Modernizing Electricity Market Design; Notice Inviting Post-Technical Conference Comments

On September 14, 2021 and October 12, 2021, the Federal Energy Regulation Commission (Commission) convened staff-led technical conferences to discuss energy and ancillary services markets in the evolving electricity sector.

All interested persons are invited to file initial and reply post-technical conference comments on the topics in Parts I and II below, which contain the questions posed in each technical conference agenda. Commenters may reference material previously filed in this docket, including the technical conference transcripts, but are encouraged to avoid repetition or replication of previous material. Commenters need not answer all of the questions, but commenters are encouraged to organize responses using the numbering and order in the below questions. Initial comments must be submitted on or before February 4, 2022. Reply comments must be submitted on or before March 7, 2022.

I. Comments on Supplemental Notice for September 14, 2021 Technical Conference

We are seeking comments on the topics discussed during the technical conference held on September 14, 2021, including responses to the questions listed in the Supplemental Notice issued in this proceeding on September 13, 2021 in accordance with the deadlines and other guidance above. The questions from the agenda are included below.

Panel 1: Understanding the Need for Additional Operational Flexibility in RTO/ISO Energy and Ancillary Services Markets

1. RTOs/ISOs and other industry experts generally agree that power systems will require greater flexibility from system resources in the future.¹ What operational capabilities or services will be most valuable to RTO/ISO operators in the future as the resource mix and net load profile changes and
