Animal and Plant Health Inspection Service

[Docket No. APHIS–2021–0033]

Addition of the Republic of Mali to the List of Regions Affected With Highly Pathogenic Avian Influenza

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are advising the public that we added the Republic of Mali to the list of regions that the Animal and Plant Health Inspection Service considers to be affected by highly pathogenic avian influenza (HPAI). These actions follow our imposition of HPAI-related restrictions on avian commodities originating from or transiting the Republic of Mali, as a result of the confirmation of HPAI in the Republic of Mali.

DATES: The Republic of Mali was added to the list of regions APHIS considers to be affected with HPAI on April 22, 2021.

FOR FURTHER INFORMATION CONTACT: For further information regarding HPAI in the Republic of Mali, contact Dr. Michael T. Ray, Regionalization Evaluation Services, Strategy and Policy, APHIS Veterinary Services, 920 Main Campus Drive, Venture II, Raleigh, NC 27606; phone: (919) 855–7225; email: ASKRegionalization@usda.gov.

SUPPLEMENTARY INFORMATION: The regulations in 9 CFR part 94 (referred to below as the regulations) govern the importation of certain animals and animal products into the United States to prevent the introduction of various animal diseases, including Newcastle disease and highly pathogenic avian influenza (HPAI). The regulations prohibit or restrict the importation of live poultry, poultry meat, and other

poultry products from regions where these diseases are considered to exist.

Section 94.6 of the regulations contains requirements governing the importation into the United States of carcasses, meat, parts or products of carcasses, and eggs (other than hatching eggs) of poultry, game birds, or other birds from regions of the world where HPAI exists or is reasonably believed to exist. HPAI is an extremely infectious and potentially fatal form of avian influenza in birds and poultry that, once established, can spread rapidly from flock to flock. The Animal and Plant Health Inspection Service (APHIS) maintains a restrictions list of regions it considers affected with HPAI of any subtype on the APHIS website at <https://www.aphis.usda.gov/aphis/ourfocus/animalhealth/animal-and-animal-product-import-information/animal-health-status-of-regions>.

APHIS receives notice of HPAI outbreaks from veterinary officials of the exporting country, from the World Organization for Animal Health (OIE),¹ or from other sources the Administrator determines to be reliable.

On April 15, 2021, the veterinary authorities of the Republic of Mali reported to the OIE an HPAI occurrence in that country. On April 22, 2021, after confirming that the HPAI occurred in commercial birds or poultry, APHIS added the Republic of Mali to the list of regions where HPAI exists. On that same day, APHIS issued an import alert notifying stakeholders that effective April 1, 2021, APHIS imposed restrictions on the importation of poultry, commercial birds, other types of birds (research, performing), ratites, any avian hatching eggs, unprocessed avian products and byproducts, and certain fresh poultry products from the Republic of Mali to mitigate risk of HPAI introduction into the United States.

With the publication of this notice, we are informing the public that we added the Republic of Mali to the list of regions APHIS considers affected with HPAI of any subtype, effective April 22, 2021. This notice serves as an official record and public notification of this action.

¹ The World Organization for Animal Health internationally follows a British English spelling of “organisation” in its name; also, it was formerly the Office International des Epizooties, or OIE, an acronym still in usage.

Congressional Review Act

Pursuant to the Congressional Review Act (5 U.S.C. 801 *et seq.*), the Office of Information and Regulatory Affairs designated this action as not a major rule, as defined by 5 U.S.C. 804(2).

Authority: 7 U.S.C. 1633, 7701–7772, 7781–7786, and 8301–8317; 21 U.S.C. 136 and 136a; 31 U.S.C. 9701; 7 CFR 2.22, 2.80, and 371.4.

Done in Washington, DC, this 14th day of October 2021.

Mark Davidson,

Acting Administrator, Animal and Plant Health Inspection Service.

[Docket No. APHIS–2021–0037]

Notice of Availability of a Pest Risk Analysis for the Importation of Fresh Leaves and Stems of Garland Chrysanthemum (*Glebionis coronarium*) From Mexico Into the Continental United States, Hawaii, Puerto Rico, and the U.S. Virgin Islands

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of availability.

SUMMARY: We are advising the public that we have prepared a pest risk analysis that evaluates the risks associated with importation of fresh leaves and stems of garland chrysanthemum (*Glebionis coronarium*) from Mexico into the continental United States, Hawaii, Puerto Rico, and the U.S. Virgin Islands. Based on the analysis, we have determined that the application of one or more designated phytosanitary measures will be sufficient to mitigate the risks of introducing or disseminating plant pests or noxious weeds via the importation of fresh leaves and stems of garland chrysanthemum (*Glebionis coronarium*) from Mexico. We are making the pest risk analysis available to the public for review and comment.

DATES: We will consider all comments that we receive on or before December 20, 2021.

ADDRESSES: You may submit comments by either of the following methods:
