

Rules and Regulations

Federal Register

Vol. 87, No. 1

Monday, January 3, 2022

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents.

9 CFR Part 93

[Docket No. APHIS–2009–0095]

RIN 0579–AD10

Importation of Sheep, Goats, and Certain Other Ruminants; Correction

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule; correction.

SUMMARY: The Animal and Plant Health Inspection Service recently issued a final rule that was published in the *Federal Register* on December 3, 2021. The rule amended the regulations governing the importation of animals and animal products to revise conditions for the importation of live sheep, goats, and certain other non-bovine ruminants, and products derived from sheep and goats, with regard to transmissible spongiform encephalopathies such as bovine spongiform encephalopathy and scrapie. The final rule improperly worded an amendatory instruction that resulted in the unintentional duplication of a sentence and left an obsolete section number in the regulations for the location of the requirements for the importation of sheep and goats from Canada for immediate slaughter. This document corrects that inadvertent error and amends the regulations with the proper wording.

DATES: This correction is effective January 3, 2022.

FOR FURTHER INFORMATION CONTACT: Dr. Alexandra MacKenzie, Veterinary Medical Officer, Strategy & Policy, VS, APHIS, 4700 River Road, Unit 39, Riverdale, MD 20737–1231; (301) 851–3300, option 2.

SUPPLEMENTARY INFORMATION: On December 3, 2021, we published a final

rule (86 FR 68834–68864)¹ that will be effective on January 3, 2022, and that revised the regulations governing the importation of animals and animal products to revise conditions for the importation of live sheep, goats, and certain other non-bovine ruminants, and products derived from sheep and goats, with regard to transmissible spongiform encephalopathies such as bovine spongiform encephalopathy and scrapie.

The amendatory instruction to the Office of the Federal Register (OFR) for the revision to § 93.420 included an instruction to add a sentence after the heading for paragraph (a) introductory text. However, the instruction should have been to revise the first sentence after the heading of paragraph (a) introductory text.

By instructing the OFR to add a sentence after the heading of paragraph (a) introductory text as set forth in the rule, rather than revise the existing sentence, we inadvertently instructed the OFR to add a duplicative sentence and leave an obsolete section number in the regulations for the location of the requirements for the importation of sheep and goats from Canada for immediate slaughter. Our intention was to revise the first sentence after the heading for paragraph (a) introductory text and update the section where the requirements for the importation of sheep and goats from Canada for immediate slaughter could be found. Section 93.419 is currently listed in the regulations. However, the final rule removed and reserved § 93.419, and the sentence we added contains the new location of those requirements, which is § 93.435. Accordingly, this rule corrects our inadvertent error.

In FR Doc. 2021–26302 appearing on page 68834 in the *Federal Register* of December 3, 2021, the following correction is made:

§ 93.420 [Corrected]

■ On page 68859, in the first column, amendatory instruction number 10 is corrected to read as follows:

■ 10. In § 93.420, revise the first sentence of paragraph (a) introductory text to read as follows:

§ 93.420 Ruminants from Canada for immediate slaughter other than sheep and goats.

(a) * * * The requirements for the importation of sheep and goats from Canada for immediate slaughter are contained in § 93.435. * * *

* * * * *

Done in Washington, DC, this 28th day of December 2021.

Michael Watson,

Acting Administrator, Animal and Plant Health Inspection Service.

RIN 2120–AA64

Airworthiness Directives; Cameron Balloons Ltd. Fuel Cylinders

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; request for comments.

SUMMARY: The FAA is adopting a new airworthiness directive (AD) for certain Cameron Balloons Ltd. (Cameron) fuel cylinders installed on hot air balloons. This AD results from mandatory continuing airworthiness information (MCAI) originated by an aviation authority of another country to identify and correct an unsafe condition on an aviation product. The MCAI identifies the unsafe condition as quick shut-off (QSO) flanged adaptors manufactured with non-conforming (undersized) threads. This AD immediately requires either replacing the QSO flange adapter or inspecting the fuel cylinder for leakage and taking corrective action, and replacing the QSO flange adapter within 4 months. The FAA is issuing this AD to address the unsafe condition on these products.

DATES: This AD is effective January 18, 2022.

The Director of the Federal Register approved the incorporation by reference of a certain publication listed in this AD as of January 18, 2022.
