Submission for OMB Review; Comment Request

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments are requested regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Comments regarding this information collection received by December 8, 2021 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it

displays a currently valid OMB control number.

Agricultural Research Service

Title: Meeting the Information Requirements of the Animal Welfare Act Workshop Registration Form.

OMB Control Number: 0518-0033.

Summary of Collection: The U.S.

Department of Agriculture, National Agricultural Library (NAL), Animal Welfare Information Center conducts a workshop titled "Meeting the Information Requirements of the Animal Welfare Act." The registration form collects information from interested parties necessary to register them for the workshop. This information includes workshop data preferences, signature, name, title, organization name, mailing address, phone and fax numbers and email address. The information will be collected using online and printed versions of the form. Also, forms can be fax or mailed.

Need and Use of The Information: NAL will collect information to register participants, contact them regarding schedule changes, control the number of participants due to limited resources and training space, and compile and customize class materials to meet the needs of the participants. Failure to collect the information would prohibit the delivery of the workshop and significantly inhibit NAL's ability to provide up-to-date information on the requirements of the Animal Welfare Act.

Description of Respondents:

Individuals or Households; Not-for-Profit Institutions; Business or Other for-profit; Government; State, Local, or Tribal Government.

Number of Respondents: 270.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 22.

Dated: November 2, 2021.

Ruth Brown,

Departmental Information Collection Clearance Officer.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Forest Service

Title: Storage and Use of Explosives and Magazine Security on National Forest System Lands Under a Special Use Authorization.

OMB Control Number: 0596-NEW.

Summary of Collection: Existing directives in the Forest Service Manual and Handbook are being revised to improve security and administration of explosive magazines and explosives use that are authorized under a special use authorization. The revisions clarify that all non-Forest Service storage and use of explosives, including use and storage of military weapons and ammunition for purposes of avalanche mitigation on National Forest System lands, must be authorized by a special use authorization that contains clause B-29 in Forest Service Handbook 2709.11, Chapter 50, section 52.2, on storage and use of explosives and magazine security. Clause B-29 requires authorization holders to comply with applicable United States Department of Justice, Bureau of Alcohol, Tobacco, Firearms and Explosives, state, or Department of

the Army requirements and applicable Forest Service requirements.

Need and Use of The Information: To allow the Forest Service to monitor holder compliance with clause B-29, the revised directives require holders of an authorization containing the clause to submit certain documentation annually as part of their operating plan. The required documentation includes copies of a log containing the date and type of magazine inspections (including inspections required every seven days) and the date all deficiencies identified in any magazine inspection report were corrected; copies of any magazine inspection reports; a copy of the holder's current ATF-issued federal explosives license or federal explosives permit, if applicable; and a copy of a log containing the date of the most recent magazine lock and key replacement.

Description of Respondents: Individuals or Households; Holders of a special use authorization authorizing the storage and use of explosives.

Number of Respondents: 60.

Frequency of Responses: Annually.

Total Burden Hours: 10.

Dated: November 2, 2021.

Levi S. Harrell,

Departmental Information Collection Clearance Officer.

Animal and Plant Health Inspection Service

[Docket No. APHIS-2020-0100]

Notice of Decision To Revise Requirements for the Importation of Fresh Melon Fruit From Japan Into the United States

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are notifying the public of our decision to revise requirements for the importation of fresh melon fruit with stems from Japan into the United States. Based on the findings of a pest risk analysis, which we made available to the public for review and comment through a previous notice, we have determined that the application of one or more designated phytosanitary measures will be sufficient to mitigate the risks of introducing or disseminating plant pests or noxious weeds via the importation of fresh melon fruit with stems from Japan into the entire United States.

DATES: Imports may be authorized at all U.S. ports beginning November 8, 2021.

FOR FURTHER INFORMATION CONTACT: Ms. Claudia Ferguson, Senior Regulatory Policy Specialist, Regulatory Coordination and Compliance, Imports, Regulations, and Manuals, PPQ, APHIS, 4700 River Road Unit 133, Riverdale, MD 20737-1231; (301) 851-2352.

SUPPLEMENTARY INFORMATION:

Background

Under the regulations in "Subpart L-Fruits and Vegetables" (7 CFR 319.56-1 through 319.56-12, referred to below as the regulations), the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture prohibits or restricts the importation of fruits and vegetables into the United States from certain parts of the world to prevent plant pests from being introduced into and spread within the United States.

Section 319.56-4 of the regulations provides requirements for authorizing the importation of fruits and vegetables into the United States and revising existing requirements for the importation of fruits and vegetables. Paragraph (c) of that section provides that the name and origin of all fruits and vegetables authorized for importation into the United States, as well as the requirements for their importation, be listed on the internet in APHIS' Fruits and Vegetables Import Requirements database, or FAVIR (<https://epermits.aphis.usda.gov/manual>). It also provides that, if the Administrator of APHIS determines that any of the phytosanitary measures required for the importation of a particular fruit or vegetable are no longer necessary to reasonably mitigate the plant pest risk posed by the fruit or vegetable, APHIS will publish a notice in the **Federal Register** making its pest risk documentation and determination available for public comment.

FAVIR had authorized the importation of fresh melon fruit without stems from Japan into Hawaii. The national plant protection organization of Japan, however, requested that we revise these import requirements to authorize importation of melons with stems into the entire United States.

Accordingly, in accordance with the process set forth in the regulations, we published a notice¹ in the **Federal Register** on May 21, 2021 (86 FR 27552-27553, Docket No. APHIS-2020-0100), in which we announced the availability, for review and comment, of a pest risk

assessment (PRA) that evaluated the risks associated with allowing importation into the entire United States of fresh melon fruit with stems from Japan. Based on the PRA, we also prepared a risk management document to identify phytosanitary measures that could be applied to the fresh melon fruit with stems from Japan to mitigate the pest risk.

We solicited comments on the notice for 60 days ending July 20, 2021. We did not receive any comments.

Therefore, in accordance with the regulations in § 319.56-4(c)(3)(iii), we are announcing our decision to authorize the importation into the entire United States of fresh melon fruit with stems from Japan subject to the following revised phytosanitary measures:

- Fresh melon fruit with stems from Japan must be imported as commercial consignments only.
- Each consignment must be inspected and accompanied by a phytosanitary certificate issued by the Japanese national plant protection organization stating that the melon fruit with stems is free of cucumber green mottle mosaic virus.
- Each consignment is subject to inspection upon arrival in the United States.

These conditions will be listed in the FAVIR database (available at <https://epermits.aphis.usda.gov/manual>). In addition to these specific measures, fresh melon fruit with stems from Japan will be subject to the general requirements listed in § 319.56-3 that are applicable to the importation of all fruits and vegetables.

Paperwork Reduction Act

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the recordkeeping and burden requirements associated with this action are included under the Office of Management and Budget control number 0579-0049.

E-Government Act Compliance

The Animal and Plant Health Inspection Service is committed to compliance with the E-Government Act to promote the use of the internet and other information technologies, to provide increased opportunities for citizen access to Government information and services, and for other purposes. For information pertinent to E-Government Act compliance related to this notice, please contact Mr. Joseph Moxey, APHIS' Paperwork Reduction Act Coordinator, at (301) 851-2483.
