SUPPLEMENTARY INFORMATION: This collection of information is necessary to implement grants for the FMA, PDM, and BRIC programs.

The FMA program is authorized pursuant to sec. 1366, 42 U.S.C. 4104c of the National Flood Insurance Act of 1968, as amended. FMA was created as part of the National Flood Insurance Reform Act (NFIRA) of 1994, Public Law 103-325. The Biggert-Waters Flood Insurance Reform Act of 2012 (BW-12), Public Law 112-141, consolidated the Repetitive Flood Claims (RFC) and Severe Repetitive Loss grant (SRL) programs into FMA. Under FMA, cost-share requirements were changed to allow more Federal funds for properties with repetitive flood claims. The FMA program, under 44 CFR part 77 (as of October 1, 2021, previously under 44 CFR part 79), provides funding for measures taken to reduce or eliminate the long-term risk of flood damage to buildings, manufactured homes, and other structures insured under the National Flood Insurance Program (NFIP).

PDM was authorized under sec. 203, 42 U.S.C. 5133, of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (Stafford Act), Public Law 93-288, as amended by sec. 102 of the Disaster Mitigation Act of 2000, Public Law 106-390. As a result of amendments by the Disaster Recovery Reform Act of 2018 (DRRA), Public Law 115-254, the PDM program was replaced with the BRIC program. Therefore, the PDM is established as a legacy program. The PDM program provided grants for cost-effective mitigation actions prior to a disaster event to reduce overall risks to the population and structures, while also reducing reliance on funding from actual disaster declarations. While the last cycle of the PDM program awards
