

its implementing regulations, this document provides notice DoD is submitting an Information Collection Request to the Office of Management and Budget (OMB) to facilitate the grant application and post-grant award reporting requirements of those entities receiving or seeking to receive technical and/or financial assistance from the Office of Local Defense Community Cooperation via its programs of assistance. DoD requests emergency processing and OMB authorization to collect the information after publication of this notice for a period of six months.

DATES: Comments must be received by December 13, 2021.

ADDRESSES: The Department has requested emergency processing from OMB for this information collection request by 15 days after publication of this notice. Interested parties can access the supporting materials and collection instrument as well as submit comments and recommendations to OMB at www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 15-day Review—Open for Public Comments” or by using the search function. Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

FOR FURTHER INFORMATION CONTACT: Angela Duncan, 571-372-7574, or whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil.

SUPPLEMENTARY INFORMATION: The Office of Local Defense Community Cooperation (OLDCC), in coordination with the other Federal Agencies, delivers a program of technical and financial assistance to enable states and communities to plan and carry out civilian responses to workforce, business, and community needs arising from Defense actions; cooperate with military installations and leverage public and private capabilities to deliver public infrastructure and services to enhance the military mission and achieve facility and infrastructure savings; and increase military, civilian, and industrial readiness and resiliency, and support military families. The Economic Adjustment Data System (EADS) supports this mission by providing a platform for authorized grant applicants to submit their application packages, and for grant awardees to submit quarterly or semi-annual performance reports. We are requesting emergency approval as this system supports all grants management functions for grant applications, active

grant monitoring and oversight, and grant closeout activities for OLDCC’s portfolio consisting of approximately 225 active grants valued at \$1.4B annually.

Title; Associated Form; and OMB Number: Office of Local Defense Community Cooperation Economic Adjustment Data System; OMB Control Number 0704-EADS.

Type of Request: Existing collection in use without an OMB Control Number.

Number of Respondents: 62.

Responses per Respondent: 6.

Annual Responses: 372.

Average Burden per Response: 170 minutes.

Annual Burden Hours: 1,054.

Affected Public: State, Local, or Tribal Government; Business or other for-profit; Not-for-profit Institutions.

Frequency: As required.

Respondent’s Obligation: Voluntary.

Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of DoD, including whether the information collected has practical utility; (2) the accuracy of DoD’s estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Dated: November 22, 2021.

Aaron T. Siegel,

Alternate OSD Federal Register, Liaison Officer, Department of Defense.

[Docket ID: DoD-2021-OS-0121]

Proposed Collection; Comment Request

AGENCY: Washington Headquarters Services (WHS), Department of Defense (DoD).

ACTION: Information collection notice.

SUMMARY: As part of a Federal Government-wide effort to streamline the process to seek feedback from the public on service delivery, we are seeking comment on the extension of the following Generic Information Collection Request (Generic ICR): “Fast

Track Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery” for approval under the Paperwork Reduction Act (PRA). This notice announces our intent to submit this collection to OMB for approval and solicits comments on specific aspects for the proposed information collection.

DATES: Consideration will be given to all comments received by January 25, 2022.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

Mail: DoD cannot receive written comments at this time due to the COVID-19 pandemic. Comments should be sent electronically to the docket listed above.

Instructions: All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to Washington Headquarters Services, the Director of Administration and Management, ATTN: Angela Duncan, 4800 Mark Center Drive, Alexandria, VA 22350, Suite 03F09, (571) 372-7574, or email angela.n.duncan6.civ@mail.mil.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Fast Track Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery; OMB Control Number 0704-0553.

Needs and Uses: The information collection activity provides a means to garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration’s commitment to improving service delivery. By qualitative feedback, we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide

an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

The solicitation of feedback will target areas such as: Timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on the Agency's services will be unavailable.

The Agency will only submit a collection for approval under this generic clearance if it meets the following conditions:

- The collections are voluntary;
- The collections are low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;
- The collections are noncontroversial and do not raise issues of concern to other Federal agencies;
- Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;
- Personally identifiable information is collected only to the extent necessary and is not retained;
- Information gathered will be used only internally for general service improvement and program management purposes and is not intended for release outside of the agency;
- Information gathered will not be used for the purpose of substantially informing influential policy decisions; and
- Information gathered will yield qualitative information; the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study.

Feedback collected under this generic clearance provides useful information, but it does not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections

that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential nonresponse bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

As a general matter, information collections will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

Affected Public: Individuals or households; Businesses or other for-profits; Not-for-profit institutions; Farms; Federal Government; State, Local, or Tribal Governments.

Annual Burden Hours: 50,000.

Number of Respondents: 300,000.

Responses per Respondent: 1.

Annual Responses: 300,000.

Average Burden per Response: 10 minutes.

Frequency: On occasion.

Dated: November 22, 2021.

Aaron T. Siegel,

Alternate OSD Federal Register, Liaison Officer, Department of Defense.

DEPARTMENT OF DEFENSE

Office of the Secretary

[Docket ID: DoD-2021-HA-0086]

Submission for OMB Review; Comment Request

AGENCY: The Office of the Assistant Secretary of Defense for Health Affairs, Department of Defense (DoD).

ACTION: 30-Day information collection notice.

SUMMARY: The DoD has submitted to OMB for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

DATES: Consideration will be given to all comments received by December 27, 2021.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: Angela Duncan, 571-372-7574, or whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil.

SUPPLEMENTARY INFORMATION:

Title: *Associated Form; and OMB Number:* Department of Defense Patient Safety Culture Survey; OMB Control Number 0720-0034.

Type of Request: Revision.

Number of Respondents: 7,820.

Responses per Respondent: 1.

Annual Responses: 7,820.

Average Burden per Response: 0.16 hours.

Annual Burden Hours: 1,251.

Needs and Uses: The 2001 National Defense Authorization Act contains specific sections addressing patient safety in military and veterans' health care systems. This legislation states that the Secretary of Defense shall establish a patient care error reporting and management system to study occurrences of errors in patient care and that one purpose of the system should be to "identify systemic factors that are associated with such occurrences" and "to provide for action to be taken to correct the identified systemic factors" (Sec. 754, items b2 and b3). In addition, the legislation states that the Secretary shall "continue research and development investments to improve communication, coordination, and team work in the provision of health care" (Sec. 754, item d4).

In its ongoing response to this legislation and in support of its mission to "promote a culture of safety to eliminate preventable patient harm by engaging, educating and equipping patient-care teams to institutionalize evidence-based safe practices," the DoD Patient Safety Program plans to field the DoD Patient Safety Culture Survey. The Culture Survey is based on the Department of Health and Human Services' Agency for Healthcare Research and Quality's validated survey instrument. The survey obtains Military Health System staff opinions on patient safety issues such as teamwork, communications, medical error occurrence and response, error
