SUPPLEMENTARY INFORMATION:

I. Abstract

On March 8, 2018, the President issued Proclamations 9704 and 9705 concurring with the findings of the two reports and determining that adjusting imports through the imposition of duties on steel and aluminum is necessary so that imports of steel and aluminum will no longer threaten to impair the national security. The Proclamations also authorized the Secretary of Commerce, in consultation

with the Secretary of Defense, the Secretary of the Treasury, the Secretary of State, the United States Trade Representative, the Assistant to the President for Economic Policy, the Assistant to the President for National Security Affairs, and other senior executive branch officials as appropriate, to grant exclusions from the duties for domestic parties affected by the duties. This could take place if the Secretary determines the steel or aluminum for which the exclusion is requested is not produced in the United States in a sufficient and reasonably available amount or of a satisfactory quality or should be excluded based upon specific national security considerations. The President directed the Secretary to promulgate regulations as may be necessary to implement an exclusion process. The purpose of this information collection is to allow for submission of exclusions requests from the remedies instituted in presidential proclamations adjusting imports of steel into the United States and adjusting imports of aluminum into the United States.

This collection of information gives U.S. Companies the opportunity to submit rebuttals to objections received on posted exclusion requests and also allows U.S. companies the opportunity to submit surrebuttals for objections they submitted that receive rebuttals under the Section 232 exclusion process. Adding a rebuttal and surrebuttal process is an important step in further improving the exclusion request and objection process for requesting exclusions from the remedies instituted by the President. These voluntary rebuttals and surrebuttals will allow the U.S. Government to better evaluate whether an exclusion request should be granted based on the information provided in an exclusion request and taking into account any objections to a submitted exclusion request, rebuttals, and surrebuttals. Many commenters on the March 19 rule, referenced above, requested the Department make this type of a change to ensure that the process was fair and the Department had all of the relevant information when an objection to an exclusion request received a rebuttal or a surrebuttal was received.
