activity conducted outside the scope of the exempted fishing activity would be prohibited.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: October 7, 2021.

Jennifer M. Wallace,
Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF DEFENSE

Department of the Army

[Docket ID: USA-2021-HQ-0008]

Submission for OMB Review; Comment Request

AGENCY: Department of the Army, Department of Defense (DoD).

ACTION: 30-Day information collection notice.

SUMMARY: The Department of Defense has submitted to OMB for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

DATES: Consideration will be given to all comments received by November 15, 2021.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Angela Duncan, 571-372-7574, or whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil.

SUPPLEMENTARY INFORMATION:
Title; Associated Form; and OMB Number: DoD Automated Biometric Identification System (ABIS); OMB Control Number 0702-0127.

Type of Request: Reinstatement.
Annual Responses: 1,400,000.
Responses per Respondent: 1.
Annual Responses: 1,400,000.
Average Burden per Response: 7 minutes.

Annual Burden Hours: 163,333.33.
Needs and Uses: The DoD Automated Biometric Identification System (ABIS) is an authoritative biometrics data repository that processes, matches, and stores biometric identity information data, collected by global U.S. forces, during the course of military operations. The information processed by DoD ABIS

(biometric, biographic, behavioral, and contextual data) is collected by DoD military personnel worldwide using hand-held biometric collection devices across the full range of military operations for DoD warfighting, intelligence, law enforcement, security, force protection, base access, homeland defense, counterterrorism, business enterprise purposes as well as in information environment mission areas. Biometric data may also be collected for use in field identification and recovery of persons, or their physical remains, who have been captured, detained, missing, prisoners of war, or personnel recovered from hostile control. The information collected and processed by DoD ABIS is shared, accessed, and leveraged by DoD partners, U.S. Government inter-agency agency and departmental stakeholders, and approved multi-national partners for intelligence, counterterrorism, military force protection, national security, and law enforcement purposes.

Affected Public: Individuals or households.

Frequency: On occasion.

Respondent's Obligation: Voluntary.

OMB Desk Officer: Ms. Jasmeet Seehra.
