SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-93581; File No. SR-ICC-2021-019]

Self-Regulatory Organizations; ICE Clear Credit LLC; Order Approving Proposed Rule Change Relating to the ICC CDS Instrument On-Boarding Policies and Procedures

November 16, 2021.

I. Introduction

On September 22, 2021, ICE Clear Credit LLC ("ICC") filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"),¹ and Rule 19b–4,² a proposed rule change to revise the ICC CDS Instrument On-boarding Policies and Procedures ("Instrument On-boarding Policy"). The proposed rule change was published for comment in the **Federal Register** on October 5, 2021.³ The Commission did not receive comments regarding the proposed rule change. For the reasons discussed below, the Commission is approving the proposed rule change.

II. Description of the Proposed Rule Change

The proposed rule change would revise Subsection III.A of the Instrument On-boarding Policy.⁴ Subsection III.A discusses the guiding principles that ICC maintains for considering instruments for clearing. Such principles are designed to ensure that ICC proceeds in a prudent manner with respect to instrument selection while also providing the best opportunity for Clearing Participants to minimize their risk.

The proposed rule change would incorporate an additional guiding principle—ICC should consider selecting for clearing instruments that are constituents of the currently clearable On-The-Run ("OTR") indices in order to provide additional instruments for Clearing Participants to hedge and mitigate indirect risk exposure from the OTR indices. For other instruments that are not constituents of currently clearable OTR indices, the proposed rule change would not after the current guiding principles, which direct ICC to consider instrument open interest and volume when selecting instruments for clearing. Moreover, the proposed rule change would not alter the overall current guiding principles for all instruments, which direct ICC to consider selecting for clearing instruments that can be cleared through ICC's systems and processes and that support industrywide initiatives and protocols.

III. Discussion and Commission Findings

Section 19(b)(2)(C) of the Act directs the Commission to approve a proposed rule change of a self-regulatory organization if it finds that such proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to such organization.⁵ For the reasons given below, the Commission finds that the proposed rule change is consistent with Section 17A(b)(3)(F) of the Act and Rule 17Ad–22(e)(21).⁶

A. Consistency With Section 17A(b)(3)(F) of the Act

Section 17A(b)(3)(F) of the Act requires, among other things, that the rules of ICC be designed to promote the prompt and accurate clearance and settlement of securities transactions and, to the extent applicable, derivative agreements, contracts, and transactions, as well as to assure the safeguarding of securities and funds which are in the custody or control of ICC or for which it is responsible.⁷ As discussed above, the proposed rule change would add to the Instrument On-boarding Policy, as a further guiding principle, that ICC should consider selecting for clearing instruments that are constituents of the currently clearable OTR indices in order to provide Clearing Participants additional instruments to hedge and mitigate indirect risk exposure from the OTR indices. The Commission believes that this additional guiding principle should encourage ICC to select for clearing instruments that, as constituents of the currently clearable OTR indices, could help ICC's Clearing Participants mitigate indirect risk exposure from the OTR indices. The Commission believes that such potential risk mitigation would encourage Clearing Participants to centrally clear additional transactions, which, in turn, should promote the prompt and accurate clearance and settlement of those instruments.

Moreover, as set forth in the new guiding principle, the Commission believes that clearing instruments that are constituents of the currently clearable OTR indices could allow ICC's Clearing Participants to hedge and mitigate indirect risk exposure from the OTR indices. Thus, assuming that ICC selects such instruments for clearing, the Commission believes that the new guiding principle could result in ICC's Clearing Participants mitigating their overall indirect risk exposure to OTR indices, and thereby could reduce the overall risks to ICC in clearing and settling transactions in OTR indices. The Commission further believes that

these risks, if not adequately managed, could disrupt ICC's ability to clear and settle transactions in other products and safeguard securities and funds in its custody and control. Thus the Commission believes that, in directing ICC to select for clearing instruments that could allow Clearing Participants to hedge and mitigate their overall risk exposure, the proposed rule change could, in turn, result in a reduction of risk to ICC and thereby could help promote the prompt and accurate clearance and settlement of securities transactions and help assure the safeguarding of securities and funds in ICC's custody and control.

Therefore, the Commission finds that the proposed rule change would promote the prompt and accurate clearance and settlement of securities transactions and assure the safeguarding of securities and funds in ICC's custody and control, consistent with the Section 17A(b)(3)(F) of the Act.⁸

B. Consistency With Rule 17Ad–22(e)(21)

Rule 17Ad-22(e)(21) requires that ICC establish, implement, maintain and enforce written policies and procedures reasonably designed to, among other things, be efficient and effective in meeting the requirements of its participants and the markets it serves.9 As discussed above, the proposed rule change would add to the Instrument Onboarding Policy, as a further guiding principle, that ICC should consider selecting for clearing instruments that are constituents of the currently clearable OTR indices in order to provide Clearing Participants additional instruments to hedge and mitigate indirect risk exposure from the OTR indices. The Commission believes that this additional guiding principle should encourage ICC to select for clearing additional instruments that would serve the needs of its Clearing Participants in hedging and mitigating indirect risk exposure from the OTR indices. The Commission therefore believes this new guiding principle could help ICC to be effective in meeting the requirements of its participants, consistent with Rule 17Åd-22(e)(21).¹⁰

IV. Conclusion

On the basis of the foregoing, the Commission finds that the proposed rule change is consistent with the requirements of the Act, and in particular, with the requirements of Section 17A(b)(3)(F) of the Act ¹¹ and Rule 17Ad–22(e)(21). ¹²

It is therefore ordered pursuant to Section 19(b)(2) of the Act ¹³ that the proposed rule change (SR–ICC–2021–019) be, and hereby is, approved.¹⁴

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority. 15

J. Matthew DeLesDernier,

Assistant Secretary.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration [Docket No. FAA-2021-0493]

Agency Information Collection Activities: Requests for Comments; Clearance of a Renewed Approval of Information Collection: Part 121 Operating Requirements: Domestic, Flag, and Supplemental Operations

AGENCY: Federal Aviation Administration (FAA), DOT. **ACTION:** Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew an information collection. The Federal Register Notice with a 60-day comment period soliciting comments on the following collection of information was published on June 8, 2021. The collection involves regulations that prescribe the requirements governing air carrier operations. The information collected is necessary to determine air operators' compliance with the minimum safety standards and the applicants' eligibility for air operations certification.

DATES: Written comments should be submitted by December 22, 2021.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open

for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Sandra Ray by email at: *Sandra.ray*@ *faa.gov;* phone: 412–329–3088.

SUPPLEMENTARY INFORMATION:

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information.

OMB Control Number: 2120–0008.

Title: Part 121 Operating Requirements: Domestic, Flag, and Supplemental Operations.

Form Numbers: None.

Type of Review: Renewal of an information collection.

Background: The Federal Register Notice with a 60-day comment period soliciting comments on the following collection of information was published on June 8, 2021 (86 FR 30513). Under the authority of Title 49 CFR, section 44701, title 14 CFR prescribes the terms, conditions, and limitations as are necessary to ensure safety in air transportation. Title 14 CFR part 121 prescribes the requirements governing air carrier operations. The information collected is used to determine air operators' compliance with the minimum safety standards and the applicants' eligibility for air operations certification. Each operator which seeks to obtain, or is in possession of an air carrier operating certificate, must comply with the requirements of part 121 which include maintaining data which is used to determine if the air carrier is operating in accordance with minimum safety standards.

Respondents: 66 Part 121 Air Carriers.

Frequency: Information is collected on occasion.

Estimated Average Burden per Response: Varies per Response and Requirement type.

Estimated Total Annual Burden: 1,455,260 Hours.

Issued in Washington, DC, on November 17, 2021.
