

OMB Control Number: 3060–0950.
Title: Bidding Credits for Tribal Lands.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities, not-for-profit institutions, and state, local or tribal government.

Number of Respondents: 5 respondents; 5 responses.

Estimated Time per Response: 10 hours.

Frequency of Response: On occasion reporting requirement and recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 151, 154(i), 303(r), and 303(j)(3) and (4) of the Communications Act of 1934, as amended.

Total Annual Burden: 100 hours.

Total Annual Cost: \$270,000.

Needs and Uses: The Commission will be submitting this expiring information collection after this comment period to the Office of Management and Budget (OMB) for approval of an extension request.

From June 2000 to August 2004, the Commission adopted various rulemakings in which a winning bidder seeking a bidding credit to serve a qualifying tribal land within a particular market must:

- Indicate on the long-form application (FCC Form 601) that it intends to serve a qualifying tribal land within that market;
- Within 180 days after the filing deadline for the long-form application, amend its long-form application to identify the tribal land it intends to serve and attach a certification from the tribal government stating that:

(a) The tribal government authorizes the winning bidder to site facilities and provide service on its tribal land;

(b) The tribal area to be served by the winning bidder constitutes qualifying tribal land;

(c) The tribal government has not and will not enter into an exclusive contract with the applicant precluding entry by other carriers, and will not unreasonably discriminate among wireless carriers seeking to provide service on the qualifying tribal land; and

(d) Provide certification of the telephone penetration rates demonstrating that the tribal land has a penetration level at or below 85 percent.

The rulemakings also require what each winning bidder must do.

In addition, it also requires that a winning bidder seeking a credit in excess of the amount calculated under

the Commission's bidding credit must submit certain information; and a final winning bidder receiving a higher credit must provide within 15 days of the third anniversary of the initial grant of its license, file a certification that the credit amount was spent on infrastructure to provide wireless coverage to qualifying tribal lands, which also includes a final report prepared by an independent auditor verifying that the infrastructure costs are reasonable to comply with our build-out requirements.

Federal Communications Commission.

Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled Using Real-time Prescription and Insurance Claims Data to Support the HIV Care Continuum to the Office of Management and Budget (OMB) for review and approval. CDC previously published a “Proposed Data Collection Submitted for Public Comment and Recommendations” notice on July 12, 2021 to obtain comments from the public and affected agencies. CDC did not receive comments related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected;

(d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or
