

burden on issuers to prepare and submit 3,597 failure to file notices to the MSRB is estimated to be 7,194 hours.

Commission staff estimates that the total annual burden on broker-dealers to comply with Rule 15c2–12 is 115,255 hours. Finally, Commission staff estimates that the MSRB will incur an annual burden of 25,000 hours to collect, index, store, retrieve and make available the pertinent documents under Rule 15c2–12.

The Commission estimates that up to 65% of issuers may use designated agents to submit some or all of their continuing disclosure documents to the MSRB. The Commission estimates that the average total annual cost that may be incurred by issuers that use the services of a designated agent will be \$15,470,000.² Further, the Commission estimates that issuers will retain outside counsel to assist with filing approximately 1,100 event notices. The Commission estimates the average total annual cost incurred by issuers to retain outside counsel to assist in the evaluation and preparation of certain event notices will be \$1,760,000.³ Thus, the total estimated cost to issuers to comply with the rule is \$17,230,000.⁴

The Commission initially estimated that the MSRB would incur total annual costs of \$670,000 to operate the continuing disclosure service for the MSRB's Electronic Municipal Market Access ("EMMA") system. This estimate was based on prior discussions with MSRB staff. Based on more recent discussions with MSRB staff, the Commission now estimates the total cost to operate the continuing disclosure service for EMMA to be \$1,055,000.⁵

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information

² 28,000 (number of issuers) × .65 (percentage of issuers that may use designated agents) × \$850 (estimated average annual cost for issuer's use of designated agent to submit filings to the Rule) = \$15,470,000.

³ 1,100 (estimate of number of event notices requiring outside counsel) × 4 (estimated number of hours for outside attorney to assist in the preparation of such event notice) × \$400 (hourly wage for an outside attorney) = \$1,760,000. The Commission recognizes that the costs of retaining outside professionals may vary depending on the nature of the professional services, but for purposes of this PRA analysis we estimate that costs of outside counsel would be an average of \$400 per hour.

⁴ \$15,470,000 (estimated total cost for issuer's use of designated agent to submit filings) + \$1,760,000 (estimated total cost for issuer to employ outside counsel in the examination, preparation, and filing of certain event notices) = \$17,230,000.

⁵ The updated figure is comprised of an approximate cost of \$670,000 for hardware and software and an approximate cost of \$385,000 for external third-party costs. \$670,000 + \$385,000 = \$1,055,000.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Cboe EDGX Exchange, Inc. ("EDGX" or the "Exchange") is filing with the Securities and Exchange Commission (the "Commission") a proposed rule change to extend the current pilot program related to EDGX Rule 11.15, Clearly Erroneous Executions, to the close of business on April 20, 2022. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Exchange's website (http://markets.cboe.com/us/options/regulation/rule_filings/edgx/), at the Exchange's Office of the Secretary, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this filing is to extend the effectiveness of the Exchange's current rule applicable to Clearly Erroneous Executions to the close of business on October 20, 2021. Portions of Rule 11.15, explained in further detail below, are currently operating as a pilot program set to expire on October 20, 2021.⁵

On September 10, 2010, the Commission approved, on a pilot basis, changes to EDGX Rule 11.15 that, among other things: (i) Provided for uniform treatment of clearly erroneous execution reviews in multi-stock events involving twenty or more securities; and (ii) reduced the ability of the Exchange to deviate from the objective standards set forth in the rule.⁶

⁵ See Securities Exchange Act Release No. 91554 (April 14, 2021), 86 FR 20567 (April 20, 2021) (SR–CboeEDGX–2021–019).

⁶ See Securities Exchange Act Release No. 62886 (September 10, 2010), 75 FR 56613 (September 16, 2010) (SR–EDGX–2010–03).

In 2013, the Exchange adopted a provision designed to address the operation of the Plan.⁷ Finally, in 2014, the Exchange adopted two additional provisions providing that: (i) A series of transactions in a particular security on one or more trading days may be viewed as one event if all such transactions were effected based on the same fundamentally incorrect or grossly misinterpreted issuance information resulting in a severe valuation error for all such transactions; and (ii) in the event of any disruption or malfunction in the operation of the electronic communications and trading facilities of an Exchange, another SRO, or responsible single plan processor in connection with the transmittal or receipt of a trading halt, an Officer, acting on his or her own motion, shall nullify any transaction that occurs after a trading halt has been declared by the primary listing market for a security and before such trading halt has officially ended according to the primary listing market.⁸

On December 26, 2018, the Commission published the proposed Eighteenth Amendment⁹ to the Plan to Address Extraordinary Market Volatility Pursuant to Rule 608 of Regulation NMS under the Act (the “Limit Up-Limit Down Plan” or the “Plan”)¹⁰ to allow the Plan to operate on a permanent, rather than pilot, basis. On April 8, 2019, the Exchange amended EDGX Rule 11.15 to untie the pilot program’s effectiveness from that of the Plan and to extend the pilot’s effectiveness to the close of business on October 18, 2019 in order allow the Exchange and other national securities exchanges additional time to consider further amendments, if any, to the clearly erroneous execution rules in light of the proposed Eighteenth Amendment to the Plan.¹¹ On April 17, 2019, the Commission published an approval of the Eighteenth Amendment to allow the Plan to operate on a permanent, rather than pilot, basis.¹² On October 21, 2019, the Exchange amended EDGX Rule 11.15 to extend

the pilot’s effectiveness to the close of business on April 20, 2020.¹³ On March 18, 2020, the Exchange amended EDGX Rule 11.15 to extend the pilot’s effectiveness to the close of business on October 20, 2020.¹⁴ On October 20, 2020, the Exchange amended EDGX Rule 11.15 to extend the pilot’s effectiveness to the close of business on April 20, 2021.¹⁵ Finally, on April 14, the Exchange amended BYX Rule 11.17 to extend the pilot’s effectiveness to the close of business on October 20, 2021.¹⁶

The Exchange now proposes to amend EDGX Rule 11.15 to extend the pilot’s effectiveness to the close of business on April 20, 2022. The Exchange understands that the other national securities exchanges and Financial Industry Regulatory Authority (“FINRA”) have filed or plan to file similar proposals to extend their respective clearly erroneous execution pilot programs, the substance of which are identical to EDGX Rule 11.15.

The Exchange does not propose any additional changes to EDGX Rule 11.15. The Exchange believes the benefits to market participants from the more objective clearly erroneous executions rule should continue on a limited six month pilot basis. As the Plan was approved by the Commission to operate on a permanent, rather than pilot, basis the Exchange intends to assess whether additional changes should also be made to the operation of the clearly erroneous execution rules. Extending the effectiveness of EDGX Rule 11.15 for an additional six months should provide the Exchange and other national securities exchanges additional time to consider further amendments, if any, to the clearly erroneous execution rules.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the “Act”) and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.¹⁷ Specifically, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)¹⁸ requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and

practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)¹⁹ requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

In particular, the Exchange believes that extending the clearly erroneous execution pilot under EDGX Rule 11.15 for an additional six months would help assure that the determination of whether a clearly erroneous trade has occurred will be based on clear and objective criteria, and that the resolution of the incident will occur promptly through a transparent process. The proposed rule change would also help assure consistent results in handling erroneous trades across the U.S. equities markets, thus furthering fair and orderly markets, the protection of investors and the public interest. Based on the foregoing, the Exchange believes the amended clearly erroneous executions rule should continue to be in effect on a pilot basis while the Exchange and the other national securities exchanges consider and develop a permanent proposal for clearly erroneous execution reviews.

B. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule change would impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. To the contrary, the Exchange understands that FINRA and other national securities exchanges have or will also file similar proposals to extend their respective clearly erroneous execution pilot programs. Thus, the proposed rule change will help to ensure consistency across market centers without implicating any competitive issues.

No comments were solicited or received on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act²⁰ and Rule 19b-4(f)(6) thereunder.²¹

A proposed rule change filed under Rule 19b-4(f)(6)²² normally does not become operative prior to 30 days after the date of the filing. However, Rule 19b-4(f)(6)(iii)²³ permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposed rule change may become operative immediately upon filing. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest, as it will allow the current clearly erroneous execution pilot program to continue uninterrupted, without any changes, while the Exchange and the other national securities exchanges consider a permanent proposal for clearly erroneous execution reviews. For this reason, the Commission hereby waives the 30-day operative delay and designates the proposed rule change as operative upon filing.²⁴

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings

to determine whether the proposed rule change should be approved or disapproved.
