Abstract: Water quality standards (WQS) under the Clean Water Act (CWA) are provisions of state,¹ tribal,² or federal law which consist of designated uses for waters of the United States, water quality criteria to protect

those uses, and antidegradation requirements. WQS are established to protect public health or welfare, protect and enhance the quality of water, and serve the purposes of the CWA. Such standards serve the dual purposes of establishing the water quality goals for water bodies and serving as a regulatory basis for establishing water quality-based treatment controls and strategies beyond technology-based treatment required by CWA sections 301 and 306. The WQS regulation, consisting of 40 CFR part 131, establishes the framework for states and authorized tribes to adopt standards, and for EPA to review and approve or disapprove them.

This ICR renews the WQS Regulation ICR, OMB Control Number 2040–0049. This ICR is for information collections needed to implement the WQS regulation, required to obtain or retain benefits (e.g., relaxed regulatory requirements) under the WQS regulation, and requested on a voluntary basis to gather technical program information. This ICR also renews collection of WQS information by dischargers in the Great Lakes watershed required to obtain or retain certain benefits pursuant to the Water Quality Guidance of the Great Lakes System, 40 CFR part 132.

Form Numbers: None.

Respondents/affected entities: 50 states, the District of Columbia, the five territories, authorized tribes with EPA-approved WQS, additional tribes seeking authority to administer WQS, and dischargers located in the Great Lakes watershed.

Respondent's obligation to respond: Some collections in this ICR are mandatory, some are required to obtain or retain benefits pursuant to the WQS Regulation, and some are voluntary.

Estimated number of respondents: 342.

Frequency of response: Variable (once every three years, on occasion or as necessary, or only once) depending on the type of information collected.

Total estimated burden: 480,242 hours per year. Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$22,160,992 per year, including \$21,897,472 of labor costs and \$263,520 of annualized operation and maintenance costs per year. There are no capital costs.

Changes in the estimates: This renewal reflects a decrease of 27,645 hours in the total estimated respondent burden compared to the total burden currently approved by OMB for this ICR. The decrease reflects EPA adjustments, primarily removal of the burden for a collection confirmed to be inactive, partially offset by increased burden

associated with additional respondents (e.g., two additional tribes with EPA-approved WQS and a small increase in the number of dischargers to the Great Lakes system).

Director, Regulatory Support Division.

SUPPLEMENTARY INFORMATION:

Title and Form Number: EIB 10-02 Application for Short-Term Express Credit Insurance Policy.

OMB Number: 3048-0031.

Type of Review: Update & Renewal.

Need and Use: This form is used by an exporter (or broker acting on its behalf) in order to obtain approval for coverage of the repayment risk of export sales. The information received allows EXIM staff to make a determination of the eligibility of the applicant and the creditworthiness of one of the applicant's foreign buyers for EXIM assistance under its programs.

This is the application form for use by small U.S. businesses with limited export experience. Companies that are eligible to use the Express policy will need to answer approximately 20 questions and sign an acknowledgement of the certifications that appear on the reverse of the application form. This program does not provide discretionary credit authority to the U.S. exporter, and therefore the financial and credit information needs are minimized.

Affected Public: This form affects entities involved in the export of U.S. goods and services.

Annual Number of Respondents: 500.

Estimated Time per Respondent: 0.25 hours.

Annual Burden Hours: 125 hours.

Frequency of Reporting of Use: Once per year.
