Abstract: The Frank R. Lautenberg Chemical Safety for the 21st Century Act of 2016 made transformative changes to the Toxic Substances Control Act (TSCA), 15 U.S.C. 2601 *et seq.*, including an amendment that provides EPA with the authority to collect fees to defray 25% of the costs associated with administering TSCA sections 4, 5 and 6, as well as the costs of collecting, processing, reviewing and providing access to and protecting CBI from disclosure as appropriate under TSCA section 14. Payments are required from manufacturers (defined by statute to include importers) of a chemical substance who are required to submit information to EPA under TSCA section 4: Who submit certain notices and exemption requests to EPA under TSCA section 5: Who manufacture a chemical substance that is subject to a risk evaluation under TSCA section 6(b)(4): And who process a chemical substance that is the subject of a Significant New Use Notice (SNUN) or Test Market Exemption (TME) under TSCA section 5 and are required to submit information to EPA under TSCA section 4 related to a SNUN submission. EPA is not collecting a fee for submissions of Confidential Business Information (CBI) submitted under TSCA section 14.

These fees are intended to achieve the goals articulated by Congress to provide a sustainable source of funds for EPA to fulfill its legal obligations to conduct the activities required under TSCA sections 4, 5 and 6 (such as risk-based screenings, designation of applicable substances as High- and Low-Priority, conducting risk evaluations to determine whether a chemical substance presents an unreasonable risk of injury to health or the environment, requiring testing of chemical substances and mixtures, and evaluating and reviewing manufacturing and processing notices), as well as the activities under TSCA section 14 (*i.e.*, collecting, processing, reviewing, and providing access to and protecting information about chemical substances from disclosure as appropriate).

Form Numbers: 9600-008.

Respondents/Affected Entities: Entities identified by the following

North American Industrial Classification System (NAICS) codes:

- Petroleum and Coal Products (NAICS code 324);
- Chemical Manufacturing (NAICS code 325); and
- Chemical, Petroleum and Merchant Wholesalers (NAICS code 424).

Respondent's obligation to respond: Mandatory, TSCA Section 26(b).

Estimated number of respondents: 1,348 (total).

Frequency of response: On occasion.
Total estimated burden: 598 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$46,906 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in the estimates: There is an increase in the total estimated respondent burden compared with the ICR currently approved by OMB due to the increase in the number of entities potentially affected and an increase in the number of information collection activities. The change reflects the number of submissions received under TSCA sections 5 and 6. EPA's burden estimates for this collection are based upon historical information on the number of chemicals per premanufacture notices (PMNs), significant new use notifications (SNUNs), microbial commercial activity notices (MCANs), and exemption notices and applications including low-volume exemptions (LVEs), test-marketing exemptions (TMEs), low exposure/low release exemptions (LoREXs), TSCA experimental release applications (TERAs), certain new microorganism (Tier II) exemptions, and film article exemptions, and actions under TSCA section 6. This change is an adjustment.
