

General description of report: This survey collects qualitative and limited quantitative information from senior credit officers at responding financial institutions on (1) stringency of credit terms, (2) credit availability and demand across the entire range of securities financing and over-the-counter derivatives transactions, and (3) the evolution of market conditions and conventions applicable to such activities. The FR 2034 survey is conducted quarterly, along with the Senior Loan Officer Opinion Survey on Bank Lending Practices (FR 2018; OMB No. 7100–0058). The survey contains 79 core questions divided into three broad sections, as well as additional questions on topics of timely interest.

Legal authorization and confidentiality: The FR 2034 is authorized by sections 2A and 12A of the Federal Reserve Act (FRA).² Section 2A of the FRA requires that the Board and the Federal Open Market Committee (FOMC) maintain long-run growth of the monetary and credit aggregates commensurate with the economy's long run potential to increase production, so as to promote effectively the goals of maximum employment, stable prices, and moderate long-term interest rates.³ Section 12A of the FRA further requires the FOMC to implement regulations relating to the open market operations conducted by Federal Reserve Banks with a view to accommodating commerce and business and with regard to their bearing upon the general credit situation of the country.⁴ The Board and FOMC use the information obtained through the FR 2034 to discharge these responsibilities.

Responding to the FR 2034 is voluntary. The information contained in responses to the core questions of the FR 2034 is nonpublic commercial or financial information, which is both customarily and actually treated as private by the respondent. The Board therefore may keep such information confidential pursuant to exemption 4 of the Freedom of Information Act (FOIA).⁵ Supplemental questions asked on each survey may vary, and the Board's ability to keep confidential responses to such questions must therefore be determined on a case-by-case basis. Responses to supplemental questions may contain nonpublic commercial information that may be kept confidential by the Board pursuant

to exemption 4 of the FOIA. Some such responses may also contain information contained in or related to an examination of a financial institution, which may be kept confidential under exemption 8 of the FOIA.⁶

General description of report: Regulation II—Debit Card Interchange Fees and Routing (12 CFR part 235) implements, among other things, standards for assessing whether interchange transaction fees for electronic debit transactions are reasonable and proportional to the cost incurred by the issuer with respect to the transaction, as required by section

920(a) of the Electronic Fund Transfer Act (EFTA) (15 U.S.C. 1693o-2(a)).

Regulation II limits the interchange transaction fee that covered issuers (issuers that, together with affiliates, have assets of \$10 billion or more) can charge for electronic debit transactions. Under the rule, a covered debit card issuer is allowed to receive or charge an interchange transaction fee in the amount of 21 cents plus 5 basis points multiplied by the value of the transaction. In addition, a covered issuer may receive or charge an amount of no more than 1 cent per transaction (the "fraud-prevention adjustment") for the costs associated with preventing fraudulent electronic debit transactions (fraud-prevention adjustment) if the issuer complies with the standards and requirements set forth in the rule. In addition to these interchange fee provisions, Regulation II prohibits any issuer (*i.e.*, not just covered issuers) or payment card network from directly or indirectly restricting the number of payment card networks on which an electronic debit transaction may be processed to less than two unaffiliated networks, and from directly or indirectly inhibiting the ability of a merchant to direct the routing of electronic debit transactions for processing over any payment card network that may process such transactions. Finally, Regulation II prohibits any issuer from receiving net compensation from a payment card network with respect to electronic debit transactions or debit card-related activities within a calendar year.

Legal authorization and confidentiality: The Recordkeeping and Disclosure Requirements Associated with Regulation II are authorized by section 920(a)(3) of the EFTA.¹ The fraud-prevention and disclosure requirements are additionally authorized by section 920(a)(5) of the EFTA.² Regulation II's general recordkeeping requirement for issuers is mandatory. Regulation II's fraud-prevention recordkeeping requirements and disclosure requirements are required to obtain a benefit.

The Recordkeeping and Disclosure Requirements Associated with Regulation II are generally not submitted to the Board or to any of the federal financial regulatory agencies. In

¹ 15 U.S.C. 1693o-2(a)(3) (authorizing the Board to prescribe regulations regarding interchange transaction fees and require issuers or payment card networks to provide to the Board such information as deemed necessary).

² 15 U.S.C. 1693o-2(a)(5) (permitting the Board to allow for the fraud-prevention adjustment and condition it upon compliance with fraud-related standards promulgated by the Board).

the event that the Board obtains such information, it may be kept confidential under exemption 4 of the Freedom of Information Act (FOIA) to the extent that it contains commercial or financial information both customarily and actually treated as private.³ If such information is obtained through the examination or enforcement process, it may be kept confidential under exemption 8 of the FOIA.⁴
