

explosives transactions as outlined in 27 CFR 555.103, for compliance with the Safe Explosives Act.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* An estimated 46,500 respondents will prepare explosives transaction records for this collection once annually, and it will take each respondent approximately 30 minutes to complete their responses.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The estimated annual public burden associated with this collection is 23,250 hours, which is equal to 46,500 (total respondents) \* 1 (# of response per respondent) \* .5 (30 minutes or the time taken to prepare each response).

(7) *An Explanation of the Change in Estimates:* Due to fewer respondents, the total responses and burden hours were reduced from 50,000 and 25,000 hours respectively in 2018, to 46,500 and 23,250 hours currently.
