

(e) Unsafe Condition

This AD was prompted by a report of missing sealant on the left and right wing leading edge outboard blowout door. The FAA is issuing this AD to address the missing sealant, which is intended to act as a fuel barrier. In the presence of a substantial fuel leak from the wing box, the unintended drain path could allow fuel to come into contact with the engine. This condition, if not addressed, could lead to a large ground fire.

(f) Compliance

Comply with this AD within the compliance times specified, unless already done.

(g) Required Actions

Except as specified by paragraph (h) of this AD, at the applicable times specified in the Compliance paragraph of Boeing Alert Requirements Bulletin 737-57A1350 RB, dated April 23, 2020, do all applicable actions identified in, and in accordance with, the Accomplishment Instructions of Boeing Alert Requirements Bulletin 737-57A1350 RB, dated April 23, 2020.

Note 1 to paragraph (g): Guidance for accomplishing the actions required by this AD can be found in Boeing Alert Service Bulletin 737-57A1350, dated April 23, 2020, which is referred to in Boeing Alert Requirements Bulletin 737-57A1350 RB, dated April 23, 2020.

(h) Exception to Service Information Specifications

Where Boeing Alert Requirements Bulletin 737-57A1350 RB, dated April 23, 2020, refers to "the Original Issue date of Requirements Bulletin 737-57A1350 RB," this AD requires using "the effective date of this AD."

(i) Alternative Methods of Compliance (AMOCs)

(1) The Manager, Seattle ACO Branch, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or responsible Flight Standards Office, as appropriate. If sending information directly to the manager of the certification office, send it to the attention of the person identified in paragraph (j) of this AD. Information may be emailed to: 9-ANM-Seattle-ACO-AMOC-Requests@faa.gov.

(2) Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the responsible Flight Standards Office.

(3) An AMOC that provides an acceptable level of safety may be used for any repair, modification, or alteration required by this AD if it is approved by The Boeing Company Organization Designation Authorization (ODA) that has been authorized by the Manager, Seattle ACO Branch, FAA, to make those findings. To be approved, the repair method, modification deviation, or alteration deviation must meet the certification basis of the airplane, and the approval must specifically refer to this AD.

(j) Related Information

For more information about this AD, contact Chris Baker, Aerospace Engineer, Propulsion Section, FAA, Seattle ACO Branch, 2200 South 216th St., Des Moines, WA 98198; phone and fax: 206-231-3552; email: christopher.r.baker@faa.gov.

(k) Material Incorporated by Reference

(1) The Director of the Federal Register approved the incorporation by reference (IBR) of the service information listed in this paragraph under 5 U.S.C. 552(a) and 1 CFR part 51.

(2) You must use this service information as applicable to do the actions required by this AD, unless the AD specifies otherwise.

(i) Boeing Alert Requirements Bulletin 737-57A1350 RB, dated April 23, 2020.

(ii) [Reserved]

(3) For service information identified in this AD, contact Boeing Commercial Airplanes, Attention: Contractual & Data Services (C&DS), 2600 Westminister Blvd., MC 110-SK57, Seal Beach, CA 90740-5600; telephone 562-797-1717; internet <https://www.myboeingfleet.com>.

(4) You may view this service information at the FAA, Airworthiness Products Section, Operational Safety Branch, 2200 South 216th St., Des Moines, WA. For information on the availability of this material at the FAA, call 206-231-3195.

(5) You may view this service information that is incorporated by reference at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, email fr.inspection@nara.gov, or go to: <https://www.archives.gov/federal-register/cfr/ibr-locations.html>.

Issued on September 10, 2021.

Lance T. Gant,

Director, Compliance & Airworthiness Division, Aircraft Certification Service.

BILLING CODE 4910-13-P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION**14 CFR Part 1215**

[Document Number NASA-21-058; Docket Number-NASA-2021-0005]

RIN 2700-AE62

Tracking and Data Relay Satellite System (TDRSS)

AGENCY: National Aeronautics and Space Administration.

ACTION: Direct final rule; nomenclature change.

SUMMARY: This direct final rule amends NASA's rule on Tracking and Data Relay Satellite System (TDRSS) to make nomenclature changes to update acronyms, network names, and office designations cited in the rule.

DATES: This direct final rule is effective on January 3, 2022. Comments due on or before December 3, 2021. If adverse comments are received, NASA will publish a timely withdrawal of the rule in the **Federal Register**.

ADDRESSES: Comments must be identified with RINs 2700-AE62 and may be sent to NASA via the *Federal E-Rulemaking Portal*: <http://www.regulations.gov>. Follow the online instructions for submitting comments. Please note that NASA will post all comments on the internet with changes, including any personal information provided.

FOR FURTHER INFORMATION CONTACT: Craig Salvas, 202-358-2330, craig.salvas@nasa.gov.

SUPPLEMENTARY INFORMATION:**I. Direct Final Rule and Significant Adverse Comments**

NASA has determined this rulemaking meets the criteria for a direct final rule because it makes non-substantive changes to make nomenclature changes to update acronyms, network names, and office designations cited in the rule. No opposition to the changes and no significant adverse comments are expected. However, if NASA receives significant adverse comments, it will withdraw this direct final rule by publishing a notice in the **Federal Register**. A significant adverse comment is one that explains: (1) Why the direct final rule is inappropriate, including challenges to the rule's underlying premise or approach; or (2) why the direct final rule will be ineffective or unacceptable without a change. In determining whether a comment necessitates withdrawal of this direct final rule, NASA will consider whether it warrants a substantive response in a notice and comment process.

II. Background

TDRSS is a network of U.S. communication satellites and ground stations used by NASA for space communications near the Earth. The system was designed to increase the time spacecraft were in communication with the ground and improve the amount of data that could be transferred. The primary goal of TDRSS is to provide improved tracking and data acquisition services capability to spacecraft in low-Earth orbit or to mobile terrestrial users such as aircraft or balloons. NASA is amending this rule to make nomenclature changes to update acronyms, network names, and office designations cited in §§ 1215.103, 1215.108, and 1215.109.

III. Regulatory Analysis

Executive Order 12866, Regulatory Planning and Review and Executive Order 13563, Improvement Regulation and Regulation Review

Executive Orders (E.O.) 13563 and 12866 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This rule has been designated as “not significant” under section 3(f) of E.O. 12866.

Review Under the Regulatory Flexibility Act

The Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) requires an agency to prepare an initial regulatory flexibility analysis to be published at the time the proposed rule is published. This

requirement does not apply if the agency “certifies that the rule will not, if promulgated, have a significant economic impact on a substantial number of small entities” (5 U.S.C. 603). This rule makes nomenclature changes and, therefore, does not have a significant economic impact on a substantial number of small entities.

Review Under the Paperwork Reduction Act

These nomenclature changes do not contain any information collection requirements subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Review Under E.O. 13132

E.O. 13132, “Federalism,” 64 FR 43255 (August 4, 1999), requires regulations to be reviewed for Federalism effects on the institutional interest of states and local governments, and, if the effects are sufficiently substantial, preparation of the Federal assessment is required to assist senior policy makers. The amendments will not have any substantial direct effects on state and local governments within

the meaning of the E.O. Therefore, no Federalism assessment is required.

List of Subjects in 14 CFR Part 1215

Satellites.

Accordingly, under the authority of the National Aeronautics and Space Act, as amended, 51 U.S.C. 20113, NASA amends 14 CFR part 1215 as follows:

PART 1215—TRACKING AND DATA RELAY SATELLITE SYSTEM (TDRSS)

■ 1. The authority citation for part 1215 continues to read as follows:

Authority: Sec. 203, Pub. L. 85–568, 72 Stat. 429, as amended; 42 U.S.C. 2473.

§§ 1215.103 1215.108, and 1215.109 [Amended]

■ 2. In the table below, for each section indicated in the left column, remove the acronym, network name, or office designation indicated in the middle column from wherever it appears in the section, and add the acronym, network name, or office designation indicated in the right column:

Section	Remove	Add
1215.103	Space Network	Near Space Network.
1215.103	SNUG	NSNUG.
1215.103	Networks Integration Management Office	Commercialization, Innovation, and Synergies.
1215.108	SNUG	NSNUG.
1215.108	NIMO	Near Space Network.
1215.108	Networks Integration Management Office	Commercialization, Innovation, and Synergies.
1215.109	NIMO	Near Space Network.

Nanette Smith,
Team Lead, NASA Directives and Regulations.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 622

[Docket Nos. 090206140–91081–03, 120405260–4258–02, and 200706–0181; RTID 0648–XB557]

Revised Reporting Requirements Due to Catastrophic Conditions for Federal Seafood Dealers, Individual Fishing Quota Dealers, and Charter Vessels and Headboats in Portions of Louisiana

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; determination of catastrophic conditions.

SUMMARY: In accordance with the regulations implementing the individual fishing quota (IFQ), Federal dealer reporting, and Federal charter vessel and headboat (for-hire vessel) reporting programs specific to the reef fish fishery in the Gulf of Mexico (Gulf) and the coastal migratory pelagic (CMP) fisheries in the Gulf, the Regional Administrator (RA), Southeast Region, NMFS, has determined that the catastrophic conditions caused by Hurricane Ida in the Gulf still exists for Jefferson parish in Louisiana. This temporary rule authorizes any dealer in the affected area described in this temporary rule who does not have access to electronic reporting to delay reporting of trip tickets to NMFS and authorizes IFQ participants within the affected area to use paper-based forms, if necessary, for basic required administrative functions. This rule also authorizes any Federal for-hire owner or operator in the affected area described

in this temporary rule who does not have access to electronic reporting to delay reporting of logbook records to NMFS. This temporary rule is intended to facilitate continuation of IFQ, dealer, and Federal for-hire reporting operations during the period of catastrophic conditions.

DATES: The RA is authorizing Federal dealers, IFQ participants, and Federal for-hire operators in the affected area to use revised reporting methods from November 1, 2021, through November 30, 2021.

FOR FURTHER INFORMATION CONTACT: Britni Lavine, IFQ Customer Service, telephone: 866–425–7627, fax: 727–824–5308, email: nmfs.ser.catchshare@noaa.gov. For Federal dealer reporting, Fisheries Monitoring Branch, telephone: 305–361–4581. For Federal for-hire reporting, Southeast For-Hire Integrated Electronic Reporting program, telephone: 833–707–1632.

SUPPLEMENTARY INFORMATION: The reef fish fishery of the Gulf is managed under the Fishery Management Plan
