Request for Public Comments

We request comment on our analyses, the proposed authorization, and any other aspect of this notice of proposed IHA for the proposed Falls Bridge Replacement Project. We also request at this time comment on the potential renewal of this proposed IHA as described in the paragraph below. Please include with your comments any supporting data or literature citations to help inform decisions on the request for this IHA or a subsequent Renewal IHA.

On a case-by-case basis, NMFS may issue a one-time 1 year Renewal IHA following notice to the public providing an additional 15 days for public comments when (1) up to another year of identical, or nearly identical, activities as described in the Description of Proposed Activity section of this notice is planned or (2) the activities as described in the Description of Proposed Activity section of this notice would not be completed by the time the IHA expires and a Renewal would allow for completion of the activities beyond that described in the *Dates and Duration* section of this notice, provided all of the following conditions are met:

- A request for renewal is received no later than 60 days prior to the needed Renewal IHA effective date (recognizing that Renewal IHA expiration date cannot extend beyond one year from expiration of the initial IHA);

- The request for renewal must include the following:

- (1) An explanation that the activities to be conducted under the requested Renewal IHA are identical to the activities analyzed under the initial IHA, are a subset of the activities, or include changes so minor (*e.g.*, reduction in pile size) that the changes do not affect the previous analyses, mitigation and monitoring requirements, or take estimates (with the exception of reducing the type or amount of take); and

- (2) A preliminary monitoring report showing the results of the required monitoring to date and an explanation showing that the monitoring results do not indicate impacts of a scale or nature not previously analyzed or authorized; and

- Upon review of the request for Renewal, the status of the affected

species or stocks, and any other pertinent information, NMFS determines that there are no more than minor changes in the activities, the mitigation and monitoring measures will remain the same and appropriate, and the findings in the initial IHA remain valid.

The Bureau invites any interested parties, including consumers, small businesses, advocates, financial institutions, investors, and experts in privacy, technology, and

SUPPLEMENTARY INFORMATION:

I. Background

The following statement was issued by the Bureau's Director, Rohit Chopra, on October 21, 2021. This statement accompanied orders issued to six large

technology companies operating payments systems in the United States to provide information about certain of their business practices.¹ The Bureau invites any interested parties to submit comments to inform the agency's inquiry.

II. October 21, 2021 Statement

Faster, friction-less, and cheaper payment systems offer significant potential benefits to consumers, workers, their families, and small businesses in the United States. For example, families can send money to friends without delay, or to relatives overseas at lower costs. Fast payment systems can also help small businesses succeed with quicker transactions, lower cost, and more revenue conversion. And faster settlement can reduce the need for families and businesses to borrow.

But payments businesses are network businesses and can gain tremendous scale and market power, potentially posing new risks and undermining fair competition. Furthermore, knowing what we spend our money on is a valuable source of data on consumer behavior. This data can be monetized by companies that seek to profit from behavioral targeting, particularly around advertising and e-commerce. That many Big Tech companies aspire to grow in this space only heightens these concerns.

In China, we can already see the long-term implications of these forces. Alipay and WeChat Pay are deeply imbedded into the lives of the Chinese public, combining messaging, e-commerce and payment functionality into super-apps. In such a market, consumers have little choice but to use these apps and little market power to shape how their data is used.

Today the Consumer Financial Protection Bureau (CFPB) has ordered six technology platforms offering payment services to turn over information about their products, plans and practices when it comes to payments. The orders were issued to Google, Apple, Facebook, Amazon, Square, and PayPal. The CFPB will also study the practices of the Chinese tech giants that offer payments services, such as WeChat Pay and Alipay.

Congress has tasked the CFPB with ensuring that markets for consumer financial products and services are fair, transparent, and competitive. To that end, it has authorized the CFPB to require participants in the marketplace
