

Multilayered wood flooring products generally, but not exclusively, may be in the form of a strip, plank, or other geometrical patterns (e.g., circular, hexagonal). All multilayered wood flooring products are included within this definition regardless of the actual or nominal dimensions or form of the product. Specifically excluded from the scope are cork flooring and bamboo flooring, regardless of whether any of the sub-surface layers of either flooring are made from wood. Also excluded is laminate flooring. Laminate flooring consists of a top wear layer sheet not made of wood, a decorative paper layer, a core-layer of HDF, and a stabilizing bottom layer. Initiation of Changed Circumstances Review

Pursuant to section 751(b) of the Act, Commerce will conduct a CCR upon receipt of a request from an interested party⁷ that shows changed circumstances sufficient to warrant a review of an order. In accordance with 19 CFR 351.216(d), Commerce determines that the questions raised by Yuhua *et al.* concerning the appropriateness of excluding A-Timber's sales of subject merchandise from the *Order* constitute a sufficient basis to conduct a CCR of the *Order*. Therefore, in accordance with section 751(b)(1)(A) of the Act and 19 CFR 351.216(d) and (e), we are initiating a CCR based upon the information contained in Yuhua *et al.*'s submission.

In the event that Commerce determines an expedited action is warranted, 19 CFR 351.221(c)(3)(ii) permits Commerce to combine the notice of initiation of the review and the preliminary results of review into a single notice. However, we are not combining this notice of initiation with the preliminary results, pursuant to 19 CFR 351.221(c)(3)(ii), because Commerce has determined that it is necessary to issue a questionnaire to Yuhua *et al.* regarding A-Timber's role in the sales channel for subject

merchandise and provide interested parties with an opportunity to comment. After examining any comments and following up with any additional questionnaires as needed, we intend to issue the preliminary results of this CCR.

Preliminary and Final Results of the CCRs

Commerce intends to publish in the **Federal Register** a notice of the preliminary results of this AD CCR in accordance with 19 CFR 351.221(b)(4) and (c)(3)(i). Commerce will set forth its preliminary factual and legal conclusions in that notice. Unless extended, Commerce will issue the final results of this CCR in accordance with the time limits set forth in 19 CFR 351.216(e).

Notification to Interested Parties

This initiation notice is published in accordance with section 751(b)(1) of the Act, 19 CFR 351.216(d), and 19 CFR 351.221(b)(1). Further, interested parties are reminded that the next opportunity to request an administrative review of entries that may be examined in this CCR is December 2021.⁸ Should Commerce receive a timely request for review and initiate an administrative review with respect to such entries, those entries would remain suspended from liquidation pursuant to 19 CFR 351.212. Thus, to ensure fulsome consideration of the issues raised in Yuhua *et al.*'s request for a CCR, interested parties are encouraged to follow Commerce's procedures in the forthcoming notice of opportunity to request administrative review of the *Order* in requesting a review of the relevant entries.

ACTION: Notice of SEDAR 77 Highly Migratory Species (HMS) Hammerhead Sharks Post Data Workshop Webinar.

SUMMARY: The SEDAR 77 assessment of the Atlantic stocks of hammerhead sharks will consist of a stock identification (ID) process, data webinars/workshop, a series of assessment webinars, and a review workshop. See **SUPPLEMENTARY INFORMATION**.

DATES: The SEDAR 77 HMS Hammerhead Sharks Post Data Workshop Webinar has been scheduled for Thursday, January 13, 2022, from 12 p.m. until 3 p.m., ET.

ADDRESSES:

Meeting address: The meeting will be held via webinar. The webinar is open to members of the public. Registration is available online at: <https://attendee.gotowebinar.com/register/970012666863243533>.

SEDAR address: South Atlantic Fishery Management Council, 4055 Faber Place Drive, Suite 201, N Charleston, SC 29405; www.sedarweb.org.

FOR FURTHER INFORMATION CONTACT:

Kathleen Howington, SEDAR Coordinator, 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405; phone: (843) 571-4371; email: Kathleen.Howington@safmc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions, have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop; (2) Assessment Process utilizing webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses

of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include: Data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion at the SEDAR 77 HMS Hammerhead Shark Post Data Workshop Webinar are as follows: Discuss any data issues or concerns remaining from the workshop.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

This meeting is accessible to people with disabilities. Requests for auxiliary aids should be directed to the South Atlantic Fishery Management Council office (see **ADDRESSES**) at least 5 business days prior to the meeting.

Note: The times and sequence specified in this agenda are subject to change.

Endangered and Threatened Wildlife and Plants; 12-Month Finding on a Petition To List the Black Teatfish (*Holothuria nobilis*) as Threatened or Endangered Under the Endangered Species Act

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Notice of 12-month finding and availability of status review document for the black teatfish (*Holothuria nobilis*).

SUMMARY: We, NMFS, have completed a comprehensive status review under the Endangered Species Act (ESA) for the black teatfish (*Holothuria nobilis*). After reviewing the best scientific and commercial data available, including the *H. nobilis* Status Review Report, we have determined that listing *H. nobilis* as a threatened or endangered species under the ESA is not warranted at this time.

DATES: This finding was made on December 2, 2021.

ADDRESSES: The *H. nobilis* Status Review Report associated with this determination, its references, and the petition can be accessed electronically online at: <https://www.fisheries.noaa.gov/species/black-teatfish#conservation-management>.

FOR FURTHER INFORMATION CONTACT: Celeste Stout, NMFS Office of Protected Resources, 301-427-8436.

SUPPLEMENTARY INFORMATION:

Background

On May 14, 2020, we received a petition from the Center for Biological Diversity to list black teatfish (*H. nobilis*) as a threatened or endangered species under the ESA. The petition asserted that *H. nobilis* is threatened by four of the five ESA section 4(a)(1) factors: (1) The present or threatened destruction, modification, or curtailment of its habitat or range; (2) overutilization for commercial purposes; (3) inadequacy of existing regulatory mechanisms; and (4) other natural or manmade factors.

On August 10, 2020, NMFS published a 90-day finding for *H. nobilis* with our determination that the petition presented substantial scientific and commercial information indicating that
