Additionally, DHS is issuing a Notice of Proposed Rulemaking to exempt this system of records from certain provisions of the Privacy Act, elsewhere in the **Federal Register**. This updated system of records will be included in DHS’s inventory of record systems.

SUPPLEMENTARY INFORMATION:

I. Background

In accordance with the Privacy Act of 1974, 5 U.S.C. 552a, the U.S. Department of Homeland Security (DHS) U.S. Immigration and Customs Enforcement (ICE) is updating, renaming, and reissuing a DHS system of records now titled, “DHS/ICE-001 Student and Visitor Exchange Program (SEVP)” System of Records.

The DHS/ICE update to SEVIS, now SEVP, includes several changes. First, the system of records is being renamed to better align it with the purpose of the system. This system of records covers records on nonimmigrant students and exchange visitors, and their dependents, admitted to the United States under F, M, or J class of admission (hereinafter, “F/M/J nonimmigrants”), and the schools, designated program sponsors and host families that sponsor these individuals in the United States to ensure compliance with immigration laws and regulations and ensure their status is maintained. The SEVP coordinates with the Department of State (DOS), which oversees the operation of the U.S. Government’s Exchange Visitor (EV) Program, including the designation of EV Program sponsors, and supports the application

and admission of foreign nationals who seek entry into the United States as exchange visitors (e.g., research scholar, government visitor, au pair) under the J class of admission.

In addition, the SEVP oversees the certification of academic and vocational schools to authorize enrollment of F and M nonimmigrant students based on federal regulations, and provides guidance and training to school officials about the SEVP certification requirements to which schools must adhere to and the requirements that their nonimmigrant students must follow to maintain their status.

Second, this update seeks to clarify and better identify the types of individuals and entities contained in this expanded system of records. Some items in the categories of individuals section have been reorganized and edited to more clearly identify the individuals, as well as expanded to include new categories of individuals, such as employers, financial support providers, government bodies and personnel, host families, members of the public, school employees, school partners, and school and EV Program officials.

Third, DHS/ICE has modified and expanded the categories of records section to better identify the types of information contained in the system of records. The new categories of records include education, employment, financial, travel, immigration-related information, school, program sponsor, case-related information, auditing and training, reporting, and inquiries and data corrections.

Fourth, DHS/ICE is modifying Routine Use E and adding Routine Use F to conform to Office of Management and Budget (OMB) Memorandum M-17-12, “Preparing for and Responding to a Breach of Personally Identifiable Information” (Jan. 3, 2017). All following routine uses are being re-lettered to account for the additional routine uses.

Finally, DHS is proposing to eliminate several routine uses, modify several routine uses, and add two new routine uses that would allow ICE to share information from the SEVP system of records with the specified recipients for the specified purpose. Below is a summary of those routine uses and their corresponding letter.

(J) Routine Use J is being updated to include disclosures to parties to an administrative proceeding where DHS has an interest in the outcome. This modification eliminates the need for two routine uses previously identified as Routine Uses K and L, and

subsequent routine uses are being re-lettered to account for this change.

(O) Existing Routine Use P is being updated and re-lettered as Routine Use O to clarify that information may be shared about nonimmigrants between certified schools or programs as part of the transfer process from one school or program to another.

(R) Existing Routine Use S is being updated to be consistent with the DHS standard routine use for technology and is now Routine Use R. The modification eliminates the need for one routine use previously identified as Routine Use T, and subsequent routine uses are being re-lettered to account for this change.

(V) Routine Use V is being added to permit sharing identifying information with accrediting agencies, recognized by the Department of Education (ED), to facilitate the inspection and validation of schools and exchange visitor programs in adherence to laws and regulations, and subsequent routine uses are being re-lettered to account for this additional routine use.

(W) Routine Use W is being added to clarify the sharing and disclosure of information to federal, state, local, and other government and public agencies, including foreign or international agencies when the information is relevant and necessary to DHS or a requesting agency's decision concerning the hiring or retention of an individual, or the issuance, grant, renewal, suspension or revocation of a security clearance, license, contract, grant or other benefit.

Information in the SEVP system of records may be shared with other DHS Components that have a need to know the information to carry out their national security, law enforcement, immigration, intelligence, or other homeland security functions. In addition, DHS/ICE may share information with appropriate federal, state, local, tribal, territorial, foreign, or international government agencies consistent with the routine uses set forth in this SORN.

Additionally, DHS is issuing a Notice of Proposed Rulemaking to exempt this system of records from certain provisions of the Privacy Act elsewhere in the **Federal Register**. This modified system will be included in DHS's inventory of record systems.

II. Privacy Act

The Privacy Act embodies Fair Information Practice Principles in a statutory framework that governs the means by which federal government agencies collect, maintain, use, and disseminate individuals' records. The Privacy Act applies to information that

is maintained in a "system of records." A system of records is a group of records under the control of an agency from which information is retrieved by the name of an individual or by some identifying number, symbol, or other matched identifiers assigned to the individual. In the Privacy Act, an individual is defined to encompass U.S. citizens and lawful permanent residents. Further, those persons who do not currently fall under the definition of individuals may naturalize or adjust status, thus becoming Privacy Act-covered individuals, over the course of this system's records retention schedule. Additionally, the Judicial Redress Act (JRA) provides covered persons with a statutory right to make requests for access and amendment to covered records, as defined by the JRA, along with judicial review for denials of such requests. The JRA also prohibits disclosures of covered records, except as otherwise permitted by the Privacy Act. Below is the description of the DHS/ICE-001 Student and Exchange and Visitor Program (SEVP) system of records.

In accordance with 5 U.S.C. 552a(r), DHS has provided a report of this system of records to the OMB and to Congress.

PURPOSE(S) OF THE SYSTEM:

The purpose of this system of records is to maintain the integrity of the U.S. immigration system by collecting, maintaining, and analyzing information so that only bona fide nonimmigrant students or exchange visitors gain entry to the United States and that institutions accepting nonimmigrant students are legitimate and certified and adhere to the federal rules and regulations that govern them. DHS and DOS use of records covered by this system of records are for the following purposes:

Identity Validation—To identify and validate the identity of F/M/J nonimmigrants, federal government personnel, and school and program officials to ensure data integrity, accuracy, and proper data matching, as well as to authenticate individuals who either access SEVP systems or need to update information maintained by SEVP.

Determination and Status—To facilitate and support determination activities related to admissibility into the United States and the eligibility and status of benefits.

Adjudication—To (1) review and decide whether to certify a school or designate an EV Program so that F/M/J nonimmigrants may enroll or participate in the U.S.-based school or program; and (2) use supplemental information such as open-source media (e.g., publicly available information in newspaper articles, school websites, government websites, social media sites and blogs, online forums) to support vetting of F/M/J nonimmigrants and their dependents and school and program officials who handle personally identifiable information (PII) for other officials at their school or program.

Compliance—To monitor the compliance of F/M/J nonimmigrants, schools, programs, and school and program officials with immigration laws and regulations, including those addressing employment and training activities and immigration benefits, that govern the following: F and M nonimmigrants and the schools that enroll or seek to enroll them through the

SEVP certification process; and participation of J nonimmigrants and programs within the EV Program.

Investigative—To perform administrative and criminal investigations related to the participation of F/M/J nonimmigrants, school and EV Program sponsors, and the schools and exchange visitor programs that enroll or seek to enroll individuals through the SEVP certification process, and to identify noncompliance with U.S. laws and regulations. Information is also shared with other law enforcement agencies for purposes of coordinating activities, such as administrative reviews and criminal investigations.

Analysis and Reporting—To create and provide reports for analyzing compliance issues and identifying activities and related individuals (if needed) for evidence-based decision-making.

Communication and Customer Relations—To provide customer service to individuals who contact the SEVP (e.g., via telephone, email, chat, social media), including providing general information about SEVP regulations, performing data corrections, and providing technical support to access SEVP systems.

Training—To keep track of training activities performed by school and program officials to validate compliance with SEVP requirements to access SEVP external-facing systems.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

SEVP collects, receives, captures, and maintains information on individuals who are U.S. citizens and lawful permanent residents, as well as information on persons who are currently nonimmigrants. DHS maintains this information in recognition that persons who are nonimmigrants may later adjust status to lawful permanent resident and naturalize to U.S. citizen and, therefore, become individuals covered by the Privacy Act. DHS provides this notice in anticipation of such an eventuality:

F and M nonimmigrants who participate as students in an academic or vocational program at SEVP-certified schools, as well as F and M dependents (e.g., spouse, minor children).

J nonimmigrants who participate in DOS-designated work or study exchange visitor programs, as well as J dependents (e.g., spouse, minor children).

Proxy, parent, or legal guardian who has legal authority to make decisions or sign documents on behalf of another individual who participates in a student

and exchange visitor program (e.g., a minor, an individual with disabilities).

School partners and representatives including the head of school (e.g., owner, president, chief executive officer [CEO], legal counsel) who has legal signature authority for the school and school employees (e.g., faculty members, student recruiters) who are employed by a U.S.-based school and interact with F and M students but who do not oversee the F and M students pursuant to the laws and regulations governing F and M nonimmigrant students and schools that enroll them (this is the responsibility of school officials). Also included are school partners (e.g., contractor who builds housing facility, sports program that uses school space) who provide a service for a school or manage activities on school sites that impact F and M students but who are not employees of the school.

School officials (individuals who are U.S. citizens or lawful permanent residents) who submit information for school SEVP certification and recertification and oversee F and M students enrolled at their school.

Exchange visitor program sponsors (e.g., an entity seeking to sponsor a nonimmigrant au pair, research scholar, intern, or government visitor) who must be designated by DOS to run an EV Program and host J nonimmigrants. This includes the program sponsor (e.g., owner, CEO, legal counsel) who has legal signature authority for the EV Program sponsor.

Program officials (individuals who are U.S. citizens or lawful permanent residents) who submit information for EV Program sponsor DOS designation and re-designation and oversee J nonimmigrants enrolled in programs offered by the sponsor.

Host families (individuals who are U.S. citizens or lawful permanent residents) who provide living arrangements for J nonimmigrants.

Financial support provider who, as an individual, organization, or government, provides support to F/M/J nonimmigrants.

Employers (e.g., supervisor, official with signature authority) of F/M/J nonimmigrants with authority to work in the United States.

Federal government personnel (i.e., federal employees and contractors) who manage the SEVP program and use information maintained by SEVP to support the DHS mission, and coordinate with DOS with respect to the J exchange visitor program-related data. Federal government personnel also use SEVP information to support other federal agency missions that align with

DHS's and DOS's oversight of nonimmigrant students and exchange visitors, including the ED, Department of Commerce, Department of Justice—Federal Bureau of Investigation, and federal intelligence agencies.

State government personnel (i.e., state employees and contractors) who interact with federal government personnel and exchange information for activities related to administrative reviews and investigations.

Governing bodies (e.g., licensing and accrediting bodies) that ensure the education provided by schools meets acceptable levels of quality and grant licenses and accreditation to schools that meet these criteria.

Members of the public (e.g., property owners, holding companies, school officials, F and M nonimmigrants, individuals of the general population) who (1) provide SEVP with information about things such as a school, program, or individual aligned with SEVP and potential infractions or illegal activities; (2) provide feedback about SEVP on the performance of SEVP employees, its programs, or its regulations; or (3) contact SEVP for other reasons.

POLICIES AND PRACTICES FOR STORAGE OF RECORDS:

DHS/ICE stores records in these systems electronically or on paper in secure facilities in a locked drawer behind a locked door. The records may be stored on magnetic disc, tape, and digital media.

POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:

Records may be retrieved by biographical and unique verification identifiers such as full name, date of birth, email address, SEVIS ID, IIN, FIN, OPID, and A-number.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

An SEVP program-wide, media-neutral records retention schedule is currently under development. ICE is proposing a 75-year retention schedule for program-specific records maintained by SEVP to facilitate program operations and carry out the mission objectives of the Agency. ICE will maintain these records permanently, until an Agency retention schedule is submitted to the National Archives and Records Administration (NARA) and approved by the Archivist of the United States. All other federal Agency records will be maintained in accordance with the appropriate general records schedule (GRS). For example, ICE will follow the appropriate retention periods outlined in the NARA-approved GRS for administrative records (e.g., audit information, system login, inquiries, reporting). The NARA-approved GRS can be found at <https://www.archives.gov/records-mgmt/grs>.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

DHS/ICE safeguards records in this system according to applicable rules and policies, including all applicable DHS automated systems security and access policies. DHS/ICE has imposed strict controls to minimize the risk of compromising the information that is being stored. Access to the computer system containing the records in this system is limited to those who have a need to know the information for the performance of their official duties and who have appropriate clearances or permissions.

RECORD ACCESS PROCEDURES:

The Secretary of Homeland Security has exempted this system of records from the notification, access, and amendment procedures of the Privacy Act, and the JRA if applicable, because it is a law enforcement system of records. However, DHS/ICE will consider individual requests to determine whether information may be released. Thus, individuals seeking access to and notification of any record contained in this system of records, or seeking to contest its content, may submit a request in writing to the ICE Privacy Officer and ICE Freedom of Information Act (FOIA) Officer, whose contact information can be found at <https://www.dhs.gov/foia> under "Contact Information." If an individual believes more than one component maintains his or her Privacy Act records, the individual may submit the request to the Chief Privacy Officer and Chief Freedom of Information Act

Officer, U.S. Department of Homeland Security, Washington, DC 20528–0655. Even if neither the Privacy Act nor the JRA provides a right of access, certain records about an individual may be available under the FOIA.

When an individual is seeking his or her records about from this system of records or any other departmental system of records, the individual's request must conform with the Privacy Act regulations set forth in 6 CFR part 5. The individual must first verify his or her identity, meaning that the individual must provide full name, current address, and date and place of birth. The individual must sign the request, and the signature must either be notarized or submitted under 28 U.S.C. 1746, a law that permits statements to be made under penalty of perjury as a substitute for notarization. Although no specific form is required, an individual may obtain forms for this purpose from the Chief Privacy Officer and Chief Freedom of Information Act Officer, <https://www.dhs.gov/foia>, or call (866) 431–0486. In addition, you should do the following:

- Explain why he or she believes the Department would have information being requested;
- Identify which component(s) of the Department he or she believe may have the information;
- Specify when the individual believes the records would have been created; and
- Provide any other information that will help the FOIA staff determine which DHS component agency may have responsive records;

If an individual's request is seeking records pertaining to another living individual, the first individual must include a statement from the second individual certifying that individual's agreement for the first individual to access his/her records.

Without the above information, the component(s) may not be able to conduct an effective search, and the individual's request may be denied due to lack of specificity or lack of compliance with applicable regulations.

CONTESTING RECORD PROCEDURES:

For records covered by the Privacy Act or covered JRA records, individuals may make a request for amendment or correction of a record by writing directly to the Department component that maintains the record, unless the record is not subject to amendment or correction. The request should identify each record in question, state the amendment or correction desired, and state why the individual believes that the record is not accurate, relevant,

timely, or complete. The individual may submit any documentation that would be helpful. If the individual believes that the same record is in more than one system of records, the request should state that and be addressed to each component that maintains a system of records containing the record.

To correct an ICE record, individuals may submit a Privacy Act amendment request by completing DHS Form 500–05 "Certification of Identity," which can be found at <https://www.ice.gov/privacy>. The signed form and a detailed request should be sent to the ICE Office of Information Governance and Privacy at ICEPrivacy@ice.dhs.gov, or to the following address: U.S. Immigration and Customs Enforcement, ICE Information Governance and Privacy, ATTN: Privacy Office, 500 12th Street SW, Stop 5004, Washington, DC 20536–5004.

NOTIFICATION PROCEDURES:

See the "Record Access Procedures" section.
