Expedited OMB Review and Public Comment: Recordkeeping for New Vaccine and Mask Requirements To Mitigate the Spread of COVID-19 in Head Start

AGENCY: Office of Head Start, Administration for Children and Families, HHS.

ACTION: Request for public comment.

SUMMARY: An Interim Final Rule with Comment Period (IFC) was published on November 30, 2021 that established the COVID-19 vaccination requirements whereby all Head Start staff, certain contractors, and volunteers must be vaccinated for COVID-19 by January 31, 2022. The Office of Head Start, Administration for Children and Families (ACF), U.S. Department of Health and Human Services (HHS), is requesting expedited review of an information collection request from the Office of Management and Budget (OMB) and inviting public comments on the following new recordkeeping requirements for Head Start programs:

(1) Collect and maintain records on the vaccination status of staff, certain contractors, and volunteers in Head Start and Early Head Start programs, and (2) develop and maintain a written COVID-19 protocol for testing individuals granted vaccine exemptions including granting such exemptions.

We also invite comments on the impact of this new requirement on the current requirement for Head Start programs to maintain, including regularly update, program policies and procedures for personnel (associated burden approved under OMB #: 0970-0148).

DATES: *Comments due within 60 days of publication.* In compliance with the requirements of the Paperwork Reduction Act of 1995, ACF is soliciting public comment on the specific aspects of the information collection described in this notice.

ADDRESSES: Copies of the proposed collection of information can be obtained and comments may be submitted by emailing *infocollection@acf.hhs.gov*. All requests should identify the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: ACF is requesting that OMB grant a 180-day approval for this

request under procedures for expedited processing. A request for review under normal procedures will be submitted as soon as possible within 180 days of the approval for this request. This request is for recipients of Head Start funding to maintain records of staff (including certain contractors) and volunteer vaccination status to meet the new vaccine requirements and establish written COVID-19 testing protocols, as required by IFC: Title (86 FR 68052).

Additionally, programs are expected to update their program policies and procedures to ensure costs associated with regular testing for those granted an exemption are an allowable use of Head Start funds. The recordkeeping activity of maintaining program policies and procedures for personnel, including the associated burden with updating them on an annual basis, is approved under OMB Control Number 0970-0148. Since the new reporting requirement impacts these activities, we also invite public comment on these reporting requirements.

There is no standard instrument required to be used to meet these recordkeeping requirements.

Respondents: Recipients of Head Start funding.
