

necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Mandatory Civil Rights Data Collection.

OMB Control Number: 1870-0504.

Type of Review: A revision of an existing information collection.

Respondents/Affected Public: State, Local, or Tribal Governments.

Total Estimated Number of Annual Responses: 17,884.

Total Estimated Number of Annual Burden Hours: 2,165,918.

Abstract: The collection, use, and reporting of education data is an integral component of the mission of the U.S. Department of Education (ED). ED has collected civil rights data about the nation's public schools via the Civil Rights Data Collection (CRDC) since 1968. For school years 2009–10 and 2011–12, the Office of Management and Budget (OMB) approved the CRDC part of the EDFacts information collection (1875–0240). EDFacts, an ED initiative to put performance data at the center of ED's policy, management, and budget decision-making processes for all preschool-grade 12 education programs, has transformed the way in which ED collects and uses data. For school years 2013–14, 2015–16, 2017–18, and 2020–21, the Office for Civil Rights (OCR) cleared the CRDC as a separate collection from EDFacts while maintaining its transformative data collection policies and practices. As with previous CRDC collections, the purpose of the 2021–22 CRDC is to obtain vital data related to the civil rights laws' requirement that public local educational agencies (LEAs) and elementary and secondary schools provide equal educational opportunity. ED has analyzed the uses of many data elements collected in the 2015–16 and 2017–18 CRDCs and sought advice from experts across ED to refine, improve, and where appropriate, add or remove data elements from the collection. ED also made the CRDC data definitions and metrics consistent with other mandatory collections across ED wherever possible. ED seeks OMB approval under the Paperwork Reduction Act to collect from LEAs the elementary and secondary education

data described in the sections of Attachment A. In addition to reviewing and commenting on the proposed changes (detailed in Supporting Statement A and Attachments A–1, A–2, A–3, and A–4), ED requests that LEAs and other stakeholders respond to the directed questions found in Attachment A–5.

Dated: November 16, 2021.

Stephanie Valentine,

PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of the Chief Data Officer, Office of Planning, Evaluation and Policy Development.

BILLING CODE 4000–01–P

DEPARTMENT OF ENERGY

[OE Docket No. EA–243–D]

Application To Export Electric Energy; Tenaska Power Services Co.

AGENCY: Office of Electricity, Department of Energy.

ACTION: Notice of application.

SUMMARY: Tenaska Power Services Co. (Applicant or TPS) has applied for authorization to transmit electric energy from the United States to Canada pursuant to the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before December 20, 2021.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed by electronic mail to Electricity.Exports@hq.doe.gov, or by facsimile to (202) 586–8008.

FOR FURTHER INFORMATION CONTACT: Matt Aronoff, 202–586–5863, matthew.aronoff@hq.doe.gov.

SUPPLEMENTARY INFORMATION: The Department of Energy (DOE) regulates exports of electricity from the United States to a foreign country, pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b) and 42 U.S.C. 7172(f)). Such exports require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On November 3, 2021, TPS filed an application with DOE (Application or App.) to “transmit electric energy from the United States to Canada for a period of five years.” App. at 1. TPS states that it “is a Nebraska corporation and an indirect, wholly owned subsidiary of Tenaska Energy, Inc. (‘Tenaska’).” *Id.* TPS further states that its “parent

company, Tenaska, is a privately held corporation organized and existing under the laws of Delaware.” *Id.* at 2. TPS represents that it “does not currently own or control electric generation or transmission facilities, and does not have a power supply of its own in the United States that would cause its electricity exports to have a reliability, fuel use, or system stability impact.” *Id.* at 3.

TPS further claims that it would “purchase the electricity may export . . . from wholesale generators, electric utilities, federal power marketing agencies and affiliates through negotiated agreements that have been voluntarily executed by the selling parties after considering their own need for any such electricity.” App. at 3. TPS contends that its “proposed electricity exports will not impair or tend to impede the sufficiency of electric power supplies in the United States or the regional coordination of electric utility planning or operations.” *Id.* at 3–4.

The existing international transmission facilities to be utilized by the Applicant have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the Application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission's (FERC) Rules of Practice and Procedure (18 CFR 385.211). Any person desiring to become a party to this proceeding should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.214).

Comments and other filings concerning TPS's application to export electric energy to Canada should be clearly marked with OE Docket No. EA–243–D. Additional copies are to be provided directly to Norma Rosner Iacovo, 300 East John Carpenter Freeway, Suite 100, Irving, TX 75062, niacovo@tnsk.com; and Neil L. Levy, 500 North Capitol Street NW, Washington, DC 20001, nlevy@mwe.com.

A final decision will be made on the requested authorization after the environmental impacts have been evaluated pursuant to DOE's National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after DOE evaluates whether the proposed action will have an adverse impact on the sufficiency of supply or reliability of the U.S. electric power supply system.

Copies of the Application will be made available, upon request, by accessing the program website at <https://energy.gov/node/11845>, or by emailing Matt Aronoff at matthew.aronoff@hq.doe.gov.

Signed in Washington, DC, on November 12, 2021.

Christopher Lawrence,

Management and Program Analyst, Electricity Delivery Division, Office of Electricity.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

[OE Docket No. EA-433-A]

Application To Export Electric Energy; SociVolta, Inc.

AGENCY: Office of Electricity, Department of Energy.

ACTION: Notice of application.

SUMMARY: SociVolta, Inc. (Applicant or SociVolta) has applied for authorization to transmit electric energy from the United States to Canada pursuant to the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before December 20, 2021.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed by electronic mail to Electricity.Exports@hq.doe.gov, or by facsimile to (202) 586-8008.

FOR FURTHER INFORMATION CONTACT: Matt Aronoff, 202-586-5863, matthew.aronoff@hq.doe.gov.

SUPPLEMENTARY INFORMATION: The Department of Energy (DOE) regulates exports of electricity from the United States to a foreign country, pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b) and 42 U.S.C. 7172(f)). Such exports require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On October 29, 2021, SociVolta filed an application with DOE (Application or App.) to “transmit electric energy from the United States to Canada for a period of five (5) years.” App. at 1. SociVolta states that it “is a Canadian company with its principal place of business in Montreal, Quebec,” adding that it “was incorporated in Quebec under a Canadian federal chart.” *Id.* at 2. SociVolta represents that it “does not have any affiliates or upstream owners that possess any ownership interest or involvement in any other company that is a traditional utility or that owns,

operates, or controls any electric generation, transmission or distribution facilities, nor do they have any direct involvement with the energy industry other than through the ownership of SociVolta.” *Id.*

SociVolta further claims that it would “purchase power to be exported from a variety of sources such as power marketers, independent power producers, or U.S. electric utilities and federal power marketing entities as those terms are defined in Sections 3(22) and 3(19) of the [Federal Power Act].” App. at 3. SociVolta contends that its proposed exports would be “surplus to the system of the generator and, therefore, the electric power that [it would] export on either a firm or interruptible basis [would] not impair the sufficiency of the electric power supply within the U.S.” *Id.* SociVolta adds that its proposed exports would “not impair or tend to impede the sufficiency of electric supplies in the U.S. or the regional coordination of electric utility planning or operations.” *Id.* at 4.

The existing international transmission facilities to be utilized by the Applicant have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the Application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission’s (FERC) Rules of Practice and Procedure (18 CFR 385.211). Any person desiring to become a party to this proceeding should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.214).

Comments and other filings concerning SociVolta’s application to export electric energy to Canada should be clearly marked with OE Docket No. EA-433-A. Additional copies are to be provided directly to Ruta Kalvaitis Skučas, 1601 K St. NW, Washington, DC 20006, rskucas@pierceland.com; and Daniel Doyon, 5455 De Gaspe Ave, Suite 710, Montreal, Quebec H2T 3B3, Canada, info@socivolta.com.

A final decision will be made on the requested authorization after the environmental impacts have been evaluated pursuant to DOE’s National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after DOE evaluates whether the proposed action will have an adverse impact on

the sufficiency of supply or reliability of the U.S. electric power supply system.

Copies of the Application will be made available, upon request, by accessing the program website at <https://energy.gov/node/11845>, or by emailing Matt Aronoff at matthew.aronoff@hq.doe.gov.

Signed in Washington, DC, on November 12, 2021.

DEPARTMENT OF ENERGY

Department of Energy Final Decision and Reasoning Response to Defense Nuclear Facilities Safety Board Recommendation 2020-1, Nuclear Safety Requirements

AGENCY: Office of Environment, Health, Safety and Security, Department of Energy.

ACTION: Notice.

SUMMARY: On June 1, 2021, the Defense Nuclear Facilities Safety Board issued the reaffirmation and revision of Recommendation 2020-1, *Nuclear Safety Requirements*, to the Department of Energy. In accordance with the Atomic Energy Act of 1954 the following represents the Secretary of Energy’s final decision and the reasoning for such decision on the recommendation.

FOR FURTHER INFORMATION CONTACT: Mr. Mark Do, Office of the Departmental Representative to the Defense Nuclear Facilities Safety Board, Office of Environment, Health, Safety and Security, U.S. Department of Energy, 1000 Independence Avenue SW, Washington, DC 20585, or telephone number (301) 903-6460, or email Mark.Do@hq.doe.gov.

SUPPLEMENTARY INFORMATION: On June 1, 2021, the Defense Nuclear Facilities Safety Board issued the reaffirmation and revision of Recommendation 2020-1, *Nuclear Safety Requirements*, to the Department of Energy. In accordance with section 315 of the Atomic Energy Act of 1954 (42 U.S.C. 2286d(e)), the Secretary of Energy’s final decision and the reasoning for such decision pertaining to Recommendation 2020-1 are printed in full at the conclusion of this notice.
