

the exemption on the basis that each certified and offered sufficient support to demonstrate satisfaction of all the criteria for an IP network exemption. These voice service providers were “therefore exempt from the requirements of section 64.6301 of [the Commission’s] rules.” They were nonetheless obligated to file in the Robocall Mitigation Database as required by section 64.6305 of the Commission’s rules and certify to their STIR/SHAKEN implementation status and, as appropriate, robocall mitigation efforts.

Implementation Verification Certification Requirements. In order to maintain the exemption from section 64.6301 of the Commission’s rules, each voice service provider granted an exemption must now “verify they completed full implementation in accordance with their commitments.” An officer of the voice service provider is required to sign the certification stating under penalty of perjury that the officer has personal knowledge that the company did in fact complete all necessary network upgrades to its network infrastructure by June 30, 2021. Each voice service provider granted an exemption is required to submit an accompanying statement explaining, in detail, how the company achieved the implementation goals it first certified to so that the Commission can verify the accuracy of the certification. Any voice service provider that cannot certify to full implementation will lose the exemption and be subject to the general rule requiring full STIR/SHAKEN implementation, effective immediately upon release of the Public Notice identifying which voice service providers achieved the implementation goals to which they previously committed.
