Title: Job Access and Reverse Commute Program (OMB Number: 2132-0563).

Background: The Job Access and Reverse Commute (JARC) program, provided grants for filling gaps in employment transportation. The primary beneficiaries of this program were low-income families and families coming off welfare assistance who otherwise would have a difficult time getting to jobs and related services, such as child care and training. The program was begun in 1999 and was continued under Section 5316 of the federal transportation legislation, Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU), passed by Congress in 2005. The JARC program authorized two kinds of grants: Job

Access grants (aimed at developing new transportation services for low-income workers and/or filling in gaps in existing services) and Reverse Commute projects (intended to provide transportation to suburban jobs from urban, rural and other suburban locations—but not necessarily just for low-income people). The JARC program was repealed under the Moving Ahead for Progress in the 21st Century Act (MAP-21). Although the program has expired, JARC activities are eligible for funding under FTA's Urbanized Area Formula Grants (Section 5307) and the Formula Grants for Rural Areas (Section 5311) programs. However, funds previously authorized for the program repealed by MAP-21 remain available for their originally authorized purposes until the period of availability expires, the funds are fully expended, the funds are rescinded by Congress, or the funds are otherwise reallocated.
